SUNDRIES.

SIR ASTLEY COOPER, BART., M. D., THE EMINENT MEDICAL PRACTITIONER, HAS GIFT A VALUABLE LEGACY TO THE WORLD IN HIS Great Preventative of Consumption, AND Unfailing Cure for Pulmonary Diseases, WITHOUT THE USE OF MEDICINES. Sir A. C. Buck, surgeon and adviser to the use of the MEDICATED FUR CHEST PROTECTOR, a self-possessed of all ages and from the most perfect and a cure which against these fatal diseases, Consumption, Bronchitis, Asthma, Coughs, Colds, and other affections of the Lungs, which arise from the exposed state of the chest, according to fashion and to the changes of our climate. The Protector is simply a chemically prepared fur, that when sick and jaded, which, suspended from the neck, fits the sit, the same exactly in a manner that one wear, it becomes a necessity and a comfort.

The Protector, although not recently introduced into America, is making rapid progress through the United States, Canada, South America, and the West Indies. It has to-day touches on a stage in England and on the continent of Europe, while it has grown in many countries to the position of an article of use.

To demonstrate these facts enquiries of any Druggist resident in your vicinity. This knowledge of the beneficial effects of wearing the Protector, will prove sufficient to convince of any kind. The effect of wearing these articles is a mere trifle and one will last many years. No one who values the health of himself or his family will be without them. The Hospitals in the country are not alone recommending them, but really introducing them. Harvard, Bailey & Co., of London and Manchester, England, were originally entrusted with the wholesale manufacture of the Protectors, by the late noted Dr. Dyson and continue to manufacture according to his original instructions, and therefore recommend those who would wear "The Protectors" to see to their being genuine.

REMEMBER THIS IS A STAPLE ARTICLE, AND NO PATENT MEDICINE.

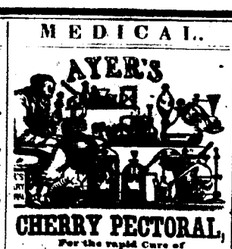
MEDICAL.

AYER'S



CHERRY PECTORAL,

For the rapid Cure of COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Among the numerous discoveries Science has made in this generation to facilitate the business of life—increase its enjoyment, and even prolong the term of human existence, none can be named of more real value to mankind, than this contribution of Chemistry to the Healing Art. A vast trial of its virtue throughout this broad country, has proven beyond a doubt, that no medicine or combination of medicines yet known, can so surely control and cure the numerous varieties of pulmonary disease which have hitherto swept from our midst thousands and thousands every year. Indeed, there is now abundant reason to believe a remedy has at length been found which can be relied on, to cure the most dangerous affections of the lungs. Our space here will not permit us to publish any proportion of the cures effected by its use, but we would present the following:—and refer further enquiry to our American Almanac, which the agent below named, will always be pleased to furnish free, wherever he has full particulars, and indisputable proof of these statements.

Rock Hill, (Sumner Co.) M. T., July 31, 1853.

Dr. J. C. Ayer—Sir: Your Cherry Pectoral has become known here, it has a greater demand than any other crude remedy we have ever sold. It is spoken of in terms of unmeasured praise by those who have used it, and I know of some cases where the best of my ear of it, is the result of the good it has done. I take pleasure in selling it, because I know that I am giving to my customers the worth of their money, and I feel gratified in doing the benefit it confers.

Please send me a further supply, and oblige me

Yours, with respect, JOHN C. WHITLOCK.

P. S.—Almost any number of certificates can be sent you, if you wish.

Windsor, C. W., June 26, 1852.

J. C. Ayer—Sir: This may certify that I have used your Cherry Pectoral for upwards of one year and it is my sincere belief that I should have been in my grave ere this time if I had not. It has cured me of a dangerous affection of the lung, and I do not operate my convictions when I tell you it is a priceless remedy.

Yours, very respectfully,

D. L. MCCULLIN, Attorney at Law.

Wilkesbarre, Luzerne Co., Pa., September 26, 1850.

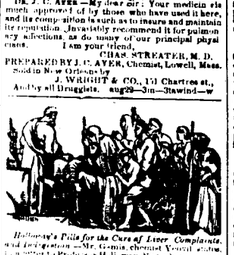
Dr. J. C. Ayer—My dear sir: Your medicine is much approved of by those who have used it here, and its compination is such as to insure and maintain its reputation. Invariably recommended it for pulmonary affections as the most of our principal physicians.

I am your friend,

CHAS. STRESETER, M. D.

PREPARED BY J. C. AYER, Chemist, Lowell, Mass. Sold in New Orleans by

J. WRIGHT & CO., 151 Chartres st., And by all Druggists. aug29—3m—Stawind—w



Holloway's Pills for the Cure of Liver Complaints and Derangement of Digestive Organs. Yellow complexion, dullness, and a variety of other symptoms indicate a disordered state of the liver, that the functions of the liver are in a state of inactivity, and that a dose of these pills will be found a most powerful stimulant to the torpid liver, and a most efficacious purgative to carry off the morbid bile, which is the cause of the disease. Dyspepsia, Costiveness, Pain in the Side, Chills and Fever, Dysentery, Flatulency, Loss of Appetite, Headache, Giddiness, Nervous Irritation, Low Spirits, Jaundice, Dropsy, Gravel, Piles, Inflammation, Colic, Rheumatism, Gout, Erysipelas, Costiveness, Dysentery, Diarrhoea, Worms, Stone and Gravel, Retention of Urine, Female Complaints, Fever and Ague, Liver Complaint, Dyspepsia
