PLATINA CEMENT.

DR. ACHILLE LION, Dentist, of the Faculty of Paris, after many researches, has discovered this valuable composition, which he applies with the utmost success in plugging decayed teeth, and eradicating tooth-ache. The composition of the Platina Cement, which is entirely mineral, is incorruptible; it is used cold, almost in a liquid state, and speedily acquires the hardness and consistency of the enamel of the tooth when in its purity. It will last for many years, not only as a preservative of the tooth, but also to render extraction unnecessary.

TO THE WORLD.

Can we for a moment look upon our wide-spread land and behold the fearful amount of suffering and disease that there exists, without a feeling of painful sympathy arising in our hearts, accompanied with the desire of bestowing relief if we possessed the power? No, we cannot; the human heart goes forth to meet its fellow, and extends to him the hand of sympathy, if nothing more. This may soothe, but it will not cure. He will still find himself an object that is loathed,—he still feels himself neglected, the anguish still lingers around his pillow. These all flow from the history of disease cannot help being [illegible] with the rapid increase of that peculiar class of disorders arising from an impure state of the blood, or habit of the system,—diseases of the mucous tissues; also of the [illegible] system, scrofula, cancerous ulcers and [illegible] cutaneous eruptions, chronic sore eyes, and diseases of the bones. The chief cause of their increase is owing to their being hereditary, running through whole families and spreading destruction along their path. But for all these disorders has a new medicine dawned upon the world; and in offering to the public this new preparation, which has for its object the relief of suffering humanity, it becomes necessary to state upon what grounds it puts forth its merits and the strongest upon which it founds its superior claims to the attention of the afflicted, that all who require its use may fearlessly repose full confidence in its restorative virtues. But let us introduce our reader more particularly to this new preparation, which has already been announced to the public under the name of

BANDS'S SARSAPARILLA.

This medicine is the result of years devoted to laborious chemical experiments in testing various modes of preparation, enabling them to concentrate in the most efficient form all the medicinal value of the true Sarsaparilla; and they have at last accomplished this most desirable result by the means of an entirely new, ingenious and costly apparatus. The process throughout is governed by strictly chemical laws, so that the essential principles, or the principle on which the restorative virtue of the Sarsaparilla depends, is entirely preserved. This is then combined with other articles, selected wholly from the vegetable kingdom, all of which are the most powerful purifiers of the blood, which are then concentrated into a fluid extract that has been found by experience to possess the important power of mediately arresting the progress of disease and restoring the patient to perfect health. Therefore, those suffering from disease arising from an impure state of the blood or habit of the system, such as obstinate cutaneous eruptions, rheumatism, chronic sore eyes, or diseases arising from an injudicious use of mercury, or imprudence in life, have only to use this preparation, which has all combined that can be useful in the removal of their complaints. Combined with the other advantages which the preparation possesses, the proprietors have reaped the experience of a scientific gentleman who resided many years in that country which produces the best, in fact the only true, species of sarsaparilla. The proprietors, during the many years they have been engaged in preparing it, have tried hundreds of experiments upon the human system, and have had the pleasure of witnessing its happy results in numerous instances; and they were determined not to offer it to the world until they had become thoroughly convinced of its efficacy. They have now succeeded in preparing a medicine whose restorative virtues are without a parallel in the history of medicine, which fact is fully substantiated by the numerous certificates and testimonials of cures of the most difficult kinds of disease.

This medicine has been prepared for the benefit of all suffering mankind, both rich and poor, and to the indigent poor it will be given without money and without price, by their bringing a certificate of their need from the pastor, the magistrate or alderman of their ward. And now let the testimony of suffering humanity, who are gathering round it thick and fast, and by whose inherent virtues the lame walk, the lepers are cleansed and the afflicted are healed, bear witness of its merits. Let it stand or fall by its own inherent virtues. What it has done once it will do again, and by its use the world will be relieved of a vast amount of suffering and disease. The proprietors have made arrangements for spreading it throughout the whole United States. That all may have it within their reach it is also their intention to introduce it into the hospitals, into the alms-houses, and into all the public institutions, where enlightened reason may be inclined to receive it, which have for their object the sufferer's relief. And to the American public the proprietors would say, let that medicine which is destined to bring health and healing on its wings to its thousands and tens of thousands, receive your favorable consideration—let all philanthropists sustain an article which has for its object relief to both rich and poor. As long as the medicine produces the desired result for which it is administered, and this has been proved again and again—is it not sufficient to all to administer it in cases where it has a benign influence may shed relief and happiness around the pillow of suffering and pain.

The following cure, at once so remarkable, so extraordinary, as almost to surpass belief, has, in order to place its truth beyond the reach of suspicion or doubt, been sworn to, this 16th day of August, 1842, before his Hon. Robert H. Morris, Mayor of the city of New York:

New York, August 22, 1842.

Gentlemen—A tale of misery and woe is mine to tell, and as memory ever constant in the task brings back scenes that have past, I shudder at the picture and almost wonder if it is so. For months stretched upon a bed of suffering and disease, racked by the most excruciating pain, drunk with agony—the only voice that came from my lips the voice of groaning, and only only prayer was for death. Often and often while others slept in the still hours of night, I have turned my face to the wall and wished to die.

Although I stood on the brink of eternity, and the thread of life was nearly severed, yet I still breathed on, the lamp held out to burn; I little thought it would be ever trimmed again, and only hoped that death would swallow up the flame. My sickness was first brought on by my imprudently exposing myself to a strong current of air while over-heated, which caused a sudden check of perspiration. My complaint at first seemed light and hardly worth while to call a physician; but it soon began to grow worse, and a physician was called, who prescribed some pills, containing a powerful preparation of mercury, to be followed by sarsaparilla root and lignum vitæ made into a tea, which I continued using for several months without intermission. Soon after taking the mercury I began to feel its poisonous influence. My whole glandular system became affected. Also the bones, joints and muscles; lumps formed upon the shin nearly as big as an egg, accompanied with intense burning heat, which kept swelling until they broke, and discharged matter and blood. These continued to increase until they covered my whole body. But this was only the beginning of my afflictions, now commenced those torturing pains termed 'chronic rheumatism.' At times it seemed as if I was stretched upon a rack, and all my limbs were being torn from each other; at others, as if sharp knives were piercing me in every point. The muscles of my legs contracted in knots, and were as hard as a bone. My distress was so great that my groans at night disturbed the whole house and all the families in the adjacent buildings. I had not slept a night since the early part of December last; the only sleep I obtained was a few hours during the middle of the day, pillowed up in a chair, and the eruption had also fearfully increased. My face was completely covered with an extended sore. I had now shrunk a mere skeleton; the skin and flesh were so diseased around my thighs that the bones nearly protruded, and the physicians pronounced my case beyond the reach of medicine.—Oh how I wished that I might die. From my long and protracted illness we had become much reduced in circumstances. A short time since, while looking in the papers, I noticed an account of Sarsaparilla cures in connection with a certificate from Mr. Burdock, of a most extraordinary cure made by its use. The case in some respects resembled my own, and I found that lingering hope still clung to life. It seemed like a whisper from heaven. The second day after I commenced taking it, I felt the pain much easier and went to sleep. I did not sleep like the before for months. By the time I had used one bottle, the pain had nearly left, the eruption was also much better.—I now felt a stronger hope gathering in my breast that I should live—perhaps be cured. No; this could not be. I dared not believe it. I sent and got another bottle, continuing to improve rapidly, and still another, and I—I a few days since I miserable, suffering, dying man, was now well. Two weeks from the day I took the first dose, I was out, and walked nearly three miles without even the assistance of a cane. And now, gentlemen—yes, now, I am well; and have testified before my God, upon His sacred word, that all might believe this statement, for it is true. Oh for the tongue, could these cold words paint the fearful nights of agony, those dreadful days of suffering—True! Yes, gentlemen, I herald it to the world that all may know what your preparation of Sarsaparilla has done for me. My heart yearns towards those suffering and afflicted like I was, and I only hope this statement will induce others to pursue the same course for relief.

Ever gratefully yours,
THOMAS TURNER, 43 Anthony st.

City and County of New York, ss: I hereby certify that on this 16th day of August, 1842, the above named Thomas Turner appeared before me, in the Mayor's office, and having been duly sworn, stated that the above statement by him subscribed, was true. ROBT. H. MORRIS, Mayor of the City of New York.

I do hereby certify that the above is a correct statement of the case of Thomas Turner, and the effect of your Sarsaparilla upon him; his wife being a member of my congregation I have frequently visited them and know the facts to be true. SEYMOUR VAN DEUSEN, Pastor of the Methodist Episcopal Church, Duane st.

We, the undersigned, being neighbors of Thomas Turner, do hereby certify that the above is a correct statement of his case and the operation of your Sarsaparilla upon him.

The proprietors also submit to the public the following certificate, from a highly respectable source, of a case made by using their preparation of Sarsaparilla, which cannot but have the effect of placing beyond all doubt the curative powers of this medicine:

New-York, August 2, 1842.

"Messrs. Sands—Gentlemen: Under a feeling sense of gratitude induced to me all when suddenly relieved from suffering and disease, I now, as an act of justice due to you, and with a view of relieving the afflicted, make known to the world the inestimable benefit I have received from the use of your Sarsaparilla. In the year 1833 I sailed from England in a vessel bound for Quebec, and while on the passage first discovered the disease which after proved to be a sore affliction; and truly I can say, 'from the crown of my head to the sole of my feet there was no soundness in me.' From the time first mentioned down until the present, a period of more than ten years, I have suffered all that human nature was capable of bearing. I have been under the care of the most distinguished physicians, both in this country and in England, visited Bath, Cheltenham, Bristol and Gloucester, tried various specifics, among others a large quantity of Swaim's Panacea, used sulphur baths, &c. &c. As a last resort I was induced to wrap myself in a tar ointment, keep myself secluded, shunned by all, myself also shunning. I was induced to believe my case a hopeless one.

In August last, by the advice of friends, I went to the New York City Hospital, but was there told that my case was incurable. The disease now enveloped my whole body, rendering me almost helpless; the skin thickened and cracked, and blood and matter ran, and life itself became almost a burthen. A few weeks since I was induced to use your Sarsaparilla by hearing it so highly recommended, having spent near $5000 without obtaining but little relief. After using it a short time I found myself better, and now, by using six or eight bottles, costing me less than ten dollars, I am well. Yes, I certify and declare to the world, that after spending near $5000 in travelling and doctoring, and suffering more than can be told, I was perfectly cured by using your invaluable preparation of Sarsaparilla; and now I recommend it to all similarly afflicted. Those wishing to know further particulars will find me at my residence, No 27 Warren street, New York, where I shall be happy to communicate any thing in relation to the above cure. PAUL BURDOCK."

ITS OWN WORKS PROCLAIM IT.—Let the following speak for itself:

New York, August 16, 1842.

"Messrs. Sands: Gentlemen—Owing to you a debt which money cannot pay, I am induced to make a public acknowledgement of the benefit I have received from your (to me) invaluable preparation of Sarsaparilla. I was sorely afflicted with a terrible cutaneous disease, hereditary in our family, which commenced on my neck, and, continuing to spread, soon reached my ears, running into my head, and extended all over my face, neck, arms and lower extremities. I became a disgusting object to look upon. At times my distress was so great that I was unable to lie [illegible] down, and the disease extending [illegible] affected my hearing. [illegible]

FIRE PROOF SAFES—RICH'S IMPROVED SALAMANDER SAFES.—The superiority of these Safes over all others now in use, consists in their being not only fire proof, but also protected from the serious objection to other Salamander Safes, in the fact that papers, books, &c. are preserved perfectly dry, while abundance of proof exists that others do mould the books, and impair the dampness to the papers. The gentlemen whose names are annexed, were a committee on the trial of the Safe in an air furnace at the foot of Wall street, and the following is their opinion of it:—

"Judging from the result of the experiment, we think Robertson & Rich's Safe equal to any yet invented for the preservation of books and papers from fire, and recommend to the confidence of the community.
