INSTITUTIONS.

G. BOYER'S INSTITUTION,

No. 148 Conti street, between Dauphine and Burgundy.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, seizes this opportunity to make a new appeal to the confidence of parents.

The institution is conducted in a large mansion, occupying the central position, being well ventilated, and in other respects perfectly adapted.

The range of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polished and finished education; from primary instruction, to the more abstruse subjects which are specially the province of a collegiate course.

The elementary studies attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction.

Discipline, which must not be separated from an odious study, nor from a good education, is conducted with solicitude. It is calculated according to the age and character of the student, and intended to give them an accurate idea of duty and good behavior.

BRANCHES OF LITERATURE.

The English, French, Spanish, Greek and Latin languages, Mathematics, History, Geography, Elements of Natural Philosophy, and Philosophical Science.

TERMS.

Day Scholars,	$6, 8, 10 per month.

Day and Boarding School for Young Ladies,

Founded in 1826 by Madame Leiris, and conducted since 1840

BY MADAME HERAVAUX.

Burgundy street, between Customhouse and Bienville streets, New Orleans.

MR. AND MRS. HERAVAUX respectfully intimate to parents and guardians of young ladies that their establishment for Young Ladies is open the whole year, and that it offers superior advantages as regards health and comfort.

The house recently built, and which can accommodate sixty boarders, was erected for the express purpose of a Seminary for Ladies, and besides being thoroughly ventilated, there is attached to it a spacious garden, well shaded with trees, to be used as pleasure ground for the recreation of the pupils.

Families are invited to visit the establishment, which is open for inspection at all hours. Copies of the prospectus to be found at the principal bookstores. 1171r

FOR FEMALES AND MALES.

"Be ye Fruitful and Multiply."

SOLD ONLY AT NO. 59 JOYDRAS STREET.

Dr. Lozenetti's Sine Cordial, or Procreative Elixir.

THIS is the only actual remedy ever discovered for impotency, premature debility, nocturnal emissions, and all diseases occasioned by certain secret habits; and many of the testimonials recently recommended to the public, are certainly not worthless imitations which its unrivalled excellence, fame and popularity have brought into the market. The medical faculty of Europe and America are unanimous in their recommendations of the Lozenetti Cordial, and have not given their sanction, in a single instance, to any other, or to any other preparation compound for the same purposes. The natural virtues of the nutritive principle of the Lozenetti Cordial are generally such as to leave the publication of certificates of cures out of the question, for it is impossible to produce a host of the most conclusive testimony to show that the general reputation that it enjoys was not accidentally obtained, but that its virtues are positive, and apparently miraculous virtues. In all diseases for which it is recommended, the happy parents of healthy offspring, who would not have been so but for this extraordinary preparation. And it is equally potent for the many diseases for which it is recommended. Object we have been naturally made to the price of the Juno Cordial because the trash that has been thrown into the market, has compelled the honest dealer, but the fact is, the Cordial cannot be afforded for less, and ought to be much dearer, as many of the ingredients are of the rarest and most costly things in nature, whereas the others are made up of cheap drugs, worth but little in money, and little in virtue. We would remind the unmarried that the utmost reliance may be placed on the Juno Cordial as the cure of the maladies mentioned above, and that none of these ills follow its use, as loss of muscular energy, physical inability and general prostration, irritability, and all nervous affections, which are the consequence of the use of Lozenge, or injections, and other nostrums of the day, which, in place of curing, only aggravate the evil. The use of this medicine is attended with immediate relief, and if used as directed, is almost certain to produce a positive and permanent cure. Persons should be careful, if conscious of any weakness or debility of a certain nature, about to take this Cordial, as it will effectually restore health in a very short period, and where want of offspring is a cause of regret, it will be found to be the most beneficial results may be anticipated with confidence. It is not purchasers only who are out offspring. It is the parents of healthy offspring, who would not have been so but for this invaluable preparation. And it is equally valuable where it may become necessary.

It also possesses the unrivalled qualities of curing incipient consumption, and I have administered it with great success to patients who have sought our delightful climate for the restoration of their health and the result is that a medicine has been added to our Materia Catalogue for the cure of incipient consumption.

To spread wide the blessings of this medicine, I have appointed Messrs. Judson & Co., of the city of New York, as the United States of America, my sole agents for its sale, and none can be genuine, unless it comes through them, and their signature is on the wrapper. ANTONIO LARZETTI.

Naples, July 16, 1849.
