AYER'S CHERRY PECTORAL
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

OF all the numerous nostrums extant, and some of them quite meritorious, the Cherry Pectoral, together with a plaster, nothing has ever been found which could compare in its effects with the Pectoral. Others are uncertain, but at all times and in all climates and for all diseases where medicine can give relief, this will do it. Its reputation is established perfectly such in accordance with the discoveries. We do not advertise for the Pectoral because of those who have tried it, but those who have not. Families that have known its virtues will see by without it, and by its timely use they are secure from the dangerous consequences of Coughs and Colds.
The Highest Medal ever bestowed on Medicinals was awarded to this preparation by the Board of Judges in September, 1852, the chief of the Medical Department of Institutes of Art.
