TARRANT'S SELTZER APERIENT

FOR THE CURE OF DYSPEPSIA OR INDIGESTION, BILIOUS AND NERVOUS HEADACHE, CONSTIPATION, DIARRHŒA, GOUT, RHEUMATISM, GRAVEL, FLATULENCY, &c.

THIS PREPARATION is made from the best Turkey Rhubarb, and possesses all its valuable properties, combined with such aromatics as will to found materially to assist in its operations, and is thereby rendered an exceedingly useful medicine in a variety of affections where a cordial aperient is deemed requisite.

As a medicine, Rhubarb (the Turkey) has for a considerable period held a high place in the medical world, and has thus far proved itself eminently deserving its great reputation, through the valuable properties universally conceded to be peculiar to it, when procured in its pure state.

In cases of Dyspepsia or Indigestion, it is an invaluable remedy; and as a preventive of the various diseases arising from that very disagreeable complaint, holds a high place in the estimation of the medical profession.

In cases where griping pains affect the stomach and bowels, this preparation is strongly recommended, whilst it also will be found a good carminative in relieving Flatulency. To persons afflicted with Gout, (and it has enjoyed high praise from those who have already experienced its good qualities,) it is confidently offered as it is not at all times be taken when a cooling purgative would otherwise be attended with danger.

This preparation cannot be too strongly recommended to the many thousands now suffering from Dyspepsia or Indigestion, and its consequences. Bilious and Nervous Headache, Diarrhœa, Constipation, Gout, Rheumatism, Flatulency, Gravel, &c., as the utmost reliance can be placed on it, both as to its innocent nature and highly curative qualities.

Prepared and sold wholesale and retail by JAMES TARRANT, Druggist, &c., corner of Greenwich and Warren sts, New York.

ALSO, by SICKLES & Co, Wholesale Druggists and Apothecaries, No. 40 Canal and 24 Magazine sts., Agents for the Proprietor.

SANCTIONED AND PATRONIZED BY THE MOST EMINENT OF THE MEDICAL PROFESSION.

"By merely pouring water on a tea-spoonful of this Aperient, a cooling and grateful effervescing beverage is obtained, resembling Soda Water to the taste, and imparting to the constitution all the benefits of the celebrated Seltzer Waters of Germany."

TARRANT'S EFFERVESCENT SELTZER APERIENT.

"Of all prescriptions made up with a view to alterative effect, none can be compared with Mineral Waters."—John Bell, M. D., &c. &c.

"These waters revive the languishing circulation, give a new direction to the vital energies—re-establish the perspiratory action of the skin, bring back to their physiological type the vitiated or suppressed secretions, provoke salutary evacuation, either by urine or stool, or by transpiration; they bring about in the animal economy an intimate transmutation—a profound change."—Patissier.

MEDICAL MEN of eminence command in the highest terms the preparation known as "Tarrant's Effervescent Seltzer Aperient." Could the numerous flattering testimonials which its successful and valuable medicinal powers have elicited from the most distinguished Physicians be here submitted for inspection or would the columns of a newspaper permit their insertion, proofs of its efficacy UNEQUALLED and UNREACHABLE would be exhibited, to satisfy the incredulous and dispel the doubt of even the most sceptical, and it would stand forth to the world in triumphal success. As is truth is the most agreeable, refreshing and effectual medicine ever offered for the cure of those diseases which are engendered under the heat of a Tropical Sun. In the practice of Physicians, this Aperient has entirely superseded the Seidlitz Powders, on account of its superior medicinal properties—its mild though sure effect upon the system—its agreeable flavor and the certainty of its positive preservation from dampness. The ease and quickness with which the Seltzer Aperient may be prepared—its delightful effervescence and acidic action upon the bowels are qualities which likewise claim for it a superiority and must without fail, ensure in its favor the friendship and patronage of all who have ever tested the beneficial operation of this deservedly celebrated Aperient. The unanimity with which medical men join in its praises, is a sure guarantee that it is deserving of the character they have given it in the numerous testimonials received by the proprietor.

Its success in Bilious Affections, Dyspepsia or Indigestion, Heartburn, Febrile Disorders, Gout, Acidity of the Stomach, &c, and all the various complaints caused by the sudden changes of temperature, so usual in warm latitudes has been so great that it has been highly recommended, and has in consequence been generally prescribed, and the most satisfactory results have invariably followed. In a torpid state of the Liver, its action upon the system has been so beneficial that its energies have been revived and its healthy tone restored.

Planters and residents at a distance from medical advice, would find the Seltzer Aperient an useful and in fact an indispensable addition to their medicine chest, and would obtain by its introduction into their families, a remedy possessing high medicinal properties and which would in the various ailments natural to their climate exert a salutary influence upon the system debilitated by the excessive heat, and restore the languishing circulation to an active and healthy condition. Its virtues have been found wholly unimpaired even on shipboard, nor have they been lessened in any climate to which it has been sent. This is a valuable property and deserves the careful notice and attention of travellers and others.

In the Seltzer Aperient, such improvements have been made as are calculated to increase its efficiency by the addition of greater quantities of those ingredients, which improves the original spring, and which are esteemed the most valuable, and the rejection of those which have been found unnecessary or injurious in their tendency; hereby in the opinion of intelligent Physicians rendering this preparation superior or more health restoring than the natural waters.

Prepared and sold wholesale and retail by JAMES TARRANT, Druggist and Apothecary, No. 268 Greenwich street, corner of Warren, New York.

Also, by SICKLES & Co, wholesale Druggists and Apothecaries, No. 40 Canal and 24 Magazine streets, Agents for the Proprietors

Creole Table Mustard.

PREPARED BY LARROQUE.

THIS Mustard is, both in taste and odor, of the most pleasant kind and has over all other preparations of the sort an indisputable superiority. In the first place, it is in no way heating, which is a very just cause of complaint in other table mustard. 2d—It stimulates the appetite. 3d—This preparation does not contain any ingredient capable of neutralizing constituent parts of the mustard seed, (Sinapis Nigra) which most of the manufacturers are ignorant of, and do not scruple to add to their preparations very strong acids and the most alkaline salts. Some even go as far as to make use of mustard of which the most essential oily substance is extracted and make up for the deficiency with other ... and give to those worthless powders an artificial tart by adding to it carbonate of ammoniac and strongly spicy substances. You can detect the same so injurious to health, by the long continued heat it leaves in the throat and palate, whilst the tart of the genuine article is almost as soon destroyed as felt.

De Bretton's Patent.

HAVING obtained from the United States Government a Patent for the manufacturing of Sugar on a new method of improvement, as introduced by me in this State, in the clarification, precipitation, granulation and draining thereof, I beg leave to announce to the Planters that those who are desirous of using this new process in the ensuing crop, will be pleased to make an early application to the Patentee or to either of his sons, John de Bretton, Jr, or Charles Elwin de Bretton, who only are fully authorized and empowered in his behalf to enter into arrangements for the use of this new process.

As most persons are fully aware of the nature of a Patent and its effect, it is perhaps superfluous to remark that none but the Patentee or those authorized by him can derive any benefit accruing from such patent right, and therefore begs leave to warn the Planters to be on their guard against impostors.

The Patentee desirous that every Planter in Louisiana should benefit by his new process of improvement, assures them that his charges for the use of said method will be on a very moderate scale, thereby enabling the less wealthy as well as the opulent Planter, equally to share in the advantages of their sugars.

The Patentee, as well as his sons, will, during the summer months, repair on every plantation belonging to those gentlemen who have notified their intentions of adopting this new process, in order to make the necessary arrangements in their sugar houses for the better conducting of said process, and timely to procure the requisite apparatus, which can be obtained at a trifling cost, so as to prevent even the least confusion at the commencement of the rolling season.

GARREAU'S INSTITUTION, which is now increased by the greater part of the pupils of Mr. Goudchaux' establishment, is removed to the corner of Rampart and Maine streets. Spacious premises, numerous and judiciously selected professors, constant attention, paternal severity, all that is desirable are now combined to render this Institution worthy of the confidence of those who wish to give to their children a solid, complete and diversified education.

The prospectus of the institution may be had of Mr. Lelièvre, bookseller, corner of Royal and St. Ann streets.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES,

Founded in 1830 by Madame Lamm, and conducted since 1841 by Madame Dumaraux.

(Rampart street, corner of Bienville.)

THE course of instruction pursued in this establishment is both solid and varied, extending from the elements of reading and grammar to the study of literature and the elements of the sciences indispensable to a polished education.

The pupils are distributed into seven classes, suited to their different ages and capacities.

The French and English languages are cultivated with equal attention, and a good opportunity is afforded to a fair and familiar use in conversation by the intercourse of Creoles with Americans.

Vocal and instrumental music is taught by ladies, exclusively attached to the establishment, and their constant presence is a guarantee of unremitting attention, both to lessons and practice.

Examinations in music take place from November to April, on the 1st Saturday of each month. At the end of May, general examination and distribution of prizes.

O. BOYER'S

CLASSICAL AND COMMERCIAL INSTITUTION, No. 68 Conti Street, (between Dauphine and Burgundy streets.)

THIS Institution, the oldest scholastic establishment in New Orleans, is well known and highly distinguished for the success which has accompanied it ever since its foundation, a considerable number of pupils who have quitted it to enter on the great scene of life, having already acquired some distinction in the various avocations to which they have devoted themselves.

Boyer's Institution is conducted in one of the largest Mansions in the city, occupying a fine central position being well ventilated and in other respects perfectly salubrious.

The range of studies which engage the attention of the pupils extends over all the branches of Learning which are necessary to a useful, polite and finished education, from primary instruction to the more abstruse subjects which are specially the province of a collegiate course. Discipline so necessary to quicken in the youthful mind a due perception of the duties incumbent on it in its future relation with society, is a conspicuous feature of the establishment, being at the same time severe and considerate, whilst the solicitude of the Principal regarding the moral training of the youths committed to his charge, is, though strict, yet paternal.

The English language, daily becoming more and more evident, is of the greatest possible importance to all living in this community, is, in Mr. Boyer's Institution, attended to with more than ordinary care; the Professors engaged in this branch being gentlemen of undoubted attainments and long experience in Tuition.

BRANCHES OF TUITION:

The English, French, Spanish and Latin Languages, History, Geography, Mathematics, Elements of Natural Philosophy, Astronomy, &c. &c.

TERMS:

Boarders	$30 per month.
