TO THE SUGAR PLANTERS OF THE STATE OF LOUISIANA.

WE the undersigned, convinced of the infallibility of the process for MANUFACTURING SUGAR discovered by Mr. Joseph Nicholas, deem it a duty which we owe not only to the inventor, but to our fellow planters, to make this publication in order to counteract the effects of all malicious attempts that may be made to injure the inventor, and deceive the planters themselves.

We refer to those gentlemen who have tried the process, but have not had time to sign the present, and among them to Messrs Pierre Lefebvre, Fazende, Verbin, Dussau and Lebeuf.

It is our firm conviction that it would be highly advantageous to all planters to subscribe, and thus avail themselves of Mr Nicholas' valuable discovery of making sugar, if they but adhere to his method, in a few hours they will be enabled to make with the greatest ease, sugar of the first quality, and this would receive a preference over all others. We therefore request each and all of them, well with us, accord the meed of praise to Mr Nicholas, and aid in having his important invention adopted throughout the state.

TO RAIL ROAD CONTRACTORS,

PROPOSALS will be received until the 8th day of December next, for the graduation and masonry of the first ten miles of the Gainesville and Narkeets Rail Road. A profile of the route, with plans and specifications of the work, will be exhibited at Gainesville for ten days previous to the time of letting and all other information given, on application to the subscriber or to the Assistant Engineer. Recommendations will be expected in all cases, of persons not known to the officers of the company or to the Engineer.

For the information of persons at distance, it may be remarked, that this road commences at the town of Gainesville on the Tombeckby River, and extends 22 miles south west to Narkeets in the State of Mississippi. The Tombeckby is navigable for Steam Boats the greater portion of the year and having a direct communication with Mobile New Orleans, will afford facilities for procuring the supplies necessary for the hands employed on the work, or for their ready conveyance hither, if procured from a distance. The country through which the road is located, being perfectly healthy, and the mildness of the climate admitting of operations throughout the winter season, renders the contract peculiarly desirable to those wanting winter employment. To an enterprising and energetic contractor the construction of this road offers the prospect of a profitable job.
