Proposals for Erecting a Mint, with the necessary Machinery, at San Francisco, California.

TREASURY DEPARTMENT, October 2, 1852.

SEALED PROPOSALS will be received at this Department until the 8th day of February, 1853, for the construction of the Branch Mint at San Francisco, California, according to the plans and specifications which will be furnished, on application to the Department, to parties who may be disposed to contract. The said proposals to contain bids for the entire work, and also separately, for each distinct branch of work, the right being reserved to the Department to contract either way, as may be found the most advantageous and advisable. The Department also reserves the right of declining to make any contract if the building and machinery cannot be finished and completed for the sum of three hundred thousand dollars, to which sum the expenditure is expressly limited by the act of Congress.

Payments will be made every sixty days on the amount of the work done materials actually used on the building, to be ascertained by the estimates of the superintendent and architect thereof, reserving from each of such estimates and payments twenty per cent. on the first hundred thousand dollars, and ten per cent. on each subsequent estimate after the above sum, until the final completion of the building and its approval and acceptance by the Department.

Every proposal must be accompanied by a written guarantee, signed by two responsible persons, to the effect that they undertake that the party or parties making it, if his or their bid be accepted, shall and will enter into a contract and bond, with sufficient sureties to the satisfaction of the President of the United States and the Secretary of the Treasury, in the sum of fifty thousand dollars for the faithful execution of the work; and no proposal will be considered unless it is accompanied with such guarantee.

Proposals will also be received at the same time and place for furnishing the needful machinery for said Branch Mint according to the specifications, which will likewise be furnished by the Department, and upon the terms and conditions as specified above in relation to the building, with the exception of the amount of the bond required for the faithful execution of the contract, which will be in the sum of twenty thousand dollars.

Proposals will also be received at the same time and place, agreeably to the act of Congress, for the sale, lease or rent of any building and machinery suitable for the purpose of a Branch Mint, and upon the same conditions as specified in relation to the building. Such building and machinery to be equal in all respects to the plans and specifications referred to above for the new building, and to be capable of coining at least thirty millions of gold annually, in a fair proportion of coins of the different denominations, from one to twenty dollars each, as now authorized by law. If a suitable building and machinery are bought or leased under the authority to that effect granted by Congress, no contract will of course then be made for the erection of a building and furnishing the machinery.

The bids will be opened and recorded in the presence of such bidders as may think proper to attend; and should the bids which may be made from California not be received at the Department previous to the aforesaid 8th day of February, 1853, it will reserve the right to delay opening the other bids which may be presented.

A decision will be made as soon as practicable after the Department has been officially advised that a law has been passed by the Legislature of the State of California, exempting said Branch Mint from taxation, &c., as required by the 6th section of the act of Congress of the 3d July, 1852, to establish a Branch Mint of the United States in California.

Those persons in California who may be disposed to make proposals for said building or machinery will deliver the same to the Collector of Customs at San Francisco previous to the expiration of sixty days after the first publication of the present advertisement in two newspapers issued in San Francisco, that period having been designated in the act of Congress for the notice for proposals in California. The Collector at San Francisco will be furnished with copies of the plans and specifications for the information of those who may wish to make bids there.

THOS. CORWIN,
Secretary of the Treasury.

Proposals for Building Six Schooners for the U. S. Revenue Service

TREASURY DEPARTMENT, Sept. 22, 1852.

SEALED proposals, distinctly endorsed "Proposals for Revenue Vessels," and addressed to the Secretary of the Treasury, will be received at this office until 12 o'clock noon of the 21st day of November next for furnishing the materials, constructing, equipping and delivering afloat, six schooners for the United States revenue service, viz:

Two topsail and four fore-and-aft pilot-boat-built schooners, the former one hundred and fifty, and the latter one hundred and twenty tons, custom-house measurement.

The models and plans to be furnished by the contractor, and the vessels to be completed within four months from the signing of the contract.

SPECIFICATIONS FOR TOPSAIL SCHOONERS.

The keels of white oak, to be ten inches wide and twelve inches deep below the rabbit. The whole of the floor timbers to be of white oak, and the floors to be of the natural growth. Keelsons ... [illegible]

... [illegible]

Decks to be of yellow pine ... [illegible]

The main deck to be of white pine, free from knots and shakes, three inches thick and six inches wide, except three strakes on each side, nearest the waterways, which will be of the same materials and width, but four inches in thickness, which three strakes will be let over the beams and carlines, and bolted through the side and waterways with bolts seven-eighths of one inch diameter, and not more than four feet apart. Main deck to be fastened with two spikes in each plank in each beam and strake, and one in each carline.

Hatch and mast combings to be of mahogany, covered with composition plates on the top and corners. Pump-hear and main rail of yellow pine, three inches thick.

... [illegible]

The materials, spars, cordage, &c., to be all of the best quality, and to the satisfaction of such person as may be designated by the department to superintend the construction of these vessels; and all the iron work exposed to the weather to be properly galvanized. If none of the bids are satisfactory to the department, it will be at liberty to decline accepting any of them; and also of increasing the number of the topsail schooners instead of the fore-and-aft schooners.

The same specifications for the fore-and-aft schooners to be rigged and finished above deck in the usual manner of pilot boats, and with trunk cabin.

No proposal will be considered unless received from persons engaged in ship-building. And each offer must be accompanied by the signatures of two responsible persons as sureties for the faithful fulfilment of the contract.

One-half of the amount of contract will be paid on presentation of satisfactory evidence that the vessels are planked up, ceiled, and the decks laid, and the balance on the delivery of the vessels completed.

Bidders will furnish with their offers sub specifications of the manner in which these general specifications are to be carried out.

It is not the wish of the Department to have all these cutters built at one port, or by one contractor, and proposals are therefore also invited for one or both of the two topsail schooners and one or more of the four pilot-built cutters.

WM. L. HODGE,
Acting Secretary of the Treasury.

Louisiana College.

Dauphine street, between Ursulines and Hospital streets, LOUIS DUFAU, Principal.

THE Principal of this new establishment is in hopes of having founded an institution, which may offer to the youth of Louisiana, the same resources and advantages as the colleges of the North and of Europe. In order to achieve this object, he has associated with himself, the most distinguished Professors of New Orleans. The Principal will spare no pains, and will endeavor constantly to cultivate the facilities of the mind. He considers that it is as important to bring up children well as to instruct them well, and he is convinced that all education is found to be fruitful and solid, must rest on a basis of morality and religion.

The course of study in the College of Louisiana will comprise Instruction in the Dead and Living Languages (Greek, Latin, English, French and Spanish.) History, Geography, Philosophy, Rhetoric, the Mathematical and Natural Sciences, Political Economy, Chemistry, Belles Lettres, &c.

English being the National Language, will be the foundation of instruction in the College of Louisiana, and the greatest portion of the classes will recite in English. English Professors already have been engaged by the Principal. Mr. Norton, well known in New Orleans, will take charge of the higher classes; another, whose native language is likewise English, will remain constantly with the pupils in order to accustom them to speak correctly the language of their country. Particular attention will be paid to the History of the United States.

The course of instruction will be in four classes.

NEW ORLEANS FEMALE INSTITUTE, OR DAY AND BOARDING SCHOOL, For young Ladies, 252 Camp st., Conducted by Mrs. Macaulay.

THIS Institution is under the personal supervision of Mrs. MACAULAY, and the class advanced in literature, science and philosophy, are under the care of Dr. Macaulay. The most accomplished teachers are employed in giving instructions in the French, Spanish and Italian languages, also in drawing and dancing. The piano, harp and guitar, as well as vocal music, are taught by professors of the highest grade of qualification.

There are now eight instructors in this institution, and it is the aim of the principles to make it, in all respects, such as parents may desire for their daughters. Every care is taken not only to instil pure morals and promote habits of correct, lady-like deportment in the pupils, but to make them intelligent as well as accomplished, and consequently, fit them for society and future usefulness.

Young ladies from the country, living in the family as boarders, share in the enjoyments, privileges and attention of daughters, and are uniformly treated, not so much as members of a boarding school, as daughters of an affectionate family.

To the establishment is attached a large and well selected library; and to create a thirst for the acquisition of general knowledge as to the improvements and changes that are continually taking place in the literary, scientific and political worlds, leading Periodicals of a truly valuable character, and standard books of reference, are at the command of the young ladies well advanced in school education, for the important purposes of teaching them thorough knowledge for themselves, by means of research and examination.

Monthly reports issued, as to progress and conduct.

A class for the study of the Latin language, will be formed on the first of November, and one on the use of the Globes.

References are made to parents who have had their daughters at the institution for years and further particulars and circulars can be obtained by applying, personally or by letter either to Dr. or Mrs. Macaulay.

GOUBAULT'S ACADEMY, No. 184 Toulouse Street.

THE principal of the Establishment and his wife not enjoying good health, and having obtained the object of a moderate ambition, intend to retire.—They avail themselves of the present opportunity to express their gratitude to the parents of their pupils and to the public for the encouragement that they have deservedly received.

Mr. and Mrs. GOUBAULT highly recommend to families, Mr. and Mrs. BOURSIER, who will take the direction of the Establishment. They have secured the services of the accomplished Professors attached to the institution.

From the 1st of September, Mr. and Mrs. BOURSIER will act as assistants to Mr. and Mrs. GOUBAULT, in order to make themselves known and appreciated, and on the 1st of October, the establishment will be under their immediate control.

Families are invited to visit the Establishment, which will be completely repaired.

Mrs. Le Tellier's Academy.

MRS. LE TELLIER, ex-Principal Teacher in the Public School, on Burgundy street, First District Schools, will open on Wednesday, September 1st, 1852, an Academy wherein all the branches of a solid education will be taught in the French and English languages, by the best Professors.

Particular instruction is given in needle-work and accomplishments.

The number of boarders who have already been admitted at Mrs. Le Tellier's new establishment, compels her to open her Academy on Dauphine street between Ursuline and St. Philip streets, instead of Bourbon street, as previously announced.

This vast edifice contains all that is requisite for the comfort of the pupils. The yard and dormitories are spacious and well ventilated.

The numerous pupils who, for the last ten years have been confided to the care of Mrs. Le Tellier, are the greatest number of whom are today charming wives and mothers ... [illegible]

A. W. Faber's Polygrades Lead Pencils.

BEWARE OF COUNTERFEITS!

THE well established reputation of these Pencils, which have obtained the Prize Medal at the World's Fair, of 1851, in London, as well as in Paris, Bavaria and Saxony, being all-strongly recommended by the royal Academies of Paris, Berlin, Munich, and Rome, has induced some unprincipled persons to imitate them, and to sell these imitations sometimes of a very inferior quality, to the public as genuine. Several parties in this country have already been brought to justice for selling counterfeits. There are others, who in order to avoid the law have the stamp on the Pencils slightly changed from A. W. Faber, into W. A. Faber, A. G. Faber, A. W. Fabre, A. K. Favre, A. W. Favre, &c. therefore, careful to examine the stamp. Look for the facsimile of the signature of A. W. Faber on the labels round the dozens.

A. W. Faber's Polygrades Lead Pencils, most exactly graded from 4 to 12 degrees of hardness; put up in dozens, grosses, or in elegant fancy drawing boxes, as well as Carpenter's Pencils, red, white and drawing chalk, Creta Laevis of 12 to 200 different colors and shades, Slate Pencils, India Rubber in Cedarwood, Lead Points for Pencil-cases, are sold by all the respectable stationers in the whole civilized world.
