GARRETTED & CO.

Brasiers, Pump-makers, Water-engineers, and Mechanicians, Conde street No. 46, between Notre and St. Philipp streets:—

HAVE the honor to inform the Planters of Louisiana, that they make all kinds of kettles; sugar-kettles; cooking kettles, refining kettles; lamps; spoons, and sugar skimmers, etc. etc.

They have bought from France the last mode of making the apparatus for distilling, which has been perfected by the best distillers, such as Derone, Baglioni, Derode, Zic, Adam, Berard, etc. etc.

They are themselves the inventors and proprietors of a new apparatus for distilled, which thought not so meritious as that of Derone and Baglioni, offers to the distillers of Rum and Tafia, the same results as to quantity, quality, and for the rectification of alcohol, there is greater security in the working of it without the constant care which other apparatus indispensably require. They make all kinds of alembics, such as cedar, chapital, balin, etc. etc.

They are also the inventors and proprietors of a new rectifying still, giving two results for one, in the same space of time.

For the bottles, distilling apparatus, and alembics, they will put them up, and see them go into operation and give instruction thereto, until those who have the care of them are sufficiently initiated.

They will make all kinds of pumps, such as fire pumps, arrosages mounted, aspirant well-pumps, Pistonetes and Elevatory (English sites,) vacuation pumps, throwing a great deal of water with a very little force; in consequence of these pumps being without pistons or any kind of frottement, they cannot easily be damaged. They are constructed in the same manner to pump up syrup, or any other boiling liquid. There is nothing omitted to make them serviceable, and their solidity is guaranteed against all derangements.

They also make ward-robes or inodorous valve hydraulics, [illegible] any odor, the foulest matter [illegible] a month or more.

[illegible] stones, which purifies in a very [illegible] sufficient quantity of water without [illegible] strange body. And likewise, beer [illegible] tallow kettles, wax bottles, [illegible] cylinders, &c. with furnaces, all kinds of bathing [illegible] meat for public and private houses; kitchen utensils [illegible] copper and iron; covering for houses; troughs; tuns [illegible] sacks to furnish water throughout a house, the same as established in all the great hospitals in Bordeaux.

They charge themselves with repairing all kinds of kettles; coverings of all kinds of pieces and with the fabr
