90 planes, for and jack

NORTHWEST GUNS.

650 northwest guns, two-thirds of which must measure 36 inches in length of barrel, and one third 42 inches, to be delivered in the city of New York or Philadelphia, as may be required.

Samples of all the above articles are deposited in the office of the Commissioner of Indian Affairs, where all those who may wish to bid for the hardware, agricultural implements, and northwest guns are entirely new, and of fair quality, than the articles heretofore furnished under the former contracts.

The proposals may be divided into four parts—

1st Blankets
2d Dry goods,
3d Hardware, including agricultural implements,
4th Northwest guns.

The lowest competent responsible bidder will receive the whole contract for any part of the contract, agreeing to the above scale, the Department reserving to itself the right to determine whether the bidder is competent and responsible or not.

The whole amount in money to be applied to the purchase of goods will be about $40,000, but the Government reserves the right to increase or diminish the quantity of any of the articles named, or substitute others in their place, if it be required, at similar prices, such goods as may be wanted for presents or other purposes, in the administration of the affairs of the Department. Goods of American manufacture, all other things being equal, will be preferred, but the samples of blankets and clothing of foreign manufacture, will be treated as when a domestic article is bid for, that a sample of it should accompany the bid, to enable the Department to decide whether it is of equal quality with the samples to be exhibited.

The party proposing to supply the articles will make an invoice of all the items embraced in the above list, and affix the prices, in dollars and cents, at which he or they will furnish them, deliverable in New York, and if the contractor prefers it, about one half of the quantity may be delivered in St. Louis, Missouri, free of expense to the Government, on or before the 15th day of May next, assuming the quantity of each article specified in this advertisement and standing the cost, making an agreement with a responsible citizen of that place, who will be required to be bound for the faithful performance of the contract, and to ascertain the conformity of the article purchased, and the same forwarded, when the contract shall be made, and with the terms of the contract itself, which article cannot be changed, or the articles are to be forwarded without the consent of the Department, or if they are of insufficient quality in the opinion of the agent aforesaid, and if within five days after notice of such insufficiency, the party shall not furnish other in lieu of the required quality, the United States shall be at liberty to purchase them of others, and charge the larger cost or price they may be compelled to pay therefor, to the contractor, who shall pay the difference to the United States.

Bonds will be required, in the amount of the bids, with two good sureties the sufficiency of whom to be certified by a Judge of the United States or District Court, for the faithful performance of the contracts. Payment will be made after the contract is concluded and the delivery of the goods ascertained by an agent of the Department, upon a duplicate invoice certified by him.

Communications to be marked "Proposals for Indian goods."

The bids will be submitted with the following heading and none will be received that are not made in the form and terms here prescribed:

"I (or we) propose to furnish for the service of the Indian Department the following goods, at the prices affixed to them respectively, viz:

(Here insert the list of goods.)

Deliverable in the city of New York (or St. Louis, as or before the day of next, and in case of the acceptance of his proposals, the quantity being given to him by the Department, I (or we) will execute a contract according to the agreement, and give satisfactory security to the Department within ten days after the acceptance of the bid, and in case of failure to enter into such contract, and give such security, I (or we) will pay to the United States the difference between the sums bidden by me (or us), and the sum which the United States may be obliged to pay for the same articles."

Each and every bid must also be accompanied with a guaranty in the following form, to be signed by one or more responsible persons, whose sufficiency must be certified by some one who is known to the Department, either personally or by his official position.

"I (or we) hereby guaranty that —— —— the above bidder, will comply with the terms of the advertisement for proposals for Indian goods, dated 24th September, 1849, if the contract should be awarded to him, and enter into bond for the execution of the same within the time prescribed.

MEDICAL.

DR. S. M. TOWNSEND'S SARSAPARILLA.

WONDER AND BLESSING OF THE AGE
THE MOST EXTRAORDINARY MEDICINE IN THE WORLD.

THIS extract is put up in quart bottles; it is at a lower cheaper, pleasanter, and warranted superior to any sold. It cures diseases without vomiting, purging, sickening or debilitating the patient.

The great beauty and superiority of this Sarsaparilla over all other medicines, is, whilst it eradicates disease, it invigorates the body. It is one of the very best

SPRING AND SUMMER MEDICINES,

over known; it not only purifies the whole system and strengthens the person, but it creates new pure and rich blood; a power possessed by no other medicine. And in this lies the grand secret of its wonderful success. It has performed within the past five years more than 100,000 cures of severe cases of diseases, at least 15,000 of these were considered incurable.—It has saved the lives of more than 5000 children during the two past seasons.

TEN THOUSAND CASES OF GENERAL DEBILITY AND WANT OF NERVOUS ENERGY.

Dr. Townsend's Sarsaparilla invigorates the whole system permanently. To those who have lost their muscular energy by the effects of medicine or indiscretion, committed in youth, or the excessive indulgence of the passions, and brought on a general physical prostration of the nervous system, languide, want of ambition, fainting sensations, premature decay and decline, hastening toward that fatal disease, Consumption, can be entirely restored by this pleasant remedy. This Sarsaparilla is far superior to any

and renews and invigorates the nervous system, gives activity to the limbs, and strength to the muscular system, in most extraordinary degree.

Consumption Cured.

Cleanse and Strengthen—Consumption can be cured—Bronchitis, Consumption, Liver Complaint, Colds, Catarrh, Coughs, Asthma, Spitting of Blood, Soreness of the Chest, Hectic Flush, Night Sweats, Difficult or Profuse Expectoration, Pain in the Side &c., have been and can be cured.

Spitting Blood.

NEW YORK, April 28, 1847.

Dr. Townsend—I verily believe that your Sarsaparilla has been the means, through Providence, of saving my life. I have for several years had a bad cough. It became worse and worse. At last I raised large quantities of blood, had night sweats, and was greatly debilitated and reduced, and did not expect to live. I have only used your Sarsaparilla a short time, and there has been a wonderful change wrought in me. I am now able to walk all over the city. I raise no blood and my cough has left me. You can well imagine that I am thankful for these results.

Your obedient servant,
WM. RUSSELL, 65 Catharine st.

Rheumatism.

This is only one of more than four thousand cases of Rheumatism that Dr. Townsend's Sarsaparilla has cured. The most severe and chronic cases are weekly eradicated by its extraordinary virtues.

James Cummings, Esq., one of the attendants in the Lunatic Asylum, Blackwell's Island, is the gentleman spoken of in the following letter:

Blackwell's Isl., Sept. 14, 1847.

Dr. Townsend—Dear Sir: I have suffered for nine years with the Rheumatism, principally of the lower limbs and hips, so much that I had the utmost distressing pain, and my ankles were ready swollen. I have used four bottles of your Sarsaparilla, and they have taken every vestige of the pain and swelling away. The pain in the hips is slightly troublesome yet, but I have confidence that the benefit will be complete. I have recommended your Sarsaparilla to many persons, and they have all been benefited by it. I am entirely relieved. You are at liberty to use this testimonial for the benefit of others, if you desire it.

JAMES CUMMINGS.

To Mothers and Married Ladies.

This Extract of Sarsaparilla has been specially prepared in reference to female complaints. Nothing else is so far reaching in its purgative effects as this, that critical period, "Nature's Crisis," when neglect or take it as a certain preventative for many of the most painful and mortal diseases which females are subject of. Nothing else is so safe, and may be taken for several years by young, middle aged and old, with equal benefit. Not a single case of sickness is known to result from its use. It is invaluable for those who are approaching womanhood, as it is the best and most mild nature in quickening the blood and in giving active health. Indeed, this medicine is invaluable in all cases of the female, whether married or single, and it is the only medicine to resort to in the case of the female, as it is the most reliable and safest medicine of most modes of taking for female weaknesses and disease. It is the only medicine that can be used in cases where the painful surgical operations may be prevented.

Great Blessing to Mothers and Children.

It is the safest and most efficacious medicine in purifying the system, and relieving the sufferings attendant upon childbirth ever discovered. It strengthens the mother and her child, it lessens the pains and diminishes the expense and renders the child those who have used it think it a specific. It is highly beneficial during the last three months, as it prevents disease and pain, and lessens the pain in delivery. It prevents the after pains, and lessens the confinement, lessens the time of the swelling of the lower limbs, prevents the after pains
