MEDICAL.

SANDS' SARSAPARILLA, IN QUART BOTTLES,

For Purifying the Blood, and for the Cure of *Scrofula, Rheumatism, Stubborn Ulcers, Dyspepsia, Salt-Rheum, Fever Sores, Erysipelas, Pimples, Biles, Mercurial Diseases, Cutaneous Eruptions, Liver Complaint, Bronchitis, Consumption, Female Complaints, Loss of Appetite, General Debility, &c.*

IN this preparation we have all the restorative properties of the root, concentrated in their utmost strength and efficacy; but while Sarsaparilla Root forms an important part of its combination, it is, at the same time, compounded with other vegetable remedies of great power, and it is in the peculiar combination and scientific manner of its preparation, that its remarkable success in the cure of diseases depends. It acts simultaneously upon the stomach, the circulation and the bowels; and thus three processes, which are ordinarily the result of three different kinds of medicine, are carried on at the same time, through the instrumentality of this one remedial agent, which gently stimulates while it disinfects and expels from the stomach and bowels all that is irritating, and at the same time restores their vigor and tone. Its great merit is, that it meets and neutralizes the active principle of disease itself, and when that is gone, the symptoms necessarily disappear; and we have only to point to the accumulated testimony of multitudes who have experienced its effects, to convince incredulity itself of its real value.

LIVER COMPLAINT AND SALT-RHEUM.

New York, July 27, 1849

Messrs. A. B. & D. SANDS, Gentlemen:—Words can but feebly express my feelings, in conveying the pleasing intelligence that my wife is restored to perfect health by the use of your invaluable Sarsaparilla. She was afflicted with a severe cutaneous disease that covered the whole surface of the body, so that it would have been impossible to touch any part that was free from the humor; the hand, face and body were covered with scales like those of a fish; the hair fell out in large quantities, and walking caused the most excruciating agonies, as it affected the joints more severely than any other part. She suffered also a long time from an affection of the liver, connected with general debility, and a prostration of the nervous system. Physicians, both in Europe and America had exhausted the usual remedies, without effecting a cure, or scarcely affording relief, and the best medical skill was unavailing, until she happily used your Sarsaparilla. The disease was pronounced salt-rheum, but her whole system, internally and externally, was altogether deranged; but so complete has been the cure, after using the Sarsaparilla for six weeks, and taking in all less than one dozen bottles, that she now enjoys better health than for years previous to taking the Sarsaparilla. My object in making this communication is, that all who have suffered as she has, may know where and to whom to apply for relief, (and that not in vain,) as a complete cure will be the result. My wife unites with me in heartfelt thanks; and believe me, gentlemen,

Yours sincerely,
FERRIER NAZER.

City and County of New York, ss.—Ferrier Nazer, being duly sworn, doth depose and say, that the foregoing statement, to which he has subscribed his name, is true and accurate, to the best of his knowledge and belief. Sworn and subscribed this 27th day of July, 1849, before me, — C. S. WOODHULL, Mayor.

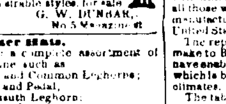
B. ANTOGNINI,
Manufacturer of Billiard Tables, &c.



No. 12 and 14 Conti Street, Between Chartres and Levee Streets,

BEGS leave to inform amateurs and proprietors of Billiards, that he is now ready to furnish them with Billiard Tables of a new kind, and perfectly similar to those which he has made by Billiard manufacturers in France or the North or West of the United States.

The repairs which he is every day called upon to make to Billiard Tables coming from those countries have enabled him to ascertain the kind of construction which is best suited to resist the temperature of Camp climates.

The table and bands of a Billiard being generally the parts which are most liable to deterioration, particular attention has been paid to the construction of these parts.

Every Billiard built by him has a Mahogany table, combined with Oak, Cherry and Hickory, thus warranting them from warping in any direction.

The bands are made of Patent India Rubber, invented by him, and far superior to the French caoutchouc used in different manufactories. These India Rubber sides have been used by him since 1849, and have always given great satisfaction.

Gentlemen may satisfy themselves ... by visiting his establishment, where they will always find mounted Billiard Tables, ready for playing and they will be convinced that the bands do not jump.

EVERY BILLIARD TABLE BOUGHT FROM HIM IS WARRANTED FOR A NUMBER OF YEARS LIMITED BY THE PURCHASER.

He has constantly on hand a great variety

New and Second-Hand Billiard Tables

Also—BALLS and PINS, for Ten pin Alleys complete Loto Setts, &c., &c. Also—
EIGHT LEG BILLIARDS

Persons unable to come to New Orleans, and who may desire to procure any of the above named articles, have only to communicate their orders to B. ANTOGNINI, who will execute them satisfactorily.

B. Antognini has also the honor to inform his friends and the public in general, that in consequence of an arrangement with one of the largest manufacturers of d'Elbeuf Cloth, he has on hand a large quantity of that cloth for Billiard Tables, which he is prepared to sell at an exceedingly low price.

The extension of his house, and the relations which he has established, and continues to establish, with the best manufactories of France and the U. States enable him to sell all articles in his line at prices below the current rates — mr12

Genuine LE ROY,

FROM THE PHARMACY OF HIS SON-IN-LAW, COTTIN,

No. 51 Rue de Seine, (formerly No. 49) Paris.

PHARMACIE COTTIN.
PURGATIF LE ROY
SELON L'ORDONNANCE
DU DOCTEUR SIGNORET.
Prix : 6 fr.
Avis essentiel.
Des individus recueillant nos bouteilles pour les remplir de préparations sophistiquées, on est prié de les briser dès qu'elles sont vides.
Ici nos signatures à la main.
Rue de Seine, 51, ancien 49, Paris. — 2e Degré.

LE ROY'S CURATIVE SYSTEM is founded on the principle that all disease is occasioned by a degradation of the HUMORS, and that their expulsion is all that is required to effect a cure. Often repeated PURGATIONS constitute the best means to attain that object, and experience has demonstrated, that of all purgatives, those known as Le Roy's are the most efficacious; and, therefore, the great estimation in which those medicines are held, has awakened the CUPIDITY of a large number of COUNTERFEITERS, who have no hesitation in vending, either by retail or in bottles, resembling our own, FALSIFIED preparations, which are very deleterious. The infirm cannot, therefore, be too particular in their attention to the following notice:

N. B.—None others to be considered as genuine, than PHIALS containing a quart, from the PHARMACY of COTTIN, with an inscription bearing: 1st. Cottin's Pharmacy, rue de Seine, Paris, in relief on the glass.—2d. Our unbroken seal upon the stopper.—3d. Lastly, our label, (fac-simile hereto attached) printed on a YELLOW GROUND, with the ends in white letters: LE ROY'S PURGATIVE, and as heretofore bearing the names of COTTIN-LE ROY SIGNORET, and above all our MANUSCRIPT SIGNATURES.

HYDROGENIZED PREPARATION OF IRON

OF MIQUELARD & QUEVENNE.

It has been proved by numerous experiments made by M. QUEVENNE, Master of Pharmacy of the Charity Hospital, that Iron UNITED with HYDROGEN is one of the most active ferruginous *remedies* and that this preparation introduces *the greatest quantity of iron, for a given weight, in the gastric juice.* The high approbation with which the *Imperial Academy of Medicine has honored M. Quevenne's report,* after the facts therein stated had been strictly verified, the *inscription* of the HYDROGENIZED IRON to the rank of *official remedies* by virtue of a *ministerial decree* clearly demonstrates the importance of the discovery and constitute the highest distinction with which any remedy has ever been invested in France.

The HYDROGENIZED IRON is prescribed for all cases where ferruginous preparations may be used, such as *Chlorosis, Thinness of the blood,* with the sufferings of the Stomach and palpitations which are its consequences, etc. etc.; and for *certain constitutions naturally weak,* its presence in the diet is almost necessary. This preparation is *tasteless,* easy to take, and offers a great economy from the fact that small doses are required. It is sold under two different forms, 1o. in kind contained in small phials with a measure to dose it; 2o. in small Lozenges. In either of these forms, it can be kept for an indefinite length of time. They are only with the seal of *Miquelard.*

COPAL PECTORAL SYRUP.

PRICE, $1 PER BOTTLE. | PRICE, $1 PER BOTTLE

L. GAMOTIS,

New Orleans, corner Bayou and Rampart sts.

THIS Syrup which is the particular study of its author, and in the preparation whereof he devoted all his time, is an indigenous Balm.

Repeated experiments have already demonstrated that its medicinal powers are inferior to none of the compounds of this kind heretofore known and recommended with success in the affections of the lungs. It eases coughs, expels readily asthmatic oppressions, oppression arising from the strangulation of the bronchial vessels in case of acute or chronic catarrhs. Colds which have resisted the action of numberless remedies have yielded to its application. It is most beneficial in cases of hooping-cough, retarding and lessening the fits of cough. It has the advantage of being pleasant to the taste and economical of thus uniting the useful to the agreeable.

The dose for grown persons must not exceed four large spoonfull in 24 hours, and for children under 12 months, one-half tea spoon full is sufficient 3 or 4 times a day. It may be taken without mixture or in an infusion of pectoral flowers. — mr29

EDUCATION.

DAY AND BOARDING SCHOOL FOR YOUNG LADIES, Under the Direction of MADAM CHARPAUX,

At the corner of Bayou and Claiborne streets

THIS SEMINARY, whose existence dates some years back, has met with a success that proves beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Mad am Charpaux will spare no pains to make her Seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and fine property on one of the highest pieces of ground in the city, and the better to establish the health of her pupils, she has had spacious and elevated apartments built, expressly for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in this Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary catechism, all her young ladies who may have their first communion to make.

All the scholars, besides their regular lessons, will practice daily under the eyes of the Professor. The study of the notes will precede the performances, when Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the Pupils, and improve their singing, on the morning of the last Saturday in every month, there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer, the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4, and close at 5½ o'clock, P. M.

G. ROYER'S INSTITUTION.
No. 148 Conti Street, between Dauphine and Burgundy.

MR. G. ROYER, founder of this establishment, the oldest in New Orleans, avails himself of this opportunity to make a new appeal to the confidence of parents. This institution is conducted in a large mansion, occupying a fine central position, being well ventilated, and in other respects perfectly salubrious. The range of studies which engage the attention of the pupils, extends over all the branches of learning, which are necessary to a useful, polite and finished education; from primary instruction, to the more abstruse studies which are especially the province of a collegiate course. The elementary studies are attended to with more than ordinary care, considering the decisive influence which they exercise over the other branches of instruction. Discipline, which must not be separated from assiduous study, nor from a good education, is conducted with solicitude. It is calculated according to the age and character of the students, and intended to give them an accurate idea of duty and good behavior.

DAY AND BOARDING SCHOOL,
UNDER THE DIRECTION OF
MADAME PARENT,
Corner of Rampart and Du Maine streets.

THIS institution occupies one of the best locations in the city with respect to health and every other important advantage. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for classes.

There are four fine dormitories with dressing cabinets; also spacious galleries all through the house; a splendid terrace commanding a most beautiful view of the city, as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, beside every other advantage.

Every branch of a solid and refined education is taught in both languages; all accomplishments, such as Drawing, Painting, Dancing and Embroidery, &c. **The Musical department (including vocal and instrumental, is conducted by four of the most competent and acknowledged talents in the city.**

It would be superfluous to add anything respecting the special attention that is paid to the English language—the best guarantee that Madame Parent can give the public, is, that the French young ladies who have been educated by her speak it the same as their mother tongue.

For terms, apply at the Institution where prospectuses can be obtained.

ST. LOUIS INSTITUTE FOR YOUNG LADIES Boarding and Day School, under the direction of Madam Deron, Dauphine street, No. 313, and Hospital street, No. 155.

THE Directress of this Establishment, being fully sensible of the importance of the English language, has introduced new modifications in the mode of teaching.

The number of English Professors has been increased. Besides two distinguished Professors who are charged with the instruction of the three higher classes, *two American ladies,* who attend to the elementary classes and the general superintendence, speak English only. *The pupils are therefore compelled, in their general intercourse, to express themselves in English alone.* With a view to this result, Madam Deron has established strict regulations which she will personally see enforced, for she wishes families to be convinced of the fact that an easy and constant practice of the principal language of the country, is required at the Institute.

Moral and religious education and good manners which can be acquired only by example, are looked upon as highly important by Madam Deron, and she will use her best exertions to create patience and mild discipline on the one side, and patience and affection on the other, among the pupils and the teachers.

The musical classes, still under the management of Mrs. Lavillebeuvre, are constantly and carefully attended to.

The annual examination begins in October.

Summer Residence.

From the month of June, a branch of the St. Louis Institute is opened at Mandeville, a delightful village free from epidemic diseases. Madam Deron's object in opening it, is to afford to unacclimated young ladies or those wishing to spend a few months in the country, the facility of continuing the same studies as in the city. Both Establishments are opened during the entire summer.

A carriage is attached to the establishment, which conveys young ladies residing above Canal street, to and from the Institute. — sep4

New Orleans, March, 1855

Messrs H. M. Barlow & Co.:

In reply to your request, that I would state how I am pleased with "Mouchie's Patent Washing Machine," I have to say, that I am very much pleased with it. I have had it in operation about four weeks. I wash about one thousand pieces a day which I used to do by hand, and which required the *constant labor of four persons.* I now perform the same amount of labor with *one person in six hours.* I am better pleased with it every day that I use it. It answers every purpose that is required in washing, combining perfection in washing with far less labor, and in a much shorter space of time.
