MEDICAL.

TANSY CHAMPAGNE PILLS,
IN QUART BOTTLES.

For Purifying the Blood, and for the Cure of *Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Leprosy, Gravel, Dropsy, Erysipelas, Pimples, Boils, Mercurial Diseases, Cutaneous Eruptions, Lower Complaints, Bronchitis, Consumption, Loss of Appetite, Grey and Debility, &c.*

THIS preparation will be found the most curative property of the rose, concentrated in the purest and most powerful strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of disease depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three powers, which are ordinarily the seat of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent, which gently stimulates without the slightest and expels from the stomach and bowels all that is irritating, and at the same time restores their vigorous tone. Its great merit is, that it meets and neutralizes the active principle of disease itself, and when that is gone, the symptoms necessarily disappear, and we have only to point to the necessary means of health. Those who have experienced its effects, to convince incredulity, itself of its real worth.

LIVER COMPLAINT AND SALT-RHEUM.

New York, July 27, 1849.

Messrs. A. B. & D. Sands, Gentlemen:—Words can but feebly express my gratitude for the great and pleasing intelligence that my wife is restored to perfect health by the use of your invaluable Sarsaparilla. She was afflicted with a severe cutaneous disease that covered the whole surface of her body, so that it would have been impossible to touch any part that was free from the humor; the head, face and body were covered with scales like those of a fish; the flesh felt as if in a quantities, and walking caused the most excruciating agonies, as it affected the joints more severely than any other part. She suffered also a long time from an affection of the liver, which extended to the branches of the portraition of the nervous system. Physicians, both in Europe and America, had exhausted the usual remedies, without feeling a case so desperate as hopeless, and the best medical skill was unavailing, until she happily used your preparation. The disease was progressively subdued, but her whole system, internally and externally, was so completely changed, that she seemed to be born anew, after using the Sarsaparilla for six weeks, and taking in all less than one dozen bottles, that she only spent about two years previous to taking the Sarsaparilla. My object in making this communication is that all who have suffered as she has, may know where and to whom to apply for relief (and that too in a very reasonable case) will be the result. My wife unites with me in heartfelt thanks; and believe me, gentlemen,
