They will be sold in all sizes so that every purchaser may find one to suit his views and means.

Five Lots of Ground situated in the Parish of Lafourche Interior, designated under Nos. 6, 7, 5, 11 and 12, on a private plan drawn by B. ARCHITECTURE, CIVIL ENGINEERING AND SURVEYING.

HAVING removed my office to Banks' Arcade, on Magazine street, in New Orleans, I respectfully state that I shall continue to tender my professional services in every branch of Architecture, Civil Engineering and Surveying. Plans for private and public buildings of every kind and description in Grecian, Gothic, and all the varieties of modern styles, will be made with a just regard to solidity, comfort and beauty, accompanied with specifications and estimates, based on the local average prices of labor and materials.

To surveys and locations of greater internal improvements and public works, as rail roads, canals, protective water works on rivers, as levees, Fascine works, etc., a corresponding attention will be devoted. Having a sufficient number of able assistants at my disposal, I am now prepared to extend my business to a distance from New Orleans, if the object be important enough, and to procure contracts and hundreds or thousands of mechanics and in laborers for the energetic execution of works of the greatest magnitude. Surveys and plans of real estate, topographical maps, drawings of machinery; plans, specifications and estimates for country residences, dwellings, ware houses, &c. will not only be made at my office, but I will, in all cases, faithfully superintend the execution of any kind of buildings or other improvements. The great number of plans made by me, and which have been exhibited and used during the last few years, are a guarantee that my terms are reasonable.
