SUNDRIES.

BY THE CHEST.

SIR ASTLEY COOPER, BART., M. D., LATE SURGEON TO THE PRINCESS CHARLOTTE, NOW LEFT A VALUABLE LEGACY TO THE WORLD OF MAN

Great Preventative of Consumption,

AND

Unfailing Cure for Pulmonary Disease,

WITHOUT THE USE OF MEDICINE.

Sir A. C., Bart., invented and advised the use of the MEDICATED FOR CHEST PROTECTOR, as all persons of all ages and conditions, in a certain and a safe shield against those fearful diseases, Consumption, Pleurisy, Asthma, Coughs, Colds, and other afflictions of the Lungs, which arise from the exposed state of the chest, according to fashion, and the continual changes of our climate.

"The Protector" is simply a chemically prepared fur, lined with silk and padded, which, suspended from the neck, covers the chest, in so agreeable a manner that, one worn, it becomes a necessity and a comfort.

"The Protector," although but recently introduced into America, is making rapid progress through the United States, the Islands, South America, and the West Indies. It has for a long time been a favorite article in England and on the continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts, enquire of any English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector. WITHOUT SECURING to yourselves of any kind. The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are soon to recommend, being, from their introduction into them, Marcoart, Bradley & Co., of London and Manchester, England, were originally entrusted with the manufacture of the Protector, by the lamented Dr. Cooper, and continue to manufacture according to his original instructions, and therefore recommend those who would wear "The Protector" to see to their being genuine.

REMEMBER, THIS IS A STAPLE ARTICLE, AND NO PATENT MEDICINE.

RETAIL PRICES:

Gent's Size.....$1 50 each.
Ladies' do.....1 00 do.
Boys' and Misses' Size.....75 do.

GR' ROYAL LETTERS PATENT.

THE HYDROMAGEN,

OR

WATERPROOF, ANTI-CONSUMPTIVE CLOTH.

MANUFACTURED BY

HARCOURT, BRADLEY & CO.,

44 MARKET ST., MANCHESTER.

Principal Warehouse, 108 Wood street, Cheapside London. England American Establishment, 38 Ann street, and 102 Nassau street, New York, U. S.

THE Hydromagen is a valuable discovery for preventing the ill-effects from damp or cold, and therefore is recommended to many lung diseases, *without any doctoring whatever*. The manager is in the form of a coat, and worn inside the boot or shoe. Its medicinal character is a powerful antidote to disease.

For Gentlemen, it will be found agreeable, warm, and healthy to wear in the coldest or rainiest weather, as the foot cannot become wet if the Hydromagen is worn. Ladies may wear the lightest soled boots or shoes in the coldest or rainiest weather with impunity, while Consumption, so prevalent among the fair sex, for ever, may be thwarted by their general adoption. They entirely *supersede* overshoes as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like the Hydromagen. The latter ensures the feet to appear extremely large, the Hydromagen, being a material like that of cork prepared, peculiarly pliable inside, and does not increase the size of the boot, or cause the foot to appear untidy. To Children they are invaluable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight, as to scarce need mention; besides, those invaluable to the poor, and find their *yearly doctor's bills much diminished thereby.*

As the Hydromagen is becoming more known, its sale is increasing in a tremendous extent. Last year in London, Birmingham, Liverpool, Edinburgh, Dublin, Paris, Antwerp, Hamburgh and Berlin, our agents have sold 1,730,000 pairs of Cork Soles. This year the number will far surpass this.

Ask the Faculty their opinion of their value as a preventative for COLDS, COLDS, BRONCHITIS, ASTHMA, and Consumption.

MEN'S SIZE, pr. pair, 3S CENTS.
LADIES' do. do. 2S do.
BOYS & MISSES' do. 2S do.

NOTICE.—From the retail Prices, we make a very large allowance to Retail Dealers and Shoemakers, which shopper may make a fine profit on their sales, and yet we are sure that they be kept in any size, among our assortment of goods.

For terms, apply to

BUCKEYES—100 in half pipes, landing ex ship Ben Franklin, from Brunswick, and for sale by

J. & J. TARDIOS, 31 O d Levee st.

BLADON SPRINGS, ALABAMA.

THE Celebrated Bladon Sulphur Mineral Springs, situated in a healthy region of Pine woods four miles west of the Tombigby river, and four miles north of Gainsville, now beg to call the attention of those having this city for health or pleasure during the warm season, and to state that they have completed the additional improvements and accommodations contemplated, and are now prepared to receive visitors, to the style of superior comfort. They pledge themselves that nothing shall be wanting on their part to make a summer residence at these Springs the most agreeable.

They beg to note the test of these waters duly analyzed by Professor Brumby, of the Alabama University, and found to contain—

—IN A WINE PINT—

Carbonic Acid Gas	4.075	cubic in
Sulphuretted Hydrogen (trace)		
Chloride of Sodium	0.9625	"
Carbonate of Soda	0.0500	"
do of Lime	0.3437	"
do of Magnesia	0.1706	"
Oxide of Iron	0.0200	"
Sulphate of Lime	0.0018	"
Silica of Alumina	0.0600	"
Crenic Acid	0.0918	"
Apocrenic Acid	0.0750	"
Loss	0.0600	"
	4.6952	

"Hence, says Professor Brumby, the mineral waters very similar in composition to some of the best Springs of Germany, such as "Selters," "Spa," "Pouges" and "Aix La Chapelle." It must therefore be evident that these have decidedly beneficial effects."

The above analysis is the extraordinary testimony offered during the last season, by the use of these invaluable springs.

Carriages and horses are in attendance at all times to convey passengers to and from the river, and for the use of visitors during their stay.

CONNOR & WOOTEN, Proprietors.

N. B. The Proprietors beg to append the following recommendation of these waters that the public may judge for themselves of their value:

"We the undersigned, from personal experience with the quality of the waters known as the "BLADON SPRINGS," Alabama, cheerfully unite in giving our opinion in favor of the valuable mineral properties therein contained, and the beneficial effects resulting from the use of them, especially in Chronic inflammations of the alimentary canal; in the muscular and articular fibrous inflammations; in cases of interstate gout; in peculiar chronic inflammations of the skin; in biliary calculi; in certain forms of diseases of the urinary organs; and in neuralgic depending on rheumatic affections.

THE ONLY GENUINE

BOTOT WATER

No. 5 Cuq-Heron street, Paris.

This Water, approved by the Medical Faculty of Paris, is now exclusively used by the fashionable world as the most agreeable and the best of the toilet of the month; its EUROPEAN REPUTATION, well earned during a long exercise of its virtues, has caused it to be imitated in Europe and America. Each bottle, signed J. Botot, and sealed with the Botot seal, is protected at the Great New York Pat. TOILET POWDERS, to be used with BOTOT WATER. TAKE NOTICE, that numerous counterfeits are in circulation, and that the only genuine BOTOT WATER is sold by ED. GUILLOT, Agent, 5 Cuq-Heron st.

COPAL PICTORIAL STYLE.

PRICE, $1 PER BOTTLE. PRICE, $1 PER BOTTLE

L. GAMOTTE,

New Orleans, corner Royal and Rampart sts.

THIS Styrup which is the particular secret of the author, and in the preparation whereof he devoted all his time, is an indifferent fluid.

Repeated experiments have already demonstrated that its medicinal powers are inferior to none of the compounds of this kind heretofore known and recommended with success in the affections of the lungs. It is now, though, equally readily authenticate opprobrious, opposition arising from the strangulation of the bronchial vessels in case of acute or chronic catarrhs. Colds which have resisted the action of numberless remedies have yielded in its application, and have been beneficial in cases of peeping-cough, retarding and lessening the force of the fit, and advantageous of being pleasant to the taste and soothing the stomach, which it does not offend.

The dose for grown persons is a wine glass, and large spoonfuls in 24 hours, and for children 2 to 4 teaspoon full a day, according to their age. Two months—one-half tea spoon full is sufficient. Four times daily. It may be taken without mixture or in an infusion of pectoral herbs.

mr 30

A. BARRAUD,

Charters Street.
