THE NORTHERN MAIL, as usual, failed yesterday beyond Montgomery.

The Oregon Question.

Rumor, with her thousand tongues, disseminates each day new subjects of surmise and speculation in regard to the Oregon controversy; while in the excited condition of the public mind, every story, no matter how wild and improbable, is caught up, circulated, and finds devout believers.

Among the reports which have obtained most general credence, which appear most plausible, and upon which the vaticinations of Washington correspondents seem to have nearly uniformly agreed, is the statement propagated in the first instance by the New York *Herald*, to the effect that negotiations for a peaceful adjustment of the question had been renewed. On examining our exchange papers, we perceive that quite a number of letter-writers from the Capitol concur in this statement, among others, the correspondent of the Philadelphia *Chronicle*, which is deemed good authority. According to the writer, negotiations have been revived between Messrs. Pakenham and Buchanan. The former gentleman is now acting under fresh instructions, which authorize him to accept of the first feasible compromise offered, and positively direct him to avoid all collision, and bring the matter to a speedy and peaceful issue. "The question," adds the correspondent, "is likely to be settled sooner than the most sanguine friends of peace have any idea."

We give this statement as we did that of the *Herald*, without attaching implicit faith to it. It is true, it seems singular enough that the press upon the spot, should be so little informed in regard to topics of such moment, while correspondents for distant journals profess to be conversant with all that transpires. It is somewhat anomalous that, supposing the rumor well founded, Mr. Polk's political friends in Congress should remain in such profound ignorance of the fact, that Gen'l Cass, in the Senate declares that we are on the very verge of war; while Mr. Douglass, in the House, introduces a set of resolutions as if with the special object of justifying the General's sagacity, by making war inevitable. Perhaps, however, the President chooses to do his own diplomacy, without entrusting the particulars of protocols to his political advocates. He has, in more than one instance, already exhibited the possession of a very commendable faculty—that of keeping secret matters which it would be improper and unwise to divulge. However fundamentally we may differ from him in his political views, it is but justice to award him due praise for the discretion upon this point. But we know of no chemical agent sufficiently potent to seal hermetically the lips of secretaries and clerks of the cabinet, so that not even an inkling of their proceedings may escape, and we take it that some one of them has been leaky enough to drop a hint of what was going on.—The reporters at Washington are a pestilent set of fellows who will hunt a rumor to death, and penetrate like Asmodeus, through a key-hole, for the sake of getting at secrets of state. To the persevering curiosity of some of this industrious corps, is the country peradventure indebted, for the disclosure of so important a fact as the resumption of negotiations—that is, if it be a fact, which we do not pretend to assert.

"It is the general sentiment that the Americans wish for war, and with the blessings of God upon a good cause they shall have enough of it. Never since the United States has become a nation, was there in England a desire, more reasonable, and at the same time more agreeable, than that of giving the Americans a drubbing."—*London Morning Post*

The London *Morning Post* speaks of giving us a good drubbing with a marvellous self-complacency only to be accounted for by the supposition that the writer never heard of 1776 or 1812. We doubt not it would be vastly agreeable to John Bull to "give the drubbing" referred to—the chief objection to his attempting it might be the possible reminiscence that on two former occasions when he entered the lists with the United States, prepared to pummel us soundly, his expectations were signally overthrown, for instead of giving, he was forced to receive a most woful and unmitigated drubbing. However, should this recollection fail to deter him from a third effort, we doubt not this country is willing to repeat the dose in any quantity that may suit the applicant's pleasure.

FROM TEXAS.—By the steamship *McKim* from Galveston, which arrived yesterday, we have later intelligence from Texas. Our files are nearly barren of interest. Full returns for the election of Governor and Lieut. Governor of Texas had not been received. There was, however, no doubt that Gen'l Henderson would be chosen Governor by a decided majority.

For Congress there are several candidates running—among them Mr. Pilsbury, Gen'l Howard, Gov. Runnels, &c. The *Civilian* states that all the candidates are Democratic. We suppose Whigs are scarce in Texas about these times. Never mind.—they were rare as black swans in Tennessee twelve years ago, yet for all that Mr. Polk failed to get the vote of his own State.

THE RIVER.—At Pittsburgh on the 22, the water in the channel was 3 1-2 feet deep, and still falling. At Millsburg, the river was frozen over. At Cincinnati on the 20th, the river was filled with large cakes of ice, which proved a great obstruction to navigation.—The water was declining slowly, and apprehensions were entertained of another closing.

The Mobile *Tribune* of Saturday says: the Coroner yesterday held an inquest on the body of a white man, named Thomas H. Sampson, who died suddenly at the house of Peter Brookey, in Spanish Alley. Verdict, death from intemperance.

Steamboat Explosion.

Capt. Brown of the towboat *Jefferson* reports that the towboat *Shark*, Capt. Whon, burst her boilers, while going over the bar on Saturday morning, killing Mr. Whon, 2d Engineer (brother to the Captain) and one fireman; seriously wounding the 1st Engineer Mr. Kew, and severely scalding four of the hands. The dead and the wounded were brought to the city on the towboat *Jefferson*.

P. S.—Since writing the above we have learnt that Mr. Kew, the 1st Engineer died yesterday evening from the injuries received.

LOSS OF THE SHIP LANCASTER.—Capt. Howes, of the ship *Washington Allston*, of Newcastle, Me., at anchor inside of the S. W. Pass, came up to the city yesterday on one of the New boats. He reports having spoken on the 29th ult., the ship *Riga*, from Antwerp, bound to Galveston, with emigrants, which vessel had been boarded three days previously, on the Bahama banks, by Capt. Simmonds, of the ship *Lancaster*, of Boston, who came from on board a wrecker, stating that his ship had gone ashore on Orange Keys on the [illegible] December, and was a total loss. A part of the cargo was saved by wreckers which were on their way to Nassau, N. P.

PROFESSOR MARCH of the Albany Medical College, has recently performed with perfect success the Rhinoplastic operation of restoring the nose by cutting a [illegible]

How many Polls will there be?

In the *Delta* of yesterday, we find the subjoined correspondence. From the manner in which the representative districts of the city have been formed, several of them embracing two or more wards, a perplexing question has arisen as to the mode in which the election shall be conducted, and the number of polls to be opened. The letter of the Attorney General in reply to the interrogations propounded to him by candidates on both sides, appears to us to solve the difficulty in the only mode consistent with the constitution and existing statutes. To restrict the voters to one poll in each district (9 in all) would be glaringly and manifestly unjust and oppressive, since its effect would be to deprive them of four additional places for voting guaranteed to them by the election laws of the State, preclude all possibility of receiving the entire vote of the city, and thus to defeat the very object of the clause in the New Constitution, which by abolishing the property qualification, extends immeasurably the right of suffrage.

As the opinion of the Attorney General carries with it great weight and authority, we trust that Judge Maurian will give it due consideration. We have witnessed enough of public feeling in the populous districts in relation to this subject, to be convinced that the suffragans will not be satisfied with a smaller number of precincts than the law allows:

THIRD DISTRICT OF THE PARISH OF ORLEANS,
New Orleans, Dec. 31st, 1845.

To the Hon. Isaac T. Preston,
Attorney General of the State of Louisiana:

SIR:—The undersigned, rival candidates, and regular nominees in this District, of the two political parties of the country, for the House of Representatives of the next General Assembly of this State, respectfully request your opinion, in writing, on the following questions:

"How many polls should the Parish Judge of this Parish order, according to law, to be opened in this Parish at the coming election of Representatives to the General Assembly of this State?"

"Should any one Ward be comprised within the limits of two or more Districts in this Parish, what order should the Parish Judge, in your opinion, make in relation to the holding of the election in said Ward, so as most effectually to carry the law into operation, and secure to every citizen the right of suffrage guarantied to him by the present Constitution of this State?"

We remain, sir, very respectfully,
Your obedient servants,

Wm. H. Avery, T. G. Hunt, M. Hurley,	Whigs	Tho. B. Eastland, W. J. Vason, Samuel Locke.	Dems

ATTORNEY GENERAL'S OFFICE,
January 2d, 1846.

Gentlemen—I received your communication of the 31st of December to-day, and hasten to answer it.

The Ordinance of the Constitution provides for the ensuing election, and directs that "*it shall be conducted and the returns thereof made, in conformity with the existing laws upon the subject of State Elections.*" The 114th Article prescribes, that "In order that no inconvenience may result to the public service from the taking effect of this Constitution, no office shall be superseded thereby, but the laws of the State relative to the duties of the several officers—Executive, Judicial, and Military—shall remain in full force, *though the same be contrary to this Constitution, and the several duties shall be performed by the respective officers of the State, according to the existing laws, until the organization of the Government under this Constitution*, and the entering into office of the new officers to be appointed under said Government, and no longer." The 7th Article of the Constitution directs, that elections for Representatives for the several Parishes, or Representative Districts, *shall be held at the several Election Precincts established by law.*—And the 13th Article contains this prohibition: "No person shall be entitled to vote at any election held in this State, except in the Parish of his residence, and in cities and towns divided into election precincts, *in the election precinct in which he resides.*"

From these provisions of the New Constitution it is clear that the existing laws must be observed in conducting the ensuing Election as far as it is possible.

Now, the 2d section of the Act approved the 25 of March, 1842, provides "that there shall be an election precinct in each ward of each municipality of this city." The 31 section of the Act of 1836, dividing the city into three Municipalities, establishes twelve wards, and an Act approved the 26th of March, 1842, added another to the Second Municipality, making thirteen wards in the city. There must, therefore, be thirteen election precincts in the city; and the 9th [illegible] Act approved the 1st of April, 1835, [illegible] vote in the precinct in which he resides [illegible]

You thus see the Constitution means that the elections shall be held at the several election precincts established by law, and that no person shall vote at an election held in the State except at the election precinct *in which he resides*; and enjoins, specially, that the *existing laws* shall govern, until the government is organized, *although contrary to this Constitution*; and it is provided that the existing election shall be governed by those laws.

The existing laws are not inconsistent with the Constitution, but are as explicit as language can make them, that the thirteen wards shall each form an *election precinct*, and that the voters, can only vote *within the precinct in which they reside*.

It will be agreed by all that if we can comply with provisions of the Constitution and laws, so clear and explicit, it must be done.

But it is objected, that some of the Representative Districts divide the election precincts, and that it would be impossible in that case to take the vote fairly; as the voters in one District might vote for the Representatives of another District. It has been suggested that at each precinct *thus divided*, two or more boxes might be opened. To this course there is to oppose the fact that the 34 section of the Act of April, 1835, only provides for one box, and specifies particularly the manner in which it shall be kept.—But all cause of the apprehension of fraud might be removed *by the Inspectors stamping, or otherwise marking, the tickets deposited, with the number of the Representative District in which the voter resides*, and assorting the votes according to the Districts, previously to counting them.

The Ordinance of the Constitution certainly contemplated that a poll should be opened in every election precinct, according to law, for Governor, Lieutenant Governor, Senators, Sheriff and Coroner.—The only difficulty is as to the vote for Representatives. The Inspectors of election, by taking the trouble I have suggested, may enable all to vote at the election precinct, established for them by law, *for their Representatives also*, and it can be ascertained, beyond the possibility of a doubt, for whom the voters residing in each Representative District voted, notwithstanding the precinct be divided. The election will thus be conducted according to the plain letter of the Constitution and laws, and the great object of both, to extend the right of suffrage, will be preserved; and the existing facilities afforded for the exercise of that right, will not be restricted. All may vote with ease at the thirteen precincts established by law, instead of being deprived, perhaps, of the right of suffrage by the number of precincts being illegally diminished.

I conclude, therefore, that by a slight increase of care and labor on the part of the Inspectors at the ensuing election, they can, without difficulty, and therefore ought to, conduct the election according to the existing laws.

I am, with great respect,
Your obedient servant,
ISAAC T. PRESTON, Att'y. Gen'l.
Messrs. Wm. H. Avery, T. G. Hunt, M. Hurley, Thomas B. Eastland, W. J. Vason, S. Locke, Esq's

NEW WORKS.—Our thanks are due S. Woodall, No. 49 Camp street, for the January number of the New Orleans Medical and Surgical Journal. In addition to the large amount of selected matter which this sterling periodical usually contains, the present number is enriched by six original contributions: 1st. Practical observations on chronic diseases of the Uterus, by H. J. Holmes, M. D., of Hinds County Mississippi; 2d. An essay on the relation of Botany to Medicine, by Professor Riddle of our city; 3d. Cases in country practice by George Banks, M. D., of Clinton, Mississippi; 4th. An inquiry into the cause of disease, by Dr. Holt of New Orleans; 5th. Observations on the treatment of wounded arteries, by Warren Stone, M. D., of New Orleans; 6th. Remarks on inflammation and fever, by Charles McCormick, Assistant Surgeon of the United States Army.

We are indebted to the publishers, through D. Barker & Co., Camp street, for the following new publications: "Parley's New Geography," for beginners; with eighteen maps and one hundred and fifty engravings; "Goodrich's National Geography," illustrated with two hundred engravings and thirty three maps, an admirable work for schools; "The Jesuits" translated from the French of Messrs. Michelet and Quinet; "The Roman Church and Modern Society," translated from the French of Professor E. Quinet, of the College of France, by C. Edwards Lester.

To J. C. Morgan of the Literary Depot, Exchange Place, we tender thanks for "The Mysteries of the Backwoods," by T. B. Thorpe, author of Tom Owen, the Bee-Hunter, and "Cruikshank's Table-Book," with twenty-two illustrations.

DEATHS IN NEW ORLEANS.—We have received from THOMAS STRINGER, Esq., a supplement to the New Orleans *Emerald*, containing the names, places of nativity, diseases and places of burial of all white male and female adults from the ages of fifteen and upwards, who have died in the cities of New Orleans, Lafayette and the vicinity, from the 1st January to the 18th October, 1845. We learn from this document which has been prepared with extraordinary labor, and great apparent accuracy, that within the period referred to, the total number of deaths of males was 927, and of females 256—Total deaths, 1183. Of these 230 were natives of America; 300 natives of Ireland; 130 of Germany; 70 of France, and 358 places of birth unknown. Among the diseases of which they perished consumption assumes a formidable rank, having swept off 137, or about one-ninth of the number. Sixty-three deaths from sun stroke (*Coup de soleil*) are recorded, and 2 from yellow fever.

ACQUITTAL OF McNULTY.—The *National Intelligencer* of the 25th ult., says:—In the case of the United States against McNulty, Mr. Kendall's counsel for the prosecution, concluded his very able address yesterday about one o'clock, when the case went to the jury, who, after [illegible] for a short time, returned a verdict of *not guilty*. Thus the trial has lasted one entire week, and has excited, in its progress, from day to day, unusual interest, the court-room being crowded with spectators.—*Nat. Int. 25th.*

City Intelligence.

Mrs. J. M. Field arrived in our city yesterday from Mobile, and we trust we may soon have the pleasure of seeing her at the St. Charles Theatre.

Mr. T. Placide left our city yesterday for Mobile. It is useless for us to recommend him warmly to our Mobile friends. He is so universally beloved and so generally known as one of the best actors in this country, that he deservedly makes friends wherever he goes.

LARGE CARGO.—The steamboat *Maria* from Memphis, arrived yesterday with a cargo of 4,058 bales of cotton and 484 sacks of corn—this is, we believe, the largest cargo ever brought to our port.

PROSPERITY OF THE SECOND MUNICIPALITY.—We feel extremely obliged to Recorder Baldwin for the following interesting information in relation to the growth and prosperity of the Second Municipality.—During the year ending 31st December, 1845, there have been erected within the limits of that Municipality 295 buildings, 116 which of are of wood, the rest being brick and granite, at a cost of $979,300. The total loss by fire during the same period has been, in buildings, $26,550, and in furniture and stock $14,370 being a less sum than that of any former year since the Municipality has been established.

We would feel obliged to Messrs. Genois and Lewis if they would furnish us with similar statistics of the First and Third Municipalities.

EXAMINATION OF LEACH AND CAMPBELL.—The examination of these two men, accused of the murder of Otis Arnold was resumed before Recorder Baldwin on Saturday morning. We have already published the particulars of the arrest, and the following is a statement of what was adduced in the depositions taken before the Recorder. Arnold died on New Year's Day in a room occupied by Leach, where an inquest was held on the body, and a verdict returned that "the deceased came to his death from the effect of some violence inflicted on his person." Leach was arrested on the same day, and had in his possession upwards of $510 in cash, and a gold watch belonging to the deceased, and a number of letters and papers, some of which were directed to him. He had received a check on the 31st ult. for $340, which he is supposed to have endorsed payable to Leach; and he was known to have some two or three hundred dollars in his possession besides. For the defence, it was shown that the deceased, while standing at the corner of Poydras and Camp streets with Leach, about 3 o'clock on Wednesday last, was knocked down and run over by a dray, and the back of his head severely wounded by coming in contact with the edge of the curb-stone. Dr. Snowden, who saw the man at the time, testified that from the injury received by the deceased he entertained no hopes of his recovery. He was removed to Leach's room and died the next morning. A mass of evidence was adduced in the case, but nothing whatever to prove or sustain the charge of murder; in consequence of which, his honor acquitted both prisoners upon that point, but remanded Leach for further examination upon a charge of larceny. Mr. Gaiennie appeared for the defence.

ARRESTED.—Charles, a slave of Madlle. Benvenu, was yesterday arrested for stealing a load of cabbages from the Coast near the Sugar Refinery. When asked what moved him to commit the act, he replied that he had merely done it for "greens."

Irish Ann and Wm. O'Leary were arrested, charged with stealing $13 from Wm. Dunn.

Jean Lacroque, being a fancy man, was arrested yesterday, charged with stealing several dolls and looking-glasses from Mr. Vincent's fancy store, corner of Dauphine and St. Philip street.

RECORDER BALDWIN'S COURT.—ON THE FANCY.—John Bachelor got drunk in Apollo street, in which state he attempted to climb a fence and caught his foot in it. When the watchman found him, he was hanging by one leg and perfectly helpless. He was required to find a voucher for his character.

John Ryan was charged by Mr. Hanson with stealing the blue blanket coat which he then wore in Court, from the state-room on board the steamboat Diamond, on the 29th ult. John said he bought it on the Levee for $1 20, but couldn't prove it. He was sent to the Criminal Court.

George Brown and Oscar Meyers, charged with petty larcenies, were required to find vouchers as to their previous characters.

Henry Wessel, for carrying off a bundle of Mr Vincent's clothing, was remanded until to-day.

RECORDER GENOIS COURT.—Charles Smith was picked up drunk on Friday night and conveyed to McCormick's boarding-house, on Front Levee, where he was put to bed. Yesterday morning he got up and stole from the chest of a boarder numerous articles of clothing. The robbery was soon discovered, and Smith was arrested. Before the Recorder he confessed the theft and pointed out where the articles were. They have been recovered, and he was sent to the Criminal Court.

William Clarke, alias Wallis, Robert Denyze and William Henson, three notorious pick-pockets, who were arrested as dangerous persons some days since, were sent down for thirty days each.

Henry Gray was discovered, by a watchman, on the Levee, stealing a barrel of flour in the night. He was remanded for further examination.

Betsey, a slave about twelve years of age, was arrested for stealing a gold watch and chain from the room of Mr. O'Neil, on Esplanade street. The chain was found upon her, but the watch has not yet been found—sent to jail.

MR. CLAY left Lexington on the 17th ultimo for the city. He may be looked for every hour.

THE LEGISLATURE OF GEORGIA adjourned *sine die* on the 24th ult.

CARRYING CONCEALED WEAPONS.—An individual in the parish of St. Mary, was fined a few days ago $25 for carrying concealed weapons. Good!

SMALL POX.—The report of the Board of Health of Baltimore shows that seventeen deaths occurred in one week from this loathsome disease.

The confirmation of Mr. McLANE's nomination, as Minister to England, is understood to have been unanimous.

THE PRESIDENT, on the 24th ult. signed the joint resolution for the admission of Texas, and forwarded a copy of it by a private messenger to the capital of Texas.

DEATH FROM INTEMPERANCE.—The Coroner was called on Friday evening last to hold an inquest on the body of a white woman, name unknown, who lived on Circus between Poydras and Perdido streets. A verdict was returned that the deceased came to her death by intemperance.

RAPIDES.—The opposition to the regular ticket in the Parish of Rapides, has, at length, assumed a decided and organized form. The independent party in that parish have nominated a full ticket, with R. A. Hunter for Senator, and Messrs. Goodwin, Ogden and Hyman for Representatives—three democrats and one whig.

MILITARY.—Brigadier-General Augustin, having received his commission as Brigadier Commanding the Legion of Louisiana, has appointed the following gentlemen as his staff; Brigade Inspector, Major Benjamin Buisson; Aides-de-Camps, Major Morris Wiliard and Captains Paul Dorfeuille and Armand Guyol; Surgeon, Major Edward Martin, to rank as Captain; Quarter Master, Captain Numa Augustin; Paymaster, ———

SUGAR CROP IN ST. MARY.—The *Planters' Banner* of the 27th ult., says "we learn with extreme pleasure, that the frost, which proved so disastrous to the sugar cane, in other sections of the State, has not been as severely felt in this Parish, as we supposed. We have commenced taking down an account of the sugar crop of this parish, for the present year, with a view of drawing up a comparative statement for the last three years, and we find in every instance, an increase in the production of the present season.

ELECTION FOR MEMBERS OF CONGRESS.—To-day the great trial of strength comes off in the First District, between Messrs. La Sere, Wadsworth and McHenry—all good and true Locofocos. The first may be considered a representative of stationary Old Hunker Democracy; the second, is a sort of Conservative Locofoco, and the last is the special champion of the Progressive Democracy. We have no idea which of the three aspirants is to succeed. They are all equally certain of being chosen.

Correspondence of the Charleston Courier.

KEY WEST, Dec. 15.

Since my last, the American ship *Bohemia* from Bremen, for New Orleans, Nagon, master, has been ashore on the Florida Reef, but got off without assistance; she was in ballast and had 112 steerage passengers. She hove over a part of her ballast and started her water, which aided much, with her passengers at the windlass, to relieve her from Pelican Shoals where she was ashore—she anchored in our roads, and the following day left for her destination; she has received no injury. Salvage of $7,000 in the case of bark *Mercury* and cargo has been decreed—bark pays $980—cargo $6,012, each paying its own expenses of wharfage, storage, &c.; cargo appraised at $30,042 73, bark $5,000; she will receive temporary repairs and proceed for her destination, Trieste.—No salvage yet decreed in case of ship *Talomah*. The Court awaits result of sales, which were to have taken place to-day, but are postponed for to-morrow. A number of speculators here from Havana. No other news.

Respectfully, yours.

NEW ENGLAND FESTIVAL.—The New England Society in Washington celebrated on the 22d ult. the anniversary of the landing of the Pilgrims at Plymouth Rock. The correspondent of the Charleston *Courier* thus briefly describes it:

The public dinner in commemoration of the landing of the Pilgrim Fathers, took place last night, at the U. S. Hotel. About two hundred were present, most of them were New Englanders, or of New England origin. The speeches and sentiments were of a high order and interest. Among the speakers were General Cass, Mr. Webster, Gen. Dix of N. York, and Justice Woodbury—all from the "Granite State." Mr. Calhoun, who had been invited to attend, and had accepted the invitation, was not present, owing to indisposition, as a note received by the committee, explained. In one of the toasts something was said about the enemy, in some future war, burning New York and Charleston, but still leaving us "*our Holmes*" (homes.) This called up Mr. Holmes of S. C., who made an exceedingly happy and acceptable speech, full of playfulness and humor. I was not aware before that Mr. Holmes claimed his descent from the Pilgrim stock, and that his ancestor's portrait, with his big wig and pilgrim cloak, is still extant. "Holmes' Hole," in the "old colony," known to all mariners as the refuge for ships in difficulty and distress, had its name from one of his ancestors.

A WHIG JUDGE ELECTED BY A DEMOCRATIC LEGISLATURE.—The Tallahassee papers state that the Honorable Samuel W. Carmack, a Whig, has been elected by the Legislature of Florida, Judge of the Superior Court for the Southern Circuit of that State. The Judge is spoken of as a sound lawyer and a man of sterling integrity, and it is only such men who adorn and dignify the bench. This is among the very rare instances occurring, in which the majority of truth and principle triumphs over party intolerance, and the Legislature of Florida have evinced their wisdom and patriotism in having kept the ermine of justice unpolluted by its baneful influences.

MR. ANDREW JOHNSON OF TENNESSEE.—We see it stated in the Washington correspondence of the Richmond Enquirer, that Mr. A. Johnson, of Tennessee, a member of the House of Representatives, and a very estimable and intelligent gentleman, was taught by his wife to read since his marriage. He is a tailor by trade, and it is said, yet carries on his business at his house at home. It is well added that his standing in Congress, is a strong illustration of the excellence of our institutions. Native mind and labor, aided by opportunities which are at the command of every citizen, have made him what he is. It gives us pleasure always to record such examples. Mr. Johnson may be opposed to us in politics, but that does not prevent us from acknowledging his merits, and feeling interested in his welfare. We do not know him, but a man who displays the energy, industry and intellect that he has, is an honor to his country.—*Alex. Gaz.*

William Hickling Webber, sixteen years of age, son of Capt. John A. Webber, of the U. S. army, now at Watertown arsenal, Mass., and grandson of the late president Webber, of Harvard University, was instantly killed by a fall from the mizzen topsail yard of the ship Woodside, of Boston, at the mouth of the Hoogly river, in September.—*Boston Post.*

Police Jury of the Parish of Orleans.

SITTING of January 2d 1846.

Members present—Messrs. Nicomede, Dana, Cruzat, Vienne, Percy and Dupaty.

The Parish Judge being absent, by sickness, and the Jury being not in quorum, the members present adjourned the sitting to Friday next, 9th instant, at 5 o'clock, P. M. A. CRUZAT, Secretary.

For further information apply to
J. B. CABOS, 16 Madison st.

TO TRAVELLERS GOING NORTH.

SPEED INCREASED beyond all competition on the GREAT CENTRAL ROUTE, from Montgomery (Ala.) to Charleston S. C., via Columbus, Macon and Savannah (Ga.)—having less staging and more rest than any other line to Charleston.

By recent arrangements, this line carries its passengers through *sixteen* or *other* of the lines by way of Augusta, Ga., having 25 miles less staging than the Georgia Line.

Passengers by this line leave Montgomery on the arrival of the Great Southern Mail for Cheraw by Railroad, 40 miles, thence by a splendid line of four horse post coaches, via Columbus to Macon, Ga. 145 miles, thence by the Central Railroad to Savannah, Ga. 191 miles, with unsurpassed expedition and comfort, thence by a splendid line of steam packets to Charleston, 110 miles, where passengers travel while they sleep, enjoy a luxurious table without charge, and arrive in Charleston from four to six hours before the departure of the Wilmington boat, carrying the great Northern Mail.

DAILY SCHEDULE.

Leave Montgomery at	1 o'clock,	A. M.
Arrive at Chewaw	5	"	A. M.
" Columbus at	3	"	P. M.
" Macon at	6	"	A. M.
" Savannah at	10½	"	A. M.
" Charleston from 9 to 11		"	A. M.

Extra Coaches will always be kept in readiness to accommodate the travel.

Fare through from Montgomery to Charleston, omnibus included, $36 50.

Through Tickets can be had on application to
J. B. JOHNSON, Agent,
at the Montgomery Hall.
Montgomery, April 14, 1845.

The citizens of New Orleans and Mobile are referred for further particulars, and through tickets, giving preference of seats, to Mr John Ticknor, Agent, No 8 St Francis street, or to Geo W Backus, Travelling Agent, Mansion House, Mobile.

It will be seen that the Cards of the Express Mail and Georgia Railroad Lines, which claim for them the greatest speed, are dated prior to the 12th April, and were then correct although now the reverse.
