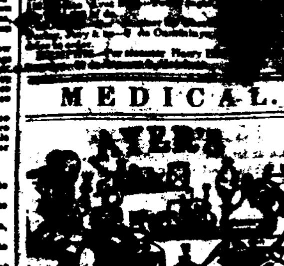
MEDICAL.



CHERRY PECTORAL,
For the rapid Cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

Many years of trial, instead of impairing the public confidence in this medicine, has won for it an appreciation and notoriety by far exceeding the most sanguine expectations of its friends. Nothing but its intrinsic virtues and the unmistakable benefit conferred on thousands of sufferers could originate and maintain the reputation it enjoys. While many inferior remedies thrust upon the community, have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

While it is a fraud on the public to pretend that any one medicine will infallibly cure—still there is abundant proof that the CHERRY PECTORAL does not only as a general thing, but almost invariably, cure the maladies for which it is employed.

As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant, to the palaces of European Kings. Throughout this entire country, in every State, city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best remedy extant for diseases of the Throat and Lungs, and in many foreign countries, it is coming to be extensively used by their most intelligent Physicians. In Great Britain, France and Germany, where the medical sciences have reached their highest perfection, CHERRY PECTORAL is introduced, and in constant use in the Armies, Hospitals, Alms Houses, Public Institutions, and in domestic practice, as the surest remedy their attending physicians can employ for the more dangerous affections of the lungs. Also in milder cases, and for children it is safe, pleasant, and effectual to cure. In fact, some of the most flattering testimonials we receive have been from parents who have found it efficacious in cases particularly incidental to childhood.

The CHERRY PECTORAL is manufactured by a practical Chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, consequently can be relied on as genuine without adulteration.

We have endeavored here to furnish the community with a medicine of such intrinsic superiority and worth, as should commend itself to their confidence—a remedy at once safe, speedy and effectual, which this has by repeated and countless trials proved itself to be; and trust by great care in preparing it with chemical accuracy, of uniform strength to afford Physicians a new agent on which they can rely for the best results, and the afflicted with a remedy that will do for them all that medicine can do.

RHEUMATISM CAN BE CURED!
We now have for sale the Celebrated Remedy,
MORTIMORE'S
RHEUMATIC COMPOUND,
AND
BLOOD PURIFIER,

WHICH HAS GAINED SUCH GREAT POPULARITY wherever introduced, as the only specific known for the effectual cure of this painful disease. This remedy has already cured thousands of cases, comprising every seeming form of this complaint, from the inflammatory (acute) form, attended with swellings and enlargement of the joints, to old chronic cases of from ten to twenty and thirty years' standing. Those who had for years resorted to the various celebrated springs, had tried all the liniments and external applications, and been under the treatment of some of the ablest physicians both in this country and Europe, and were pronounced incurable; still, after all these efforts had failed, this compound has cured them. Many who have been cripples, either hobbling upon crutches or confined to their beds for years, certify to a complete and permanent cure by the use of this remedy.

We have not space in a newspaper advertisement, to insert the accumulated evidence in its behalf. This evidence comes from sources which must inspire confidence in every mind. The conductors of high-toned public journals have published to the world its wonderful and beneficial effects upon themselves and those [illegible]

This is a vegetable spirit—an internal remedy, prepared and recommended for this one disease alone—THIS IT WILL CURE!

PRICE, $5 per single bottle; or three bottles for $10.

L. MAJASTE, No. 115 Chartres st

[illegible]

It is to consist of four rows of cypress or pine piles 12 inches square, driven from 18 to 19 feet into the bottom of the Lake, which is composed of sand and shell; the piles in each row being 5 feet from centre to centre; and the distance between the three outer rows (that is crosswise) being 10 feet from centre to centre; the inner row being inclined so as to act like a brace or buttress to the others, by abutting against the top of the one next to it, where they are to be halved into each other and firmly bolted together. The three outer piles in each section are to be connected together by a longitudinal cross piece, 12 in. x 12 in., securely bolted on to their heads, and intended also to receive a 4-inch planking, which will be securely fastened on by heavy spikes and treenails of locust; this planking is to be open; the planks being about 1 foot apart and let into mortices about 3 inches deep.

This planking or platform rises on the inside of the breakwater to about 4 feet above the low water level of the lake, and descends towards the outside to about 8 feet below the same level, thus presenting an inclined surface on which the wave will break.

The two middle rows will be connected together longitudinally by string pieces, 12 in. x 12 in., securely bolted to them, and supporting the inclined cross piece just spoken of, which will itself be braced to the two inner rows (3d and 4th) by a horizontal cross piece, 12 in. x 12 in., bolted on to them immediately below the low water level. The construction under water will be executed as follows: After driving down the outside pile a certain distance, the inclined cross piece is attached to it by a screw bolt and it is then driven down to its proper depth, its head being out of level with the cross piece; the other piles are then driven down and the cross and longitudinal pieces bolted on to them also. The fastenings to the middle pile can be easily effected, as their depth below the low water level will only be from 18 to 24 inches. The four-inch planks under water will be spiked and treenailed to the inclined cross piece by means of a tube and follower, the holes and mortices being prepared before placing them in position.

Quantity of materials for the construction of the breakwater:

500 cypress or pine piles, 12 in. x 12 in., from 23 to 33 feet long.
7,000 running feet of cross and longitudinal pieces, 12 in. x 12 in.
23,000 running feet of planking, 4 in. x 12 in.
1,125 screw bolts, (galvanized iron,) from 1 in. to 1¼ in. diameter and about 28 in. long.
2,500 spikes.
2,500 treenails of locust.

It is supposed that the work can be carried on at the rate of 200 days in the year without interruption from the weather, after making a fair allowance for other casualties and Sundays. It will be required to be completed in six months from the date of the contract.

Proposals will be received at the Engineer Department, Washington, until the thirtieth day of March, 1853, for the execution of this work, under one or the other of the following propositions:

1st. To furnish and deliver at the site of the breakwater or about the Pontchartrain railroad depot (as the superintending engineer shall direct) all the piles, the cross and longitudinal pieces, and the planking needed for its construction.

2d. To construct said breakwater at so much per running foot of its length, the contractors furnishing everything else but the piles, the cross and longitudinal pieces, and the planking.

3d. To furnish all the materials, &c. required, and to construct the whole breakwater at so much per running foot of its length; in other words to embrace the other two propositions in one.

The right of rejecting all the offers which may be made is reserved.

The Engineer Department is to exercise the necessary supervision, through its agents, to secure the due progress of the work and its faithful performance and to reserve to itself the right of annulling the contract at any time, should the holders of it fail to fulfil its conditions.

No advances of money will be made by the Engineer's Department under any circumstances whatever.

Payments proportionate to the amount of work done will be made monthly on the certificate of the local agent that due diligence has been used in prosecuting the work; that no interruption to its daily progress has occurred save that incident to Sundays, bad weather, epidemical diseases, or unavoidable derangement of machinery, not due to radical defects in construction or quality of material. The quantity paid for must have been taken from a section completely finished as required.

Twenty per cent. will be reserved from all payments due. The accruing sums to be finally paid to the contractors on the completion of the work, or to be forfeited to the United States in case of failure of the same.

All proposals must be accompanied by testimonials of high character as to the competency of the proposer to execute the work offered for; the reliability of the sureties must also be manifested. The envelopes should be endorsed "Proposals for the construction of a breakwater in Lake Pontchartrain."

INSTRUCTION.

[illegible]

GOUBAULT'S ACADEMY,
No. 156 Toulouse Street.

THE principal of this Establishment and his wife, not enjoying good health, and having obtained the object of a moderate ambition, intend to retire. They avail themselves of the present opportunity to express their gratitude to the parents of their pupils, and to the public for the encouragement that they have deservedly received.

Mr. and Mrs. GOUBAULT highly recommend to families, Mr. and Mrs. BOURSIER, who will take the direction of the Establishment. They have secured the services of the accomplished Professors attached to the institution.

From the 1st of September, Mr. and Mrs. BOURSIER will act as assistants to Mr. and Mrs. GOUBAULT, in order to make themselves known and appreciated, and on the 1st of October, the establishment will be under their immediate control.

Families are invited to visit the Establishment which will be completely repaired. s1 tf

JEFFERSON ACADEMY,
53 BOURBON STREET, NEW ORLEANS.
CONDUCTED BY J. G. LORD.

THE plan of this Institution comprises a general and extensive system of education. Pupils are admitted at six or seven years of age, and can continue until their education is complete, or till they are prepared for their future pursuits in life.

They are distributed into classes according to their talent and advancement.

The premises are perhaps the best to be found in the city, with ample space for exercise and recreation, every necessary convenience is combined for an institution of learning on a large scale.

The Professors are gentlemen of talents, chosen with great care. Good order reigns in the establishment, and strict attention is paid to the moral conduct and improvement of the pupils.—TERMS:

G. BOYER'S INSTITUTION.
No. 148 Conti Street, between Dauphine and Burgundy.

MR. G. BOYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. This institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polite and finished education; from primary instruction, to the more abstruse subjects which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from assiduous study, nor from a good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

—BRANCHES OF INSTRUCTION—

The English, French, Spanish, Greek and Latin languages; Mathematics, History, Geography, Elements of Natural Philosophy, and Philosophical Science.

—TERMS—

Day Scholars,	$ 6, 8, 10 per month:	
Half-Boarders	15,	" payable quarterly
Boarders,	25,	" in advance.
Washing and mending, $4		

Boarders are requested to bring a sufficient wardrobe.

No deduction for absence. A month once commenced must be paid for in full. Books, paper, etc., form separate charges.

Hours of study—From 9 A. M. to 3 P. M., and from 4 P. M. to 6 P. M. s21 1y

DAY AND BOARDING SCHOOL,
FOR YOUNG LADIES
Under the Direction of
MADAM CHARPAUX.
At the corner of Bayou and Claiborne streets.

THIS SEMINARY, whose existence dates some eleven years back, has met with a success that proves the good will of the parents, and the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madam Charpaux will spare no pains to make her Seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in this Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct the pupils to the Catholic churches, all her young ladies who may have their first communions to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and an artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the Professor. The study of the notes will precede the performance, which Mr. Charpaux will put the pupils through the examination of the regular keys and notes, and this will be attended with an extra charge.

In order to kindle emulation among the Pupils, and improve their manners, on the morning of the last Saturday in every month, there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer, the classes will open at 8 o'clock, and close at 4. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4, and close at 5¼ o'clock, P. M.

—Terms:—

Boarders—washing excluded	$20	per month
Half Boarders	12	do
Day Scholars, highest class	6	do
Do 2d class	5	do
Do 3d class	4	do
Lessons on the Piano	8	do

Dancing and Drawing will be charged separately.

Madam Charpaux respectfully invites young ladies' parents to give her a call. s6-ly

ST. LOUIS INSTITUTION.
DIRECTED BY
Madame E. Deron,
No. 145 St. Louis street, between Dauphine and Burgundy streets, New Orleans.
SCHOLASTIC YEAR, 1851-1852.

THIS Institution which for the last twelve years, has followed a constant career of progress and prosperity, has resumed its usual course of studies since the 1st September.

Madame Deron, formerly a pupil and professor of the "Maison Royale of St. Denis," did a graduate of the University of France, has endeavored to profit by the experience which she has acquired in the United States, to place her institution in the first rank of educational establishments in America.

Madame Deron, exclusively devoted to her pupils, applies herself not only to the cultivation of the mind, but also to the formation of the heart. She strongly desires that the young ladies confided to her care, may be remarked for all those valuable qualities which constitute a really good education, such as the spirit of order and decorum, sensibility of temper, and civility of judgment, politeness of manners without affectation, and finally, graces and modesty of deportment.

[illegible]

The locality of the institution well known and appreciated in New Orleans, as one of the most suitable and salubrious in the city, is perfectly well arranged; the class and study rooms and dormitories are spacious and airy, having two or several apartments and more than ordinary rooms and a terrace sheltered from the sun and intended for the recreation of the pupils.

The general instruction is given both in French and English; it embraces all the branches which constitute a finished education for young ladies. The English language is the object of special care, the Creole pupils are required in their communications with each other, and with their professors, to speak the English language exclusively.

Mr. Orton, who has been attached to the Academy from its foundation, devotes a great part of his time to impart to the pupils of the higher classes, a thorough knowledge of the English language and literature, the other classes are intrusted to well qualified American governesses.

Madame Deron has reserved to herself the direction of the French classes. She has besides secured the assistance of an excellent Professor of the higher sciences. Monsieur H. Jegon, who divides with Monsieur M. Deron and Madame Deron, the care of the French department.

The Spanish language forms a part of the system of study.

With respect to religious instructions M. l'Abbe Tholomere, whose zeal is so justly appreciated, continues to prepare the pupils for their first communion in the chapel of the institution.

MUSIC.

The study of Music is the object of particular care. Madame Lavillebeuvre, an artist of the higher order is attached to the institution as Professor of the Piano and Harp. A course of Vocal Music by one of the best Professors of the city.

As a means of emulation, the institution has adopted monthly musical examinations at which parents are invited to be present.

A Professor of Dancing is attached to the establishment. s30

YOUNG LADIES' ACADEMY.

MADAME PARENT has removed her institution to Customhouse st., between Royal and Bourbon, No. 26, the house heretofore occupied by Mme. Granet, and is ready to receive boarders, half boarders, and day scholars. There is a very large yard, together with a garden for the young ladies to amuse themselves. The apartments are vast and well aired. There is every advantage and inducement offered to parents, as to the moral and intellectual cultivation of the minds of their daughters. The best Professors are employed. Every branch of a solid and refined education is taught, in both languages; also, accomplishments such as drawing, Painting, Embroidery, &c.

MADAME PARENT would inform the public that she has made permanent engagements with Professors Le Besque and Auchmuty, late (principals of the Franklin High School.) It would be superfluous to add anything respecting the very distinguished talents of these gentlemen, who are already so long known to the community at large. The former has charge of the French language and French literature; the latter, the supervision of the higher English classes and other departments.

The Musical department is under the direction of three of the most competent and acknowledged talents in the city.

Professor Allston has the special charge of the Mathematical branches.

Mr. Gembrel has been engaged as a Teacher of Vocal Music.

For terms apply at the institution. Parents are permitted to visit the institution on Sundays.

Once a week, (Saturday,) between 12 and 1 o'clock, the young ladies assemble in the parlor, in order to acquire those polite and graceful manners so necessary to young persons when they enter society.
