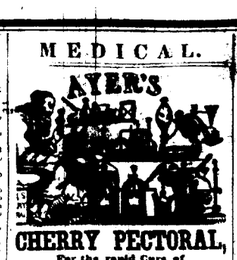
MEDICAL.



AYER'S

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

TO CURE A COLD WITH HEADACHE AND SORENESS IN THE BODY, take Ayer's Cherry Pectoral on retiring, sweating the distemper on the bottle, and the difficulty will soon be removed. None will long suffer from the trouble, who have first recourse to this antidote. Persons afflicted with a wheezing cough, which is liable to become worse at night, will find, by taking the Cherry Pectoral on retiring, it checked the cough sweat, and relaxed the system, enough to induce refreshing sleep, and consequently refreshing to the sufferer. Consumption is the most fatal and extensive form of disease with which we have afflicted, in this country. Hundreds of thousands who are thus afflicted, in the common cough, may trace the origin of their disease to a neglected cold.

From its superior effect in these cases, many and the most eminent physicians prescribe it for their own families, for their use.

From the Boston Post, April 8th, 1853.

Sirs—We have given your CHERRY PECTORAL an extensive trial in our practice, and find it to possess every quality we have for curing affections of the respiratory organs.

DRS. DIEMER & HAMPTON

TO SINGERS AND PUBLIC SPEAKERS this remedy is invaluable, as by its action on the throat and lungs, it clears away the mucus, and allows the voice to come out in full tones, and wonderfully increases the power and flexibility of the voice.

ASTHMA, in its worst form, is relieved, and often wholly cured by Ayer's Cherry Pectoral. Public speakers, and those addicted to vocal exertion, will find it a most valuable protection against hoarseness, and the irritation of the throat and lungs, which follows such exertion.

COLDS, COUGHS, and Hoarseness, are the first and usual symptoms of Consumption. Nothing else so quickly allays the irritation of the lungs, or so promotes expectoration, or so speedily cures the disease. Breakings-out, it will not cure, of course.

WHOOPING COUGH may be broken up and soon cured by the use of Ayer's Cherry Pectoral.

The INFLUENZA is specially controlled by this remedy. Numerous instances have been noticed where a single dose has completely broken up the distressing malady, which, in the form of influenza, without the Cherry Pectoral, would have run on for days, or weeks.

SALEM, Ohio, 11th June, 1853.

Dr. J. C. Ayer—Sir: Your Cherry Pectoral is the most valuable article of your CHERRY PECTORAL in my practice, and I cannot do without it. Dr. Moses Guitteau has found it equally valuable in his practice. Dr. Moses Guitteau is a physician of great skill and extensive practice, and he has always been a strong advocate for your medicines. Our people are very enthusiastic in praising the Cherry Pectoral, and I have never seen any medicine so universally and so deservedly popular. Yours, &c.

J. P. SINCLAIR.

Prepared by J. C. AYER, Practical Chemist, Lowell, Mass.

Sold by all the Druggists everywhere in Lowell, and by all the Druggists and Dealers in Medicine everywhere.

J. S. HOLLOWAY, Agent, No. 1 Carondelet st., New Orleans.

YOUNG LADIES' ACADEMY.

MADAME PARENT has removed her institution to Customhouse st., between Royal and Bourbon, No 86, the house heretofore occupied by Mme. Granet, and is ready to receive boarders, half boarders, and day scholars. There is a very large yard, together with a garden for the young ladies to amuse themselves. The apartments are vast and well aired. There is every advantage and facility afforded to parents, as to the moral and intellectual cultivation of the minds of their daughters. The best Professors are employed. Every branch of a solid and refined education is taught, in both languages; also, accomplishments such as drawing, Painting, Embroidery, &c.

MADAME PARENT would inform the public that she has made permanent arrangements with Professors de Bonnay and Anchouy, late principals of the Franklin High School. It would also inform the public that nothing respecting the very distinguished talents of these professors, who for the space of so long a time have commanded at large. The former has charge of the French language and French literature; the latter, the superior law of the higher English classes and natural sciences. The Musical department will be made to the advantage of the most competent and acknowledged talents in the city.

Professor Alston has the special charge of the Mathematical branches.

Mr. Gentilhomme has been engaged as a Teacher of Vocal Music.

For terms apply at the Institution. Parents are permitted to visit the Institution on Sundays.

Once a week (Saturday), between 11 and 1 o'clock, the young ladies assemble in the parlor, in order to acquire those polite and practical manners so necessary to young persons when they come out.
