GENERAL COUNCIL.

SITTING OF WEDNESDAY, JANUARY 30, 1844.

The Council met this day agreeably to adjournment.

Mr C. Roselius was called to the Chair.

Present—First Municipality: C. Roselius, J. F. Pepin, F. Buisson and C. H. Taney.

Second Municipality—W. H. Avery, W. T. Hepp and D. J. Rogers.

Third Municipality—J. O. Peyroux, A. S. Lewis and F. Gardere.

Absent members—Third Municipality: J. R. Vienne.

On motion, the Council proceeded by ballot to the election of a President. Messrs. Lewis and Gardere being appointed tellers, on counting the votes, it appeared that out of ten votes deposited in the box, C. Roselius, Esq. had obtained nine votes; one vote blank. C. Roselius, Esq., was therefore duly elected President.

The journal of the preceding sitting being read and approved,

Mr Avery, on behalf of the committee to whom had been referred the resolutions from Municipality No. Two, relative to steamboats, and the resolution from Mr Buisson relative to the French steamers, stated that the committee is now ready to report on the resolution relative to steamboats, and though the General Council has no right to statute definitively on the resolutions relative to the French steamers, the committee nevertheless was in favor of the same, and reported the resolution presented by Mr Buisson with a proviso, and said resolution so amended was adopted as follows:

Whereas, the intention of the French Government is to establish two lines of steamers to run between the port of New Orleans and France; considering that the commerce of this city would largely be benefitted by the advantages to be derived from the establishment of a direct communication through trans-atlantic steamers;

The General Council ordains as follows:

The French Trans-Atlantic steamers shall be admitted within the limits of the port of New Orleans, free from all levee dues; Provided, however, the municipality in which said steamers may ask to moor, give their consent thereto.

Mr Rogers, on behalf of the committee to whom had been referred the resolutions from Municipality No. Two, in relation to Gunpowder, presented a project of an ordinance concerning the same.

On motion, said resolution, after being read, was ordered to be printed and made the order of the day for the next sitting.

Mr Gardere offered a resolution in relation to barges owned by residents and used by them for the transportation of the products of their plantations;

Said resolution, after being read, was, on motion, made the order of the day for the next sitting.

A project of an ordinance relative to fire wood was submitted by Mr Buisson, and was, on motion, ordered to be printed, and made the order of the day for the next sitting.

Mr Roselius informed the Council that the committee charged with the examination of the preamble and resolutions adopted by Municipality No. One, in relation to the re-establishment of the hall licenses, has maturely examined the subject and that out of 62 licenses taken by sundry persons 57 have been paid for; and that the committee is of opinion that the same ought not to be taken into consideration by this Council, and prayed that said committee be discharged.

On motion, the verbal report was adopted and the committee discharged.

Mr Avery offered the following resolution, which was adopted:

Resolved, That the Mayor order an election of a member of this Council, in conformity to law, to fill the vacancy occasioned by the decease of Jedediah Leeds, late a member representing Municipality No. 2.

On motion, the Council adjourned till Thursday next, February 8th, at 6 o'clock P. M.

J. REYNES, Sec'y.

COUNCIL OF MUNICIPALITY NO. THREE.

SITTING OF SATURDAY, 27th January, 1844.

The Council met according to adjournment.

Present—Messrs Delassus, Culbertson, Boylan, Bureau and Barthelemy. A moment afterwards Mr De Feriet took his seat.

Absent—Messrs Boulet and the Hon. A. Vienne, Recorder.

Mr Barthelemy having been called to the chair, on motion of Mr Delassus, Mr De Marans was appointed Secretary, pro. tem. in place of J. R. Vienne, sick.

On motion, the Council proceeded to elect a President pro. tem. for this sitting, in the absence of the Recorder.

Messrs De Feriet and Bureau being appointed tellers, it appeared that out of 6 votes Mr Barthelemy obtained 4; Mr Boylan 1; blanc 1—consequently Mr Barthelemy was duly elected President pro. tem. for this sitting.

After reading and approving of the proceedings of last sitting, the following message from the Mayor was read:

Mayoralty of New Orleans, 20th January, 1844.

To the honorable the President and members of the Council of Municipality No. Three:

Gentlemen—

I have the honor to inform you that agreeably to an ordinance passed at your sitting of the 6th instant, public notice was given that the Port Market would be sold at my office on the 18th instant. Conformably thereto, I proceeded to the adjudication of the market, and the highest bid received was five thousand two hundred dollars, from Mr Francois Turé, to whom it was adjudged. Mr Turé offers as his security Mr L. Tallio, with a transfer of the mortgage he holds on Mr Tallio's property to the municipality as additional security.

Mr Turé took charge of the market on the following day, and commenced the collection of the revenue.

Very respectfully,

I am, gentlemen,

Your obedient servant,

(Signed) WM. FRERET, Mayor.

On motion of Mr Delassus, it was resolved that the Council approve of what had been done by the Mayor.

A letter from Messrs Wm. S. Stevens and J. Littlefield was read, praying the Council for permission to erect a forge or blacksmith shop in a lot situated on Elysian Fields street.

Mr Boylan offered the following resolution, which, on motion, was adopted:

Resolved, That the Council of Municipality No. 3 grants permission to Wm. S. Stevens and J. Littlefield to erect a blacksmith shop or forge on the vacant lot fronting on Champs Elysees, bounded by Victory street and Moreau street, provided that the said Wm. S. Stevens and J. Littlefield conform with all the police regulations of Municipality No. 3, and remove the said blacksmith shop or forge whenever the Council of the said municipality shall deem proper.

A petition from Mr Andrew Miller was read, praying the Council to exempt him from the payment of a judgment obtained against him for the sum of $75.

Mr Culbertson offered the following resolution, which on motion was adopted after dispensation of the rules:

Resolved, That Andrew Miller be exempted from the payment of the judgment obtained against him, provided he pay the costs and the attorney's fee.

A letter from Mr Patrick Mesterew was read, and, on motion, referred to a Special Committee.

The Chair appointed for said committee, Messrs. De Feriet, de Lassus and Bureau.

A letter from Mr A. Peyroux was read, praying the Council to exempt him from the payment of a fine of $100, imposed on him by His Honor the Recorder, for having sold spirituous liquors without a licence.

On motion, said letter was deposited on the table, subject to the call of the Council.

A letter from Mr J A D'Hemecourt, Surveyor, was read, relative to different repairings to be made in the interior of the jails, and to the pavement of the Port Market; and, also, praying to be authorized to buy posts for dead bodies.

Mr Delassus offered the following Resolutions, which were adopted after dispensation of the rules:

Resolved, That the Surveyor be authorized to cause to be made the repairings mentioned in his letter of this date, concerning the Fruscati Jail.

Resolved, further, That the Surveyor be authorized to buy posts for dead bodies, of the dimension stipulated in his letter of this date.

On motion, the section of the Surveyor's letter concerning the pavement of the Port Market, was referred to the Committee of Control on Public Works.

A letter from Mr P H Colson was read, offering to the Council Messrs. W Debuys and D O Nadaud as securities for his situation of Treasurer's Clerk.

On motion of Mr De Feriet, it was Resolved, That Messrs. Wm Debuys and D O Nadaud be accepted as securities of Mr P H Colson, for the situation of Treasurer's Clerk.

A letter from Mr J Sharkey was read, and, on motion, referred to a Special Committee.

The Chair appointed for said committee, Messrs. Culbertson, Bureau and De Lassus.

A letter from Mr F Rapp was read, offering to the Council, to undertake the confection of two wharves, one opposite the Saw-mill, and the other opposite Mr Brownlee's.

On motion, said letter was referred to the Committee of Control on Public Works.

A letter signed Em. Allou D'Hemecourt, for Wm Downing, was read, and, on motion, referred to the Finance Committee.

A letter from Mr P Bayhi, formerly jailor of this municipality, was read, offering the Council certain accounts.

On motion, said letter and accounts were referred to the Police Committee.

Call of the Committees.

Mr Bureau on behalf of the Finance Committee, offered the following report and resolution, which on motion were adopted:

The Finance Committee, to whom was referred the letter and accounts of A. Brugier, ex-syndic of the 4th ward, return the same to the Council with the following remarks and accompanying resolution:—

With the exception of the account sales, certified by Mr. Charbonnet, public auctioneer, A. Brugier has not transmitted to this Council, the documents required of him by the resolution of the 11th November, 1843, adopted anterior to his office being declared vacant.—Your Committee think it necessary to mention, the consequences that may result from an unlawful act, of the said Brugier, while syndic. "The municipality is solely responsible to the owners of the cattle sold, while "Brugier and his securities are responsible to the municipality." Your Committee, therefore, recommend that the said Brugier be compelled either amicably or by law, to render all true and certified documents appertaining to the syndicship while he was in office, viz: The accounts kept by himself, the payments made for advertising; the amounts paid to person or persons who have brought strayed animals to Pound according to law; the whole of which shall be sworn to, by him, before the Recorder of this municipality. An amendment to the Ordinance in relation to Public Pounds, adopted 8th July, 1843, required of all pound keepers, a statement to be handed weekly into the office of the Recorder. A. Brugier never complied with the requisites of the law. Your Committee must acknowledge, that they cannot conceive, how the said Brugier, could have been so exact in his dates, when he must have trusted to memory for items. Your Committee are led to this belief by the information received from the Treasurer of this municipality, who states that after the said Brugier had rendered his accounts, and stated that the balance then paid over by him, was all that was due the municipality; but after the passing of your Resolution of 2d December, 1843, requiring certified acts; said Brugier came into the Treasurer's office and there paid $2 more, stating that he was in error in his accounts, without however showing how the error occurred. Your Committee are fully aware that if the accounts called for in this report are furnished in the form required, that a few more discrepancies will be found to exist. They therefore offer the following resolution:

Resolved, That A. Brugier, ex-syndic of the 4th ward of this municipality, be requested to furnish to this Council, within fifteen days from the passing of this resolution, all the accounts required of him, in the accompanying report, with the proper oath attached thereto, in default of which, the Treasurer of this municipality is required to give the necessary information to the consulting attorney of this municipality, and that it shall be the duty of the said attorney to immediately compel the said Brugier, ex-syndic of the 4th ward, of this municipality, and his security, before any court of competent jurisdiction to render said accounts.

L. P. BUREAU,
J. S. BARTHELEMY,
AUG. DELASSUS.

Same member on behalf of same Committee, offered the following resolution, which on motion was adopted after dispensation of the rules:

Resolved, That the Treasurer of this municipality be authorized to pay on the warrant of the Mayor to the following persons, the amount of their claims.

Louis Laborde for a timber truck,	$40 00
Jean Morio for brands,	1 20
J. Guerin for planks and posts,	30 00

Same member on behalf of the Committee appointed to draw up a sett of rules for conducting business in the Council of this municipality, offered a report and rules to the approbation of the Council.

On motion, the reading of the said rules was postponed to the next sitting.

On motion of Mr Bureau the letter from Mr A. Peyroux, was taken into consideration.

On motion of Mr Bureau, said letter was laid indefinitely on the table.

Mr Bureau having obtained the dispensation of the rules, offered the two following resolutions which on motion were adopted.

Resolved, That it shall be the duty of the prosecuting attorney, of this municipality, to render every month, to the Treasurer of this municipality, a statement of the suits brought by him, for the municipality, and the result thereof, and to pay over to said Treasurer, any amounts he may have collected after deducting his commission.

Resolved, That the Surveyor be authorised to employ eighteen men and six carts, which he shall divide amongst all the districts in order to repair all the streets of the municipality, in the shortest time possible.

Resolved further, That the salaries of the carts stand hereby fixed at $75 per month, in notes of the municipality.

On motion, the Council sat with closed doors, a few moments, after the doors being opened and the Council sitting in public, the Council adjourned to Saturday next, 3d February, 1844, at 6 o'clock P. M.

(A true copy.)

DE MARANS, Secretary pro tem.

OFFICIAL

SIXTEENTH LEGISLATURE—SECOND SESSION.

JOURNAL OF THE SENATE.

THURSDAY, 25th January, 1844.

The Senate met agreeably to adjournment.

Members present—Messrs. Felix Garcia, President; Armant, Bernard, Carter, Davidson, Dawes, Dupré, Hoa, Lacoste, Labauve, Ledoux, Livaudais, Marshall, Morse, Sparrow, Thibodeaux and Walker.

The secretary requested the concurrence of the house to

An act to amend an act, entitled an act granting to H B Favrot, the privilege of keeping a ferry across the river, at the town of Baton Rouge, and to

An act to amend an act, entitled an act to incorporate the city of Lafayette, approved, 1st April 1833, and the several acts amendatory thereto.

The President submitted the following report and documents, from the secretary of the State:

Secretary of State Office,
January 24th, 1844.

To the honorable C. Derbigny, Speaker of the House of Representatives.

SIR,—

The annual report from this office in relation to the public schools of the State, has been delayed thus long, in the hope of being able to lay before the Legislature full information on the subject. It is with great regret that the statement is made, that down to this period very few reports have been received from the administrators of these schools, and these for the most part furnishing very few details. In some of the parishes that reports have been received from, nothing has been done to entitle them, under the act of '42, to aid from the Treasury. The State of the public finances, has retarded the law, and no doubt lessened the benefit that would otherwise have resulted.

The reports received are from St. Bernard, in which fourteen receive instruction, and has drawn from the Treasury five hundred dollars.

Municipality No. 3, 230 taught, received from Treasury,	2582,82
Municipality No 1, no report.	
Municipality No 2, 936 taught, received from Treasury,	2300.
Lafayette, 164 taught.	
Jefferson, 70 taught, due from Treasury,	800.
St John, no public school.	
St James, 35 taught—nothing received at date of report.	
Ascension, 49 taught, received from Treasury,	600.
Iberville, 11.	
West Baton Rouge, 46 taught, received from Treasury,	520.
East Baton Rouge, 118 taught, due from do	800.
Point Coupée, 68 taught, received do do	800.
Carroll, 127 do do do	800.

East Feliciana reports a resolution of the Board of Administrators, that the Trustees make no further contract for tuition, there being no money in the Treasury.

Ouachita, 175 taught, received from the Treasury,	300
Caldwell, 15 taught, received from the Treasury,	512.

Avoyelles only shows an appropriation of 200, on the part of the parish.

Rapides, 124 taught.

Natchitoches, 77 taught, received from Treasury, 300.

Caddo, 10.

Franklin new Parish Board, not organised.

De Soto, gives no information as to the schools.

Sabine, no information.

From these reports it would appear that in six of the parishes no public schools are established, whilst in fourteen there are nine hundred and thirty nine instructed out of the funds furnished by the State and local authorities. In the second and third municipalities, Common Schools are established, which have already attained great usefulness, and promise much wider and more extended benefits. In the Second municipality 11,800 dollars furnished by it, and 2300 dollars by the State, give instruction in excellent schools to 960 pupils. In the report of municipality no. three, it seems 2582,82 was received from the State and that 230 are instructed, what amount, if any, is contributed by the municipality, is not stated. For the support of free schools in Lafayette, the local authorities have expended during the past year 1568:61, and had not received the $800 to which this would entitle them from the Treasury. In these municipal schools, it is gratifying to see the noble efforts that are making, and that have been made. In the schools in the country a much less cheering prospect is presented—as far as heard from 939 seem to receive instruction from an expenditure, derived and due from the Treasury and supplied by the parishes, of $12,793,00.—What the characters of those schools are, little or no information is furnished, except from the parish of St James. There as a preliminary step, no teacher is employed until he has undergone an examination, and given evidence of good character. A further test of his capacity is obtained by requiring a public examination at the end of each quarter, in the presence of the Parish Judge, &c. which furnishes the best evidence that those for whom payment is claimed are actually taught, before a warrant is signed. Believing that such a course, if required by law of all the parishes, would not only promote the beneficent purposes of the Legislature, but give great additional security to the proper application of the money, reference is made to accompanying table marked A, for the more detailed particulars.

There seem to be many defects in the present system. Some that properly belong to the system, and others to the character and condition of our population. To the latter may be ascribed the want of zeal and disposition to serve as trustees or managers of such institutions.—Without such voluntary service, it is manifest that we must fall far short of the utmost attainable good, however perfect the system may be. But it is reasonable to expect that this lukewarmness may yield to the cheering success of a plan having a broader foundation, and being more consonant with our institutions and the feelings of our people, than any yet adopted. But perhaps the most serious difficulty presented by our character is, that the teacher does not enlarge the elevated position in society, and is our estimation, that it is so entirely due to the eminence of his services. This too will yield to the adherence to a rule requiring the highest attainable qualifications in persons so employed. We may confidently look forward too, to a remedy in the slower, but vastly more certain process, of having our own youth so instructed, as to become capable teachers.

But the great and radical defect is the keeping up the odious distinction between paying and indigent scholars. All experience proves, and most countries are adopting them, that the Common or Free Schools are the only ones by which the means of instruction can be opened to a whole community. Their vast superiority is as strongly evidenced in our country, as in any other. In the following table taken from the last census, will be seen the comparative state of education in the several States. Those which are most strikingly in advance of the others, have long since thrown the school house open to all, and there too every species of improvement, will be found in close coincidence with their extended education.

A comparative view of States as to the number of white persons, over twenty years of age, who cannot read and write.

Connecticut 1 out of every	568	Mississippi	1	"	20
Vermont	473	Delaware	1	"	18
New Hampshire	310	Indiana	1	"	18
Massachusetts	166	South Carolina	1	"	17
Maine	108	Illinois	1	"	17
Michigan	97	Missouri	1	"	16
Rhode Island	67	Alabama	1	"	15
New Jersey	58	Kentucky	1	"	13½
New York	56	Georgia	1	"	13
Pennsylvania	50	Virginia	1	"	12½
Ohio	43	Arkansas	1	"	11½
Louisiana	32½	Tennessee	1	"	11
Maryland	27	N. Carolina	1	"	7

Although it will be found that Louisiana occupies rather above the middle station in this comparative table, still in so holy a cause, as nothing should be regarded as being done, where any thing remains unaccomplished, it is to be hoped that we shall be impelled forward by the desire to emulate the example of those who stand highest. The Common School system being adopted, an efficient administration might be insured by calling in the aid of such public officers as are under the control of the State. A further security may be found, by putting the schools under the supervision of the District Courts. To them reports should be made at each term, to be immediately forwarded to this office, and the judges be required to give the matter in especial charge to the grand juries of their parishes respectively.

For the support of the schools a special tax may be laid in each parish and city. In some of the States where the Common Schools have attained a high degree of usefulness, a moderate tax of two mills in the dollar, on the part of the State to be appropriated to the erection of school houses, and a like sum laid by the local authorities to be applied to tuition purposes, has been found sufficient. Time would render unnecessary a large part of the amounts so raised. School Houses once erected would only need an expenditure for necessary repairs; a wise economy would soon very materially lessen the expenses of the tuition. The employment of female teachers, who have been found to be much the most capable of instructing children, will tend very much to this result. In Cincinnati the cost of tuition has been reduced to the low sum of five dollars per scholar.

As so much of that after or self instruction which leads to high merit, depends on the thoroughness of early instruction, much attention has been deservedly bestowed on the training of those to whom this important duty is confided. In many countries normal schools are established for this express purpose. Here it is thought, our wants may be adequately supplied for many years at least, by one or more well endowed and conducted colleges. In them too, those bright intellects which the Common Schools will bring to light, may be more fully developed. Without such an establishment at home, those who have not the means of seeking them abroad, must wither and sink into comparative uselessness.

Of the present condition and prospects of these institutions no information has been received, except what is given in the accompanying report from the College of Jefferson, marked B., to which reference is respectfully asked. This college has too recently risen from its ruins to be in a very prosperous condition. It will be seen, however, that the classes are kept up—that most of her very able professors are retained, and that they are in the active discharge of their duties. But the heavy expenses incident to rebuilding, has left this institution heavily encumbered with debt, and deprive her of the means of restoring her library, Phylosophical apparatus and chemical laboratory destroyed by the fire. It is confidently believed that if the State would bestow on her a fair portion of the lands granted by Congress for such purposes, she could extricate herself from embarrassment, and soon be in possession of every requisite to the full efficiency of her course of instruction, which it will be seen is extensive and liberal.

From the various academies not a single report has been received.

Before closing this report, it is proper to say, that the State Library is very far from being as secure as it ought to be, and can only be, where under the constant superintending care of some one employed for that purpose. This would involve so small an expenditure, in proportion to the object, as not to leave a doubt of its propriety.

With great respect,

ROBERT CARTER NICHOLAS.

[For documents see Appendix.]

On motion of Mr Hoa, the reading of the above report was dispensed with, and it was ordered to be printed.

Mr Carter, of the Committee of Claims, to whom had been referred the memorial of Mrs Sarah Ann Nimmo, in relation to certain monies due her by the State, reported a bill entitled:

An act for the relief of Sarah Ann Nimmo.

Said bill was read for the first time. On motion the rules were dispensed with, it underwent its second and third readings, and passed.

Mr Landry, clerk of the house, requested the concurrence of the Senate to a

Resolution fixing this day at 12 o'clock M. for the meeting of the two houses, in the House of Representatives, for the purpose of proceeding to the election of a United States Senator, vice Henry Alexander Potter, deceased.

On motion of Mr Bernard the rules were dispensed with, and said above resolution was read for the first time.

On motion, the rules were again dispensed with; said resolution was read for the second time, and amended by fixing Monday the 29th instant, instead of this day, for the election of a United States Senator.

On motion, the rules were again dispensed with; said resolution was read for the 3d time, and adopted as amended.

Mr Labauve, of the Committee of Enrolment, reported the following Bills and Resolutions of the House, as duly enrolled:—

An act to authorize the Judges of Probate Courts of the parishes therein mentioned, to appoint clerks for said courts respectively.

An act to create an additional Police Jury, in the parish of West Baton Rouge.

An act to exempt certain persons in the parish of Rapides from serving on juries.

Resolution granting leave of absence to Parish Judges F. Bosworth and G. Leonard; and.

Resolution authorizing the Governor, the attorney-General and the Secretary of State, to perform certain duties in relation to State Bonds and other liabilities.

The President signed the above bills and resolutions, and the Secretary informed the House thereof.

The rules having previously been dispensed with, the Secretary also informed the House of the concurrence of the Senate, with amendment to the resolution in relation to the election of a United States Senator.

Mr. Ledoux, the Governor's Private Secretary, delivered a message in writing from the Governor.

Mr. Landry, Clerk of the House, informed the Senate of the concurrence of the House in the amendment made by the Senate to the resolution in relation to the election of a Senator to Congress.

SPECIAL ORDER OF THE DAY.

It being now 12 o'clock M, the Senate took up at its second reading, the bill entitled:

An act to remove the Seat of Government to Baton Rouge, which was at the Special Order of the Day.

On ending the discussion of the first section of this bill.

On motion of Mr. Davidson, its further consideration was postponed till to-morrow, and the Senate sat with closed doors on executive business.

The doors being opened,

On motion, the Senate adjourned till to-morrow, at 11 o'clock A. M.

P. A. HEBRARD, No 21 Canal street, offers for sale, at very low prices for cash, the following articles per late arrivals:

SPOOL COTTON—An assortment of Hayworth's royal sewing thread just received and for sale by [illegible] Co, 58 Customhouse

PROSPECTUS OF THE LOUISIANA LAW SCHOOL.

THE undersigned, with a view to supply a want daily more felt, intends, as soon as a sufficient number of students shall justify the undertaking, to open in the city of New Orleans a Law School, wherein will be taught the general principles of jurisprudence, as well as the law as it is understood and practised in Louisiana.

Jurisprudence, which treats of, and determines the relations of man to his fellow men, is a very comprehensive science, which may, however, be classed under the three following general heads, viz:

First—NATURAL LAW,
Second—SOCIAL LAW, and
Third—INTERNATIONAL LAW.

A brief development of the principles of each will probably suffice to show the propriety of this classification.

Man, though usually found in the social state, can still be considered as having an existence independent of society, and history furnishes numerous examples of a condition in which the domestic relations of father, husband, child, &c., supplied the place of all social ties. But even in this situation, which is antecedent to the formation of society, there existed certain rights and certain duties affecting his intercourse with his fellow being, and which deserve examination.

These relations are—

1st. Those of man to man, considered simply as a member of the human race, and which may be called the *law of humanity*, and

2d. Those growing out of his domestic relations, and which may be termed the *law of the family*.

Both these divisions form the natural law, which in this sense comprehends those relations which existed previous to the formation of society.

When society is subsequently formed, it adopts these relations, which are, however, modified extended and multiplied by the addition of a new element purely social in its origin. This new principle is that of citizen, which introduces new obligations and rights in the interest of society. All these relations thus modified, which have for their object to determine the rights and duties of the citizens of the same state, are called private law, which constitutes the second division of social law.

The social law, therefore, is also susceptible of two divisions, viz:

1st. Private law, which includes the civil and commercial law of the country, and

2d. Public law, embracing the constitutional, administrative and penal laws of a nation.

Besides these relations, there exist likewise others, which arise from the intercourse between distinct and independent communities. Even this branch of jurisprudence, called international law, is susceptible of a twofold division, viz:

1st. Private international law, which considers and determines the influence and effect of foreign laws on personal rights and contracts; and

2d Public international law, also called the law of nations, which regulates the conduct of sovereign states in their respective intercourse.

Every department of the law, whether speculative or practical, is included in the preceding classification, since it must have reference, either to the relations existing prior to the formation of society, or finally to those arising from the intercourse of independent sovereignties. In the first case, they fall within the domain of natural law; in the second, within that of social law, and in the third they belong to international law. It appears also that this arrangement is logical, because it considers first, the relations existing antecedent to society, secondly, those created by society; and finally, those which grow out of the intercourse between sovereign nations.

The studies at the Law School, will in conformity with the preceding programme, embrace Natural, Social and International Law.

As the object of the law student is to prepare himself as speedily as practicable for the exercise of the legal profession, the principal aim of the undersigned will be to furnish him an accurate knowledge of the Civil and Criminal Law of Louisiana.

Terms—For the course, comprising five months, $50. Applications must be addressed to the undersigned.

G SHMIDT, 62 Toulouse st.

New Orleans, 28th Jan. 1844. j28

INVALUABLE REMEDY FOR DISEASES OF THE CHEST.—Pectoral Syrup and pate of Calve's lights, by Degenetais, Druggist and Chemist at Paris.

Of all the preparations intended to cure diseases of the chest, none has obtained so brilliant a success as the Pectoral Paste above indicated.

This Paste immediately removes all irritations of the breast, facilitates expectoration, instantaneously appeases paroxysms of coughing, even whooping cough. Catarrhs and chronic affections of the chest will yield under its influence in a word it is a most prompt and effectual remedy in acute and chronic affections of the chest and air passages.

Be cautious not to confound Degenetais' Paste with that of Iceland Moss.

The Paste and Syrup of Calves Lights may be found at all the Druggists in New Orleans. General depot for wholesale at J. Tardos, No. 339 Royal street, whose signature is affixed to every box.

RANAWAY—$10 reward will be paid for the apprehension of the negro boy LITTLE MAC, purchased by me at the sale of the Bienvenu property. $10 in addition will be given for the conviction of the person harboring him. He has been seen frequently in the vicinity of Bienvenu's, and it is no doubt to be found in that neighborhood.

j16 1m&w J F McCARTHY, 11 Old Levee

TWENTY DOLLARS REWARD for the apprehension and delivery of the negro woman MARY CHILL, a washer, 27 years old, about 5 feet 2 inches high, stoutly built, wearing small ear rings, did speaking English. She has a small wen on her [illegible] hand. She absented from her home on Saturday last from the corner of Barrack and Burgundy streets.

DR BLANCHARD—Ex DENTIST to their Majesties the King and Queen of France, the Princes and Princesses, Surgeon-Dentist to the faculty of Medicine of Paris, and of New Orleans.

Fixes natural teeth, without the least pain, in imitation perfectly natural, from one tooth to a complete set.

Directs the second teething of children, and corrects any deviation in their teeth;

He has had long experience, minute and constant practice, in France and America, in the dentist art, and all that relates to its operations, preserving at once the mouth and the teeth.

He possesses a gum-cement, which repairs ravages effected by decay, of the same color of teeth, and which is the most precious substance that has yet been employed—none other can, at this time, plumb the teeth so hermetically as this;

The operation is made without any pain, and is achieved in a few minutes.

Recently invented for the Teeth.

Or Gautre, without mixture, the most malleable and most perfect or-marily employed.

A New Fusible (called platina) to plumb the teeth;

Litho-Caustic, instantly causing pain in the teeth to cease;

Elixir to reform the gums, consolidating the looseness;

Teeth Water for healing the mouth and preserving the teeth;

Spirits of Cayac rectified, to give a tone to spongious gums;

Opiate of Quinine to clean and fortify the teeth;

Teeth Brushes, of various kinds, to erase all sense of a tartar taste about the teeth.

His Office, at No 106 Royal street, is open every day from 9 in the morning until 3 in the afternoon, Sundays excepted. Charges moderate.

ALSO—Store to Let, 47 Chartres st. m7

ODONTALGIC EXTRACT

B. V. SMITH,

No. 110 St. Charles street.

CONTINUES to relieve the most violent TOOTHACHE in a few moments, and at the same time entirely destroy the nerve in less than 24 hours, positively without pain. The public should be aware, however, that this remedy is not offered as a Universal Panacea, it being only successful when the pain proceeds from an exposure of the internal membrane or nerve.

For the truth of the above statement, the sceptical are referred to the following highly respectable gentlemen, most of whom can speak from their own experience.

Rev. W. A. Scott,	Dr. W. H. Tengarden
J. W. Stanton,	J. E. Generelly,
C. P. Yonge,	G. W. Tobin,
E. Morton Quirk,	W. H. Wheaton,
H. Williams,	W. G. Latham,
E. B. Orsborne,	D. Flannery,
H. Page,	L. Hereford,

By first destroying the nerve with this remedy, the extraction of the tooth is frequently avoided by inserting pivot teeth upon the old method, is entirely avoided.

All other operations carefully performed.

LEECHES.

RECEIVED by the Creole from Bordeaux, Hungarian and Swedish leeches, warranted, at 12½, 18¾ and 25 cts a piece, at the new depot, No 388 Royal street, between St Philip and Ursulines.

References with regard to quality, to Capt Dillingham, his mate, Mr Metge, druggist, and Mr Siron. j22
