MISCELLANEOUS.

AYER'S
AGUE CURE,
FOR THE SPEEDY CURE OF
Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache, or Bilious Headache, and Bilious Fevers, indeed for the whole class of diseases originating in biliary derangements, caused by the malaria of miasmatic countries.

No one remedy is louder called for by the necessities of the American people than a sure and safe cure for Fever and Ague. Such we are now enabled to offer, with a perfect certainty that it will eradicate the disease, and with assurance, founded on proof, that no harm can arise from its use in any quantity. [illegible] protects from or prevents this disorder must be of immense service in the communities where it prevails. Prevention is better than cure, for the patient escapes the risk which he must run in violent attacks of this baleful distemper. This "Cure" expels the miasmatic poison of Fever and Ague from the system and prevents the development of the disease, if taken on the first approach of its premonitory symptoms. It is not only the best remedy ever yet discovered for this class of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where Fever and Ague prevails, every body should have it and use it freely both for cure and protection. It is hoped this price will place it within the reach of all—the poor as well as the rich. A great superiority of this remedy over any other ever discovered for the speedy and certain cure of Intermittents is, that it contains no quinine or mineral, consequently it produces no quinism or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, Rheumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palpitation, Painful Affection of the Spleen, Hysterics, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent type, or become periodical. This "Cure" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons traveling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into disease. Hence it is even more valuable for protection than cure, and few will ever suffer from Intermittents if they avail themselves of the protection this remedy affords.

Ayer's Cathartic Pills,
FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them. Their penetrating properties search and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice*, and other kindred complaints arising from a low state of the body or obstruction of its functions. They are an excellent alterative for the renovation of the blood and the restoration of tone and strength to the system debilitated by disease.

Ayer's Cherry Pectoral,
FOR THE RAPID CURE OF
Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness, and so numerous are the cases of its cures, that almost every section of country abounds in persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

To Cotton Planters.

I TAKE pleasure in announcing that Messrs. MANDEVILLE & McILHENNY are my authorized agents in this city to make contracts for the use of
MY INVENTION
FOR SPINNING UP THE SEED COTTON ON PLANTATIONS INTO YARNS, AND ALL SUBJECTS IN RELATION TO IT.

I will only say here that I make the same capital, the same location, the same steam power, the same expenses very nearly that you raise, gin and bale the cotton, to spin it; that, with the addition of machinery costing about half what the increased value of the yarns the first year will be, and which is attended by surplus labor of the plantation, to wit: girls of 8 to 15, women, and old men incidental as field-hands, I DOUBLE, OR MORE THAN DOUBLE, THE PLANTER'S NET INCOME.

We spin the finest yarns in the world. The danger from fire of the gin-house is immensely reduced, with many other advantages of great value. And what is of great importance is, that all this is fully demonstrated by the successful daily operations on the plantation of Col. Geo. S. Yerger, near Yazoo City.

Planters desiring more full particulars are referred to my agents, as above.

Applications for agencies will please address them, inclosing testimonials.

MISCELLANEOUS.

(COMMUNICATION.)

IT THESE DAYS OF PATENT QUACKERY, when almost every [illegible] ... the ablest men in the country [illegible]. HOSTETTER'S CELEBRATED STOMACH BITTERS can be [illegible] with perfect confidence to physicians and citizens generally of the commercial metropolis of the South, because the article has attained a reputation hitherto unknown. [illegible] of Hostetter's Stomach Bitters for the last year amounted to over a half million bottles, and from its manifest steady increase for times past, it is evident that during the coming year the consumption will reach near one million bottles. This immense amount could never have been sold but for the rare medical properties contained in the preparation, and the sanction of the most prominent physicians in those sections of the country where the article is best known, who not only recommend the bitters to their patients, but are ready at all times to give testimonials to its efficacy in all cases of stomachic derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the bitters, but a solid estimation of an invaluable medicine, which is destined to be as enduring as time itself.

During the summer and fall the vicinity of most of our American streams is rendered extremely unhealthy by the deadly miasma. In the South and West this is especially the case; to say nothing of the densely populated and filthy cities, where malarial affections are equally prevalent. Hostetter's Stomach Bitters have proved a God-send to regions where fever and ague and various other bilious complaints have counted their victims by hundreds. Testimonials innumerable have been given establishing the fact that the magical powers of the bitters in rendering the miasma less fatal, by strengthening the digestive organs and through them the whole system and thus arming the body against the insidious attacks of disease. The summer in all parts of the Union brings with it certain diseases of the stomach and bowels which greatly increase the rate of mortality. Not only will persons who are apparently flushed with health indulge to an undue extent in fruits of various kinds, and thus superinduce diarrhea and dysentery; but the heat of itself will operate upon the system of those who are naturally weak, and cause such an enervation that disease is sure to follow. The bitters have been found a speedy and certain remedy for affections of this description, and when used regularly during warm weather a positive preventative against sickness from such causes. Indeed, it is chiefly on account of its tonic properties which are particularly efficacious in cases of diarrhea and dysentery, that Hostetter's Bitters has achieved such a wide reputation; hundreds of persons have been restored to health by the timely use of this remedy, when all others known to physicians have failed. It operates upon the stomach, liver and other digestive organs, mildly but powerfully, and soon restores them to a condition essential to the healthy discharge of the functions of nature. As a cure for diarrhea and dysentery, there is nothing that can be compared with these celebrated bitters for certainty of action. Persons of sedentary habits are often driven to the use of intoxicating liquors by bodily weakness, and the lack of some harmless stimulant, this class of our fellow citizens will find in Hostetter's stomach bitters precisely the article they require. It is potent as a tonic, and quite palatable to the taste, and acts upon the enfeebled faculties of the system with a revivifying effect, cheering the spirits, dispelling that melancholy feeling which is too apt to attend physical lassitude, and yet without creating unnatural appetite for drink. Literary men and others whose occupation compels them to do without proper exercise and fresh air, will do well to try this gentle invigorator before having recourse to stimulants that are more dangerous. Some of the best and brightest men who have contributed to the glory of this country, would have been spared a great deal of suffering and rescued from untimely graves, if they had turned from the cup of sorrow to HOSTETTER'S CELEBRATED STOMACH BITTERS. In the hour of prostration of spirits and nervous debility they generally fly to the maddening bowl, in which they find but poor relief. As a substitute for this, the bitters must be considered invaluable.

The ailments incident to old age are numerous and extremely trying. The majority of them, however, are the consequence of the weakening effect of years upon the organs concerned in digestion. A stomach which has been too severely tested by indulgence in epicureanism generally revolts when we attain the steady side of fifty, and the disorders that follow can only be corrected by the use of some active principle such as are contained in Hostetter's Bitters. None of the more violent remedies will accomplish the desired end, without leaving results that render them worse than the disease. Elderly persons may use the bitters daily as per directions on the bottle, and they will find in it a stimulant peculiarly beneficial for comforting declining years, as it is pleasant to the palate, invigorating to the bowels, excellent as a tonic, and rejuvenating generally. We have the evidence of thousands of aged men and women who have experienced the benefit of using this preparation while suffering from stomach derangements and general debility; acting under the advice of physicians, they have abandoned all deleterious drugs and fairly tested the merits of this article. If the aged had a decisive voice in this matter, they would place Hostetter's Bitters among the greatest blessings medical science has ever conferred upon the human race. A few words to the gentler sex. There are certain periods when their cares are so harassing that many of them sink under the trial. The relation of mother and child is so absorbingly tender, that the mother, especially if she be young, is apt to forget her own health in her extreme anxiety for her infant. Should the period of maternity arrive during the summer season, the wear of body and mind is generally aggravated. Here, then, is a necessity for a stimulant to recuperate the energies of the system, and enable the mother to support her exhausting trials and responsibilities. Hostetter's Bitters will answer the purpose better than any other medicine now before the public, and serve to prevent the prostrated patient from having recourse to injurious drugs, which often endanger the health of both mother and child. Nursing mothers generally prefer the bitters to all other invigorants that receive the endorsement of physicians because it is agreeable to the taste as well as it is certain to give a permanent increase of bodily strength.

During the oppressive and exhausting heat of the day, it is always healthful and pleasant even as a beverage, especially when taken with ice water which it serves to counteract any effects which may result from over-indulgence in, which is too often the case in excessive warm weather.

The Bitters have been thoroughly tested in the most tropical portions of the South, where the rain has a most debilitating effect, and it is extremely pertinent to indulge in the kind of spirituous stimulants such as we now have.

All those persons to whom we have particularly referred above, to-wit: sufferers from fever and ague, caused by malaria, diarrhea, dysentery, indigestion, loss of appetite, and all diseases or derangements of the stomach, superannuated invalids, persons of sedentary occupation, and nursing mothers, will consult their own physical welfare by giving to Hostetter's Celebrated Stomach Bitters a trial; and those who may have received it in other regions of the Union, they will accord the preference to any other medicine.

Caution should be exercised by persons purchasing Hostetter's Stomach Bitters to see that every bottle has the fac simile of the Proprietor's written signature on the label, which, no doubt, the fear of imprisonment has prevented being put on any of the counterfeits that are brought to notice. Also notice that the name, Dr. J. Hostetter's Stomach Bitters, is blown on the side of the bottles, and stamped on the cap covering the cork.

All orders for the genuine article of Hostetter's Stomach Bitters must be addressed to the proprietors,
