MEDICAL.

SANDS' SARSAPARILLA,
IN QUART BOTTLES.
For Purifying the Blood, and for the cure of Scrofula, Syphilis, Rheumatism, Gout, Dropsy, Dyspepsia, Liver Complaint, Dysentery, Diarrhea, Dropsy, Costiveness, Piles, Dimness of Sight, Headache, Pain in the Back, Dizziness, Nervous Affections, Nervous Irritability, Fever and Ague, and Debility, &c.

IN this preparation all the active properties of the root are concentrated to a degree of strength and efficacy, but while it is impossible to have form an important part of its combination, it is, at the same time, combined with other vegetable remedies of great power, and it is in the peculiar combination and character of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent which gently stimulates while it disinfects and cleanses the stomach and bowels all that is irritating, and at the same time invigorates their vigor and tone. Many other preparations claim to be similar to Sands' Sarsaparilla, but in that that resemblance ends, being often prepared from worthless and inert roots, and of course, possess no healing or curative properties, and patients in making choice of which they will use, should take no other, but that one entitled to their confidence, from the long list of cures it has effected on living witnesses, whose testimonials and residence have been published, and who are still hearing daily testimony to its worth.

Accompanying Each Bottle
Of Sands' Sarsaparilla, is a pamphlet containing the following certificate:

Messrs. A. B. & D. Sands: Gentlemen, Having witnessed the most beneficial effects from the use of your Sarsaparilla, it gives me pleasure to send you the following statement in regard to my case: I in the spring of 1846, he took a severe cold, and after eight weeks of severe suffering the inflammation in his left leg became so foot, which soon swelled to the utmost. The swelling was lanced by his physician, and discharged most profusely; after that no less than eleven ulcers formed on the leg and foot at one time. We had five different physicians, but none relieved him much; and the last winter found him so emaciated, that he was not able to leave his bed, suffering the most excruciating pain. During this time his bone had become so much affected that pieces of the bone came out, of which he has now more than twenty-five preserved in a bottle, varying from one half to one and a half inches in length. We had given up all hopes of his recovery, but at this time we were induced to try your Sarsaparilla, and with its use his health and appetite began immediately to improve, and so rapid was the change that less than a dozen bottles effected a perfect cure.

With gratitude, I remain truly yours,
DARIUS BALLARD.

We the undersigned, neighbors of Mr. Ballard, cheerfully subscribe to the facts of the above statement:
H. A. S. Hart, A. M. Trowbridge,
Geo. T. Dunn, C. Eastwood.

DAY AND BOARDING SCHOOL,
UNDER THE DIRECTION OF
MADAME PARENT.
Corner of Rampart and Du Maine streets.

THIS Institution occupies one of the best locations in the city, with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are specially adapted to the purpose.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house; a splendid Gymnasium, furnished with the most beautiful view of the city, as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils, she teaches during the hours of class, and superintends the different divisions. There is an ample number of Teachers, which number will be increased, if the number of pupils should require it.

Every branch of a solid and refined education is taught in both languages; all accomplishments, such as French, Spanish, English, Music, Drawing, &c. &c. The Musical department (including vocal and instrumental) is conducted by four of the most competent and acknowledged talents in the city.

It would be superfluous to add anything respecting the special attention that is paid to the English language—the best guarantee that Madame Parent can give the public, is, that the French pupils are, in a few months, enabled to speak it the same as their mother tongue.

For terms, apply at the Institution, where prospectuses may be obtained.

G. ROUSSEAU'S INSTITUTION.
No. 146 Conti Street, between Dauphine and Burgundy.

MR G. ROUSSEAU, founder of this establishment, the oldest in New Orleans, considers himself of this opportunity to make a new appeal to the confidence of parents, by the assurance that his pupils will continue occupying a fine central position, being well ventilated, and in other respects well adapted to the health of studious which engage the attention of the people, and which are the best calculated to make a man accessory to a useful, polite and finished education; from primary to the most advanced studies, those objects which are especially the province of a collegiate institution, and elementary studies are attended to with more than ordinary care, combining the practical influence which they exercise over the other branches of instruction. Discipline, which must be maintained to ensure constant study, nor from a good education, is conducted with mildness and kindness, combined with firmness and rigorous order of the students, and intended to give them an accurate idea of the duties of a gentleman.
