TO LET. The whole or part only of the house situated 126 Canal street; the situation is one of the most agreeable, the apartments are very fine and well divided. L DEPORTER.

TO LET until the 1st of October next—the handsome and spacious house with kitchen and store situated 58 R. railroad Bienville street; the rents very moderate. Apply to the sheriff's office. FRED BUISSON, Sheriff.

TO RENT. The large and commodious dwelling house with kitchens and other out-building, stables and stalling, situated on common street between St Paul and Gironde street, being the half square now occupied by Mr Stenio, suitable for a family, boarding-house or academy or any large establishment, possession to be given on or after the 16th June next.

For terms apply to Mr Heno on the premises.

TO RENT. Office No 5 Tonnelle Street, to rent. Apply at the corner to ALEX HART & SON.

TO LET. The beautiful country residence, with all the outbuildings and dependences, situated behind the Mint, on the other bank of the river, opposite the Steam Pump. Apply to R O WEST, outside the bank of the river, or to the Tobacco Warehouse.

TO LET. Several Rooms, front door, corner of Chartres and Conti street. E. LEFEVRE & BRO.

TO LET. Fronting the Levee, next door to Gross, the store No 8 Old Levee street, and 6 Bienville, corner of Bienville. Possession to be given immediately, and if required, to be sold with the furniture of a boarding house, or another trade, on the same terms of the present tenant. Enquire on the premises or M E P Hall, corner of Bienville and Levee. ROBT LAYTON, 55 Old Levee st.

PROPERTY WANTED. Persons having property to sell in the city, or in the country, and wish to sell it at a reasonable price, will find a ready buyer by applying to BERNALD DE SANTOS, Broker, Romain street, between St Philip and Dauphine st.

TO CONTRACTORS. Collector's Office, New Orleans, June 6, 1837. PROPOSALS will be received at this office until the 6th day of July next, for building a Light House and Dwelling House, at the mouth of the Chefuncte river on the lake shore, of the following materials, dimensions and description. The Light House to be built of brick, the form round. The foundation to be sunk three feet, or as deep as may be necessary to make the fabric secure, to be laid in good lime mortar. The height of the tower to be thirty feet from the surface of the ground. The diameter of the tower to be eighteen feet, and that of the top twelve feet. The thickness of the wall at the base to be three feet, and to be uniformly graduated to 20 inches at the top. The top to be arched, on which is to be laid a deck of soap stone, eleven feet in diameter, four inches thick, the joints filled in with lead, on one side of which is to be a scuttle to enter the lantern, the scuttle door of soap stone framed with copper. The outside wall to be well plastered with Roman cement, and white washed twice coarse. There are to be three windows in the tower, of twelve lights each, of ten by eighteen inches, in sash frames, and a door and fly thereto, inlaid of double mahogany, cross out, with suitable hinges, bolts and latches; the door posts, cap and sill, to be of dressed stone, at least ten inches square—the ground floor to be paved with brick edge ways—with a flagging of regular stone to lead from the door to the distance of ten feet of the lantern, connected by a cutter post, grooved by a good hand railing, with good fluts on the joint of each wing. From the top of the lantern to the entire of the scuttle, to be an iron ladder with suitable iron chain stages.

On the top of the tower is to be a wrought iron lantern, of the octagon form, the frame to be one and a half inches square, to be fitted on to the stone work, five feet, and secured with anchors. The height and diameter of the lantern to be sufficient to admit from twenty to twenty-four lights, of twelve by eighteen inches, the lower tier to be fitted with copper, in the form of the sashes to be three-quarters of an inch thick, and to be with the best double glass from the Boston manufactory. Some of the seaging, to be an iron fence, to be covered with copper, four feet by two, to stand right into the lantern, with five stout iron hinges, of the diameter of the fence, to be of the same metal, to be fitted on to the top of the lantern, and to be secured with copper
