Resolved, That a special committee of five members be appointed to inquire into, and report upon the expediency of directing the mouth of the Atchafalaya to be closed.

The Speaker appointed the following members on said committee—Messrs, Taylor, Couvillion, Blanchard, Clark and O'Brien.

Mr Musson, on behalf of the joint committee of both Houses to which was referred the bill for the Inspection of Tobacco, passed by the Lower House at the last session and returned by the Senate for further consideration, submitted a written report, accompanied with a bill entitled:

An act regulating the Inspection of Tobacco in Hogsheads and in casks;

Which was read by the title only, and ordered to be printed, together with the report, for the use of the members.

The Joint Committee of both Houses, to which was referred the Bill for the Inspection of Tobacco, passed by the lower House at the last session, and returned by the Senate for further consideration, have the honor to Report:

That on a minute examination of said bill they have concluded again to offer the same, with such modifications as your committee have considered advantageous to make for the benefit and general security of the trade of this important branch of the commerce of the city, confirming also the provisions contained in the report made last session by the Committee on Agriculture, Manufactures and Commerce—to which report they respectfully call the attention of both Houses—and more particularly to the extraordinary increase in the receipts of this article from the year 1833, at which period there were shipped from this port but 23,637 hhds and in the last year the exports amounted to 92,509 hhds, including stemmed tobacco, making in ten years the enormous difference of 68,872 hhds. To the fertility of the lands in Kentucky, Tennessee and Missouri, so well adapted for the raising of Tobacco, must be attributed this great increase. The planters and traders of these States require from this Legislature such alterations in our Inspection laws as will effectually secure to all concerned, protection, economy, and security from fraud—the want of which will compel them to seek to direct from its natural channel this important and lucrative branch of our Western commerce.

The foreign importers also complain against the extravagance of charges, the want of proper security arising from the loose manner in which this trade is conducted in New Orleans. These complaints are numerous, and already have been the cause that upwards of 10,000 hhds. of tobacco, that would have otherwise come to this market last season, to be taken to the Northern States by interior railroads and other conveyances lately established. This is a bad precedent, and calls loudly upon this Legislature to enact such salutary laws as will prevent, if possible, a similar recurrence. Your committee would moreover observe, that nearly 1200 hhds of tobacco have been shipped, over and above the amount stated to have been received this season. This difference is supposed to arise from the quantity of loose tobacco taken from the hogshead on inspection. This of itself is a large item of loss to the owner, as this loose tobacco is sold at less than half price; hence the great necessity of reprizing the same back into the hogsheads from whence it came, to prevent in future this loss, and contribute to the preservation of its contents, which otherwise is necessarily exposed to moisture from the vacant space occasioned by drawing the samples from the hogsheads. That for the last ten years there have been on an average about 33,000 hogsheads of tobacco inspected annually in this port, and that the last year, from January to January, there have been 47,000 inspected. Your committee feel confident that most of the tobacco sent to this market would be inspected, if the present Inspection Laws were properly modified. They therefore respectfully submit the present bill, so amended as to do away with the objections that previously existed to its passage.

The whole is respectfully submitted for your consideration.

G. MUSSON, *of the House.*
A. HOA, *of the Senate.*

The President laid before the Senate a letter from E. Montegut, Esq., relative to a certain claim upon the state, which, on motion of Mr Davidson, was referred to the committee on claims.

Mr Morse presented a petition from some teachers of public schools asking payment of their claims against the state, which was referred, on his motion, to the same committee.

Mr Hoa presented a joint resolution appointing the committees of both Houses upon the judiciary to superintend the printing of the several reports and documents for the use of the General Assembly.

Mr H explained the necessity for the passage of this resolution.

It was taken up, and on motion of Mr Downs it was amended so as to embrace generally all printing required by the Legislature. It was passed as amended.

Mr Davidson presented a joint resolution fixing the adjournment for the 26th of February next. It was taken up and passed.

On motion of Mr Armant, the Senate took up the bill granting to R B Brashear the privilege of keeping a ferry across Berwick's Bay in the Parish of St Mary.—Passed.

On motion of Mr Sparrow the Senate took up the bill to extend the time for holding the term of the 9th Judicial District Court. The House of Representatives had disagreed to the amendment of the Senate, which consisted in substituting a new bill, and asked for a committee of conference.

On motion of Mr Sparrow, the Senate concurred in the appointment of this committee, and the President named Messrs Sparrow, Walker and Marshall on behalf of the Senate.

On motion of Mr Davidson, the Senate took up the resolution fixing the day of election for state printer returned by the House of Representatives with amendments, substituting Monday following in place of Thursday (to-day). Mr Hoa moved to concur.

Mr Sparrow was in favor of a more distant day, say Thursday week, as several members would probably be absent if the election took place on Monday.

After some remarks from Messrs Davidson, Walker and Hoa, the Senate concurred in the amendment.

Mr Walker introduced with leave an act to amend the charter of the Mechanics' & Traders' Bank and for other purposes, and on his motion it was referred to the committee upon finance.

On motion of Mr Walker, the several bills from the House of Representatives were taken up and underwent their first readings.

On motion, the Senate went into executive session, whereupon, on motion, the Senate adjourned.

Applies artificial teeth, which repairs ravages effected by age, of the same color of teeth, and which is the most precious substance that has yet been employed—one other can at this time, plumb the teeth so far as may be this!

The operation is made without any pain, and is achieved in a few minutes.

CONTINUES to relieve the most violent Toothache in a few moments, and at the same time restores the decay therein for less than 24 hours protracted action. The pain the teeth cause, however, that this remedy is not over [illegible] Panacea, it being not exactly said, and who have obtained it has yet been cured of toothache which had been made from an exposure of 24 hours.

For the truth of the above statement, the sceptical are referred to the following highly respectable gentlemen, many of whom speaks from their own experience.

Rev. W. A. Scott,	Dr. H. Tagarden
J. W. Stanley,	I. E. Generelly,
