GARLEPIED & CO.

Braziers, Pump-makers, Water-engine-makers, and Mechanicians, Conde street No. 48, between Maine and St. Philipp streets:—

HAVE the honor to inform the Planters of Louisiana, that they make all kinds of kettles; sugar-kettles; cooking kettles, refining kettles; lamps; spoons, and sugar skimmers, etc. etc.

They have bought from France the last mode of making the apparatus for distilling, which has been perfected by the best distillers, such as Derone, Baglioni, Derode, Zie, Adam, Bernard, etc. etc.

They are themselves the inventors and proprietors of a new apparatus for distillers, which though not so expeditious as that of Derone and Baglioni, offers to the distillers of Rum and Tafia, the same results as to quantity, quality, and for the rectification of alcohol, there is greater security in the working of it without the constant care which other apparatus indispensably require. They make all kinds of alembics, such as conne, chaptal, balin, etc. etc.

They are also the inventors and proprietors of a new rectifying still, giving two results for one, in the same space of time.

For the kettles, distilling apparatus, and alembics, they will put them up, and see them go into operation and give instruction thereof, until those who have the care of them are sufficiently initiated.

They will make all kinds of pumps, such as fire pumps, arrosages mounted, aspirant well-pumps, Foulanters and Elevatory (English sites,) vongation pumps, throwing a great deal of water with a very little force; in consequence of these pumps being without pistons or any kind of frottesman, they cannot easily be deranged. They are constructed in the same manner to pump up sirop, or any other boiling liquid. There is nothing omitted to make them serviceable, and their solidity is guaranteed against all derangements.

They also make ward-robes of inodorous valve hydrolics, which evaporate any odor, the foculent matter [illegible] month or more.

[illegible]-stones, which purifies in a very [illegible]icient quantity of water without [illegible]range body. And likewise, beer [illegible] allow kettles, wax bottles, boilers [illegible] windows, do with furnaces, all kinds of bathing [illegible] public and private houses; kitchen
