EXCHANGE has been in moderate request at our quotations.

[illegible] 109½@[illegible] Sterling, 8 16@8[illegible] New York sells [illegible] 1½@[illegible] Discount New York [illegible]

MISCELLANEOUS

AYER'S AGUE CURE,

FOR THE SPEEDY CURE OF

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, caused by the malaria of miasmatic countries.

No one remedy is longer called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and while invariably cured, be assured that no harm can arise from its use in any quantity that may be necessary from or prevents this disorder in its most immense sources in the communities where it prevails. *Prevention* is better than cure, for the pallid weapons use the risk which be must run in violent attacks of the baleful disease. The AGUE CURE expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply our dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped the price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered, for the speedy and certain cure of intermittents, is that it contains no quinine or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of other ills arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Tremors, Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis, and Derangement of the Liver, all of which, when originating in this cause, put on the intermittent type, or become periodical. The "Ague" says the poison from the blood, and consequently cures them all alike. It is an invaluable protection to emigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be arrested from the system, and causes accumulate in such just quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from intermittents if they will avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC, are so compound that disease within the range of their action can rarely withstand or evade them. Their purgative properties search and cleanse and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use by the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inactivity of the Bowels, Flatulency, Loss of Appetite, Jaundice* and other kindred complaints arising from a low state of the body or derangement of its functions. They are an excellent alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the overcoming and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget and produced cures too numerous and too remarkable to be forgotten.

PREPARED BY

DR. J. C. AYER & CO.,

LOWELL, MASS.

For sale by J. WRIGHT & CO.,
jy4 81 and 181 Chartres.

CIRCUS STREET INFIRMARY

NEW ORLEANS,

BETWEEN POYDRAS AND PERDIDO STREET

PRESERVE YOUR TEETH!

J. A. CASADAVANT,

SURGEON DENTIST,

In the house formerly occupied by Dr. Beauregard, Royal street, between St. Peter and Toulouse.

CONTINUES, at the above place, to perform all operations in the Dental art, and asks the attention of those who need the services of a competent Dentist, and those persons who have been injured by unskillful fractions, (whose g l drops out a short time after the teeth are plugged, and where artificial teeth cannot be inserted, without first cutting out J. A. CASADAVANT they can have their teeth plugged conscientiously, and in the most skillful manner, and the teeth so defective amount, and which is made practically effective by machinery which unites the separate processes of the gum and working hence of the plantation and that of the spring factory into one, with a great saving in machinery, not requiring power, labor and capital.

We can make any number over 1,000 bales destroyed, and this invention from its nature, is complete, and cannot be improved upon.

The cost of the machinery to the planter will not be as much as half the enhanced value of the first crop spun up, and the operatives in a great many cases profit by it, and the machinery, will not impair the extent of the crop, but where that may be it will pay well to hire hands to be put in their place, and the enhanced value of the second crop will more than buy the necessary operatives out and out, if the planter chooses. The accumulation of money by this saving, and the increased value of lands which are now involved, and rapidly affordment means, and those not able to carry out the invention can sell to those who

The terms are selling here at 10½ to 22½c, and there cotton is selling at a decline, there for many more than we now make. But we are fully informed that the market for the manufacture of Britain and its Provinces, and the Continent, is at a decline, and at the present rate of the market, the cotton is worth 12½ per pound, and in Germany alone, which will take there to the 12c, and the accounts of the Cotton Factories of Europe have stated, in putting up cotton, there are now, perhaps, ten thousand customers for them to use for cotton, and there are only a few hundred Factories to supply them that we now distant cotton. The people, from the east of the world, to the other, are a mass of hands of years, and the whole cotton crop is thought not only a few thousand bales.

To make this a useful enlargement to the planter and the public, I have taken out Letters of Patent, and have made arrangements for the number and great extent of the invention, and the Patent Office, and Commissioner of Patents, and Secretary of the Treasury, and Secretary of the Navy, and Secretary of the Interior, and Secretary of War, and Secretary of State
