di précis, à la Bourse de Hewlett,
NEUF LOTS DE TERRE.
situés entre les rues St. Philippe, Ursulines
et des Marais. Lesdits lots sont en
partie entourés de neuf, et quelques uns
d'entre eux n'ont besoin d'aucun remblais.
Conditions de la vente.—Un et deux ans
de terme en billets endosses à la satisfac-
tion du sousigné, et hypothèque speciale
jusqu'à parfait paiement.
27 Dec. P. DUPEUX.

SUGAR LANDS FOR SALE.
TWO handsome tracts of land adjoining each
other, one 31 arpents, the other 14 arpents
on the river, by 40 in depth, situate in the parish
of Plaquemine, left bank of the river, distant about
one mile from the plantation of Mr. Williams, and
30 miles from town.

The tract of 31 arpents is covered with wood
down the river, furnishing good fuel as well as
cypress. Of the tract of 14 arpents front, about
100 arpents cleared, and can be worked and cul-
tivated immediately. The two united would form
a very handsome Sugar Estate.

The experience of many years shows that the
soil succeeds better in this parish than in
any part of Louisiana; that it yields better
in much less soil; that it is generally
prolonged to the last days in
the autumn season. There are now
22 Sugar Plantations, some of which
are from 20 to 30 working hands.
The parish during the present season will
produce about 100,000 pounds of sugar.
The lands are built or filling for the
cultivation of sugar, which secures a good price for
the sugar and makes an important revenue from
the land.

These tracts of land will be sold together
or separately as may suit purchasers, and a long
time will be given on proper security.
For further information, as well as for terms and
price, apply to Mrs. A. Alat and E. gene Macarty
or to Mr. S. B. Dufau, in New-Orleans, or on the
in the parish of Plaquemine.
Dec. 20

FOR SALE.
A valuable property, situated in
Jefferson parish, Lafayette sub-
urb, in Jefferson street, consist-
ing of two LOTS, on which are erected
a framed STABLE, with an upper and
lower floor, a Bake-House, a fine dwell-
ing HOUSE, a Well, a Chicken-House,
&c. &c. Also, 16 Lots situated on the same
street, 12 of which are fenced in. For
conditions apply to

FOR SALE by the subscriber, 250 pieces of
Dutch being cotton burlap, full weight,
Dec 15. ED. MARTINEAU.

THURSDAY, JANUARY 10, 1828.
Mobile, January 3.
The Post-Master of Augusta, has
informed the Editor of the Courier,
that after the first of January, there
would be no mails back between
Augusta and Mobile. We are
not without hopes that this arrange-
ment may continue to this city.

[From the Pennock Gazette, Dec. 31st.]
General Scott, accompanied by Lieut
Colt, the Aid-de-Camp, arrived in this
city, on Saturday last, 29th. We
understand that he reviewed the
United States Troops, stationed at Can-
nonment Clinch, near this city, on Sun-
day last, and was to have proceeded in
the Mingo, for Tampa Bay, on the same
evening, but has been detained by head
winds.

Emigration from Great Britain.—We
learn from an official source, that
less than 15,027 emigrants from Great
Britain have arrived at this port since
the first of January, 1827, to the
first of January, 1828; from England, 6,021; from
Ireland, 5,800; and from Scotland, 2,606.
Y. M. Ad.

COTTON MANUFACTURES.—Necessi-
ty, the mother of invention, will drive
a portion of our lives to more
profitable employment, than the cul-
ture of cotton, and we have but little
doubt that many of them will ere long
be converted into operative manufac-
tures of the raw material. At least to the
extent of our home consumption. Public
attention is every where awakened to
the subject, and we have occasionally
perused in our readers such facts and
estimates as we thought would be most
likely to induce some enterprising per-
sons to make the attempt in this section
of country. We have recently been
favored with the perusal of a letter from
a gentleman in Kentucky to his corres-
pondent here, and have been permitted
to make the following extract for publi-
cation:—"I have just completed a ma-
chine of my invention, made on purpose
for the cotton planters, and for which
I shall obtain a patent. It is very sim-
ple, and I can, with five hands, prepare
and spin as much yarn of cotton for bag-
ging in a day as 30 hands can of hemp
of the same purpose. With 20 s i d e
and 2 hands, I can do as much spinning
(w a y and filling) in a day as 6 looms
can weave. The expense of all the
machinery for making 58,000 yards of
bagging a year, would not cost as much
as the hire of the hands for a similar
establishment of 100 hands. From
experiments that I have made, I can
spin, by my machine, in one hour, to
spin upon any machine as well as any
man in the world.
"You may spin a thread fine enough
for negro clothes and one course
enough for rope yarn, upon the same
machine without any other alteration
than changing a pulley."
Southern Advocate, Dec 14.

Judge Rochester was in New-York,
on the 6th, and was shortly to embark
in a national vessel for Central America
as charge d'Affaires of the United States
to that republic.
It is said that the delicacy of Mr. Ran-
dolph's health will not permit him to
remain at Washington but a few days.

[From the Boston Patriot, Dec. 12.]
OUR FINANCES.—From the Presi-
dent's Message we extract the follow-
ing favorable view of the finances of the
United States. The receipts into the
Treasury during the first three quar-
ters of the year were 16,886,581 dollars
32 cents, and those of the present quar-
ter are estimated at 4,515,000 dollars,
forming an aggregate of 21,400,000 dol-
lars of receipts; and although 22,300,-
000 may have been expended, upwards
of 6,000,000 has been applied to the
public debt, which will have been re-
duced on the 1st of January next from 74
to less than 67,000,000. The balance
in the Treasury on the 1st of January
next is expected to exceed 5,450,000 dol-
lars. The amount of duties secured on
imported merchandise up to the 30th of
September last is 21,236,000, and the
probable amount which will be secured
during the remainder of the year is
5,774,000, forming a total of 27,000,000.
The President concludes his remarks
upon the financial concerns of the nation,
by recommending economy in the
expenditures, and by a reference to the
fact, that during the last three years
1,000,000 of the public debt has been
paid, and upwards of one million of in-
terest annually, saved to the nation.

ROME, Oct. 10.—Letters from Syria
and Misra bitterly complain of the ex-
cesses, committed in the most daring
manner, by the pirates, who swarm in
those seas, on English, Austrian, Sar-
danian, Genoese, French, American,
and other ships.

JACKSON BALL,
FOR THURSDAY JANUARY 10, 1828.
A COMMITTEE of the Legislature
having met at Mr. John Davis's, in
the Orleans-Room, for the purpose of or-
dering a BALL to General Jackson, on
the Evening of Thursday, 10th January,
the Citizens who wish to participate on
this occasion, are informed that Mr. Davis
has opened Subscription Lists, which are
deposited at Richardson's Hotel, at Hew-
lett's Coffee-Houses, and at the Orleans
Room, ten dollars per Subscriber.
Jan. 10.

ON SALE, a quantity of superfine Irish pota-
toes, 10 tons Queenston slates, 18 tons Coun-
ess and Dutch slates; received by the Bulfinch
from Belfast; apply to
dec 15. CURRIE, LES ASSÉS, ED. CHAW

Extract of a letter from Bahia, Nov. 1.
"As respects the success of the
doubt fully, the half of the import
from the United States left on our
remains on hand, which is our opinion
will fully supply the wants of our far-
mers for this description the coming
year. The crops in Holland and Rus-
sia, is supposed as of good quality,
and of an average in quantity; we
have no idea the imports from either
country will be otherwise than limited,
as our farmers cannot grow flax here
at the rates we import the Dutch, for
we cannot but look for a still further
diminution in the supply."
Manchester.—The general Cotton
trade is still in a very depressed state,
and prices are on the decline from the
raw material up to manufactured goods.
There is evidently too many goods in de-
mand, and stocks are accumulating
everywhere notwithstanding the sacrifice
made in price to keep them down. The
crops of the year, already sown, are
too low, and the quality of the
steam-boat cloths to the same. The
accounts respecting the trade of the
East Indies are rather contradicto-
ry. It is stated on the one hand, that
the trade is overdone, and the markets
stocked; on the other hand it is admit-
ted, that the profits are much reduced,
but that the demand continues. There
have certainly been shipments made for
that quarter, which are expected to
prove of great interest to the manufac-
turers of this country.—New-York Ex.

War Falmouth.—We under-
stand that orders have been received
at the naval station in Charleston,
(Mass.) to fit the new ship of war
Falmouth immediately for sea. It is ex-
pected she will be ready in all January.

**Extract of a letter, dated Bahia, Oct.
13, 1827.**—The Brazilian brig of war
Imperial Pedro, (Leal, Commander,
(formerly the Bolivar), of 11 guns and
150 men, captured the Buenos Ayrean
brig of war Patagonia, of 5 guns and 50
men, after an action of nearly two hours,
during which period the crew of the
Buenos Ayrean made two attempts to
board, but were repulsed by the severe
and heavy fire of musketry from the
Imperial Pedro. Captain Love, of Phi-
ladelphia, commander of the Patagonia,
was killed during the second attempt to
lead on his boarders, and shortly after
the Patagonia's colors came down, and
she was brought in great triumph into
a port. The Patagonia's log was fit-
ten fathoms and 6 or 7 fathoms; she was
a mere shell of a thing and had no regu-
lar quarters to protect her men, whilst
the Imperial Pedro had complete bul-
works. Government were so highly
pleased with this success that they pur-
chased the beautiful brig Express, of
Philadelphia, for 180,000,000, but this
will net very little more than what the
Bulwar sold for; specie was than 7 per-
cent prem. whilst now it cannot be pur-
chased for less than 30 per cent prem. We are
in a wretched state as regards our cur-
rency there is nothing but false copper
in circulation which makes times very
peculiar, not knowing what moment
it may be cried down and of course
very heavy losses must be sustained.

The last of the steam boats constru-
ted in London for the Greeks, under the
management of the Greek Committee
of this city, was accidentally burnt on
the River Thames; and the previous
one, the Enterprize, is said in the Times
to have foundered at sea. To lessen
the sorrow which the friends of Greece
might feel on hearing of this disaster
she is declared to have been unfit for
service.

From the New-York Evening Post.
The Grand Jury yesterday found bills
for misdemeanor against Messrs. Al-
bury, M'Leod and Dr. Pennell, charged
with being concerned in the late duel
which resulted in the death of Mr. Cra-
ham. We understand inquiry was made of the
Court whether a bill for murder would
lie, the wound being inflicted in another
state. The opinion of the judge was,
that an action for murder could only be
brought in the state where the wound
was inflicted.

REMOVAL.
SULPHUROUS BATHS.
D OCTOR RENOU, has the honor
of informing his colleagues and the
inhabitants of New-Orleans and of Louisi-
ana, that he has removed his establish-
ment of Sulphurous Baths from 218 N. Street
No. 127 to Barracks Street No. 156, at the
corner of Burgundy in the house lately oc-
cupied by Dr. Fermeux.

It is generally known, how much benefit
is obtained by sulphurous bath in chro-
nic diseases, rheumatic complaints, psoria-
sis, and other serious ailments, it is need-
less to quote here the numerous instances of
mediate cure and relief afforded by the
application of that remedy.
Mr. Renou has availed himself of his re-
moval, in constructing a new apparatus
and making his establishment free from
any kind of approach that could have been
made to the former one.
The steam for the reception of which
people is totally separated from the one fixed
for negroes.
His new lodgings afford him the means
of receiving certain number of sick
persons wishing to board at his house.
He has provided a spacious hospital, and
his house being situated in a retired part
of the town less crowded with houses than
others, makes the situation perfectly
wholesome.
Price for 12 Baths, \$ 16
" 6 " " " " 8
" 3 " " " " 4
For treatment of negroes per day, 1
Doctor Renou will however take with
the persons who will apply to him all pos-
sible arrangements.

During the last year of his practice in
Paris, Doctor Renou has been intimate
with the celebrated Dr. Thompson inventor
of the most efficient method of curing is-
churia (retention of urine) and he has been
personally afflicted himself with the disease
of that disease; he has seen in his practice,
also a complete collection of all the instru-
ments necessary for the cure. He may ensure
to those persons affected with the above
complaint, who will apply to him, a prompt
and safe cure from his method of treat-
ment.

AUCTION SALES
BY TRACI L. M'COY.
ON WEDNESDAY the 16th
January next, at 12 o'clock, at the Exchange
of the City of New-Orleans, will be sold the valuable
Plantation called "Magnolia Grove," situated at
Terre-aux-Bœufs, about 10 miles below New-Or-
leans, and about 1 mile from the Mississippi, con-
taining 1320 acres of land, having
two fronts, each 19 arpents upon the Bayou Terre-
aux-Bœufs, 20 arpents in depth; together with
the improvements thereon, consisting of a fine
dwelling house of 6 apartments, kitchen, 2
bath-rooms, 2000 bushels of mill, with an
excellent English iron mill, capable of
containing about 200 bushels of grain, and
a large quantity of stock, including a fine
breed of cattle, sheep, hogs, and three
hundred AVES. The land is well adapted, and
drained, ready to be cultivated, and calculated
for the production of sugar. A crop of 26,000
of sugar was raised last year, and with an ade-
quate force it is supposed to produce 100,000 lbs. in
The supply of wood is ample, and there is a good
canal to facilitate its transportation. There is
a small portion of the land which forms a drain-
age for the other parts of the estate; that might be profit-
ably employed in the culture of rice for the
years crop, the said 20 arpents of rice, and it
is supposed a sufficient quantity of plants to plant 200
acres. The estate possesses the great advan-
tage of not being subject to inundation by the
sea, and no expense is incurred by the owner of
repairs of levees.
Conditions.—Notes at 1, 2, 3, 4, and 5 years,
with interest from the date of the sale, at the rate of
per cent per annum, payable by mortgage on the
property, together with all other additional ac-
cessories for one half the amount, by endorsement of
either, or as may be deemed satisfactory by the
vendor. Also, a small time and place, will be
made separately, on a credit of 12 months, with
proved security, 12 valuable shares, who have been
employed on the above plantation for several
years past.

For treatment of negroes per day, 1
Doctor Renou will however take with
the persons who will apply to him all pos-
sible arrangements.

During the last year of his practice in
Paris, Doctor Renou has been intimate
with the celebrated Dr. Thompson inventor
of the most efficient method of curing is-
churia (retention of urine) and he has been
personally afflicted himself with the disease
of that disease; he has seen in his practice,
also a complete collection of all the instru-
ments necessary for the cure. He may ensure
to those persons affected with the above
complaint, who will apply to him, a prompt
and safe cure from his method of treat-
ment.
