SANDS' SARSAPARILLA. FOR THE REMOVAL AND PERMANENT CURE OF ALL DISEASES ARISING FROM AN IMPURE STATE OF THE BLOOD [illegible]

[illegible] Scrofula, the most malignant character, would [illegible] Sarsaparilla, have given it a wide and deserved celebrity. But it is not alone in Scrofula, nor in the class of diseases to which it belongs, that this preparation has been found beneficial. It is a specific in many diseases of the skin, and may be administered with favorable results in all; it also exercises a controlling influence in bilious complaints, and when the system has been debilitated either by the use of powerful mineral medicines or other causes, it will be found an excellent restorative.

"TRUTH IS STRANGER THAN FICTION."—LET THE FACTS SPEAK FOR THEMSELVES.—The following certificate is only another link in the great chain of testimony to its merits. Let the afflicted read and be convinced; what it has done once it will do again.

CHARLESTOWN, Mass, Sept. 23d, 1845.

This may certify that my son, now aged seventeen, has been for ten years afflicted with the Scrofulous Humor.—At the age of seven years he had the measles, which probably caused this humor to make its appearance; this continued to grow worse, covering his body from his head to his feet with small tumors. I consulted a Doctor of Medicine, and he examined him three days in succession, and not understanding his case, advised me to consult Dr. Rogers, of New York, I then being a resident of that city. After a long and critical examination, having more than thirty other medical gentlemen with him at the time, he pronounced it Scrofula, or King's Evil. The child was then prescribed for, and commenced taking medical drugs from that time.—He grew worse until June of 1837, and then his bones became affected in consequence of the mercury that had been given him. A piece of bone came away from his under jaw; at the first place, as large as an English walnut, a piece from his forehead as large as a sixpence, and a piece from near the crown of his head. It then went to the back and side, and discharged in three places. From thence to one of his limbs, separating, in consequence of the ulcers, from the muscles and cord from the bones of the ankle joint to the back part. He had at one time fifteen running sores [illegible] from the glands of the throat and those places I have mentioned. In 1840 I lived in Portsmouth, N. H. and he was attacked with Rheumatic Fever, which settled in his hips, which swelled as large as three of the other.—[illegible] medical treatment, they gave him laudanum until he lost his reason—then I became alarmed and sent for a Thomsonian. His medicine helped his hip and restored his mind and reason. The third time we was attacked with this fever in 1843, when hearing of Dr. Sands' Sarsaparilla, and being perfectly satisfied that all other medicines had failed of effecting a cure, I sent and procured six bottles, and by the time he had taken it all I considered him well. Those places healed—he became bright and lively—color came to his face and lip—from that time till the fall of 1844 his complaints never troubled him.—At that time he became deaf, which continued until last March, when his right eye became affected; from that to the left eye, covering the sight of the eye so that he was in a great measure deprived of sight.

Knowing that Dr. Sands' Sarsaparilla was the only medicine that had ever done him any good, I applied to Mr. Fowle, Apothecary at Boston for more. He has taken it for two dollars' worth, which has removed the humor from his eyes and hearing, and he now appears to be cured. And I can truly say I firmly believe all this latter trouble might have been avoided if I had continued thoroughly the use of Dr. Sands' Sarsaparilla when he was under the influence of the medicine the first time.

These are the simple statements of the facts of the case, and I feel it my duty to make those facts known to the public, for the benefit of those who may be afflicted in like manner, feeling a full conviction the cure has been effected solely from the effect of this invaluable medicine.

HANNAH W. BECK, 248 Main st.

Suffolk, ss. Boston, October 29, 1845.—Then personally appeared the above named Hannah W. Beck, and made solemn oath that the above certificate, by her subscribed, and statements therein contained are true.

Before me, JAMES RICE, Justice of the Peace.

For further particulars and conclusive evidence of the superior value and efficacy, see pamphlets, which may be obtained of agents gratis.

☞ The public are respectfully requested to remember that it is Sands' Sarsaparilla that has and is constantly achieving such remarkable cures of the most difficult class of diseases to which the human frame is subject; therefore ask for Sands' Sarsaparilla, and take no other. d9—1m

FOR SALE—On Account of Departure.
A SUGAR PLANTATION situated on Bayou Teche, in the parish of St Landry, five miles from the town of Opelousas, four miles from the town of Washington and two miles from the landing of Port Carron.

This Plantation is very advantageously situated in the centre of nearly 3,000 arpents of land which are for sale. The Bayou Carron, forms the high water season, or easily navigable as far as Port Carron, where one may arrive in less than an hour. It consists of 720 arpents of land. The whole is ready for culture; 250 arpents being cleared, and on the remainder consisting of wood of every sort and of good quality is a Sugar House 150 feet long, including the mill, a very good Cotton Mill, a large and commodious residence for a family, a house for the residence of the overseer, [illegible] cabins with galleries, 8 mules, a few [illegible] 1500 barrels of corn, [illegible] feet of cane tops, and [illegible] planting at least 100 arpents. There [illegible] fifty arpents from 150 to 200 hogsheads of sugar the first year. The experiment made this year yielded Sugar of the best quality, as may be proved by examining it on the premises.

The Sugar Mill is horizontal, well constructed and can furnish sufficient cane juice to make 6 or 8 hogsheads of Sugar in 24 hours. The Sugar House, together with the machinery, is entirely new. In fact, in the opinion of all who have visited it, the entire establishment will be all that can be desired, as well in regard to convenience and elegance as to perfect solidity.

Immediate possession will be given.

Apply for terms in New Orleans at Messrs. LOISON & SILVESTRE, 36 Chartres street; St. Martinsville, to the Editor of the Creole; at Opelousas to Mr. P. Labyche, Notary Public, or to the owner of the Plantation. 17—3t

MANDEVILLE COLLEGE.

THE Course of Studies pursued in this Establishment is now complete. The number of Professors has increased with the number of Students. Its American and Creole patrons may flatter themselves with having created an Institution which rivals the best Colleges of the North. The facility of acquiring not only a theoretical, but also a practical knowledge of English and French is peculiar to this College: these languages being spoken both in the class rooms and during recreation. The course of studies embraces the different branches of the MATHEMATICS, the ENGLISH, FRENCH, SPANISH, LATIN and GREEK languages, LOGIC, RHETORIC, HISTORY, GEOGRAPHY, PENMANSHIP, STENOGRAPHY, DRAWING, MUSIC and FENCING.

The clothing, washing, food and play ground, are with the Directors, objects of particular care and attention.

The breezes of the Lake, its salutary baths, the walks in the surrounding woods, fishing and gymnastic exercises, preserve the Students in a state of almost uninterrupted health.
ROBERT PALFREY, Esq.

THE Exercises of the Institution were resumed on the 17th September, and have since continued with regularity.

In order to merit more completely the confidence reposed in her by parents, and with a view of securing the improvement of pupils, Madame Arpin has obtained the assistance of skilful professors.

The course of instruction, which is as complete as possible, is carried on in both the FRENCH and ENGLISH languages. It comprises READING, WRITING, GRAMMAR, ARITHMETIC, GEOGRAPHY, HISTORY, LITERATURE, the ELEMENTS of those sciences which are connected with female education, &c.

MADAME ARPIN superintends in person the instruction of the pupils in the rudiments of knowledge; she is seconded in the English department by a competent instructress who devotes the whole of her time to this object. The other branches of study are conducted under the guidance of Mr ORTON, Professor of English, Mr DUPAU, Professor of Writing and Arithmetic, and Mr P. ARPIN, who attends particularly to the departments of Geography, History, Literature, &c.

A mild but active supervision is constantly exercised over the children by the Directress and her First Assistant, and no pains are spared to impart to the pupils a solid and well-grounded education.

N. B.—Young Ladies who are not Day Scholars, may join the Class of Literature, History and Science, conducted by Mr Arpin. This Department will embrace all the branches of knowledge which constitute a good education. o23—y

That the Management of said Company, shall be under the direction of George Heaton, who shall transact all the business and affairs thereof, and said Company shall have the privilege of making Bye laws for its government, and of altering and amending the same, provided such alterations and amendments shall not be inconsistent with this act.

That said Manager shall keep a correct record of all the proceedings, transactions, business, accounts and affairs of said Company, in bound books, as well as a full account of its disbursements, and that he shall make and exhibit a statement of the concerns of said Company, each and every month, or sooner if so required, and shall divide the nett profits thereof between the Stockholders at their stated periods.

That the books of said Company shall always be open to the inspection of the Stockholders; and the said Manager shall keep said books in such manner as to furnish all necessary information touching the interests of said Company.

That neither of said Stockholders nor their successors in said Company, shall be liable to any greater loss or damage in the aforesaid Company, than the amount of the Capital Stock holden by them therein.

That should any portion of the Stock of the aforesaid Company be transferred during the existence of this Limited Copartnership, the said transfer shall be made by an act before a Notary Public, the new Stockholder binding himself in said transfer, to abide by this act of Charter, and all Bye-laws made in pursuance thereof.
