COMMERCIAL

OFFICE OF THE DEB,
FRIDAY EVENING, July 2, 1858.

Our general market continues quiet, but considering the advanced season of the year, a fair amount of business has been done during the week. In Cotton operations have been restricted by the limited supplies and full prices claimed, but the sales are rather larger than last week. In Tobacco, Sugar and Molasses there has been no change of moment. Flour has further declined, while Corn has been firm at last week's advance. Provisions continue very dull, with a drooping tendency in the rates. Freights have improved a little, and Exchange has been firm.

On Tuesday morning we published the Arabia's advices, embracing Liverpool dates to the 19th June. They reported sales of 39,000 bales Cotton during the week, the market opening at a decline of ⅛d., but subsequently recovered and closed at ¼d. decline. Fair Orleans was quoted at 7 9-16d., and Middling Orleans at 6 12-16d. Advices from Manchester were unfavorable. Tree Ordinaire Orleans at Havre was quoted at 100 francs.

COTTON.—Arrived since the 28th ultimo, 6,252 bales. Cleared in the same time for Liverpool 20,961, Havre 850, Boston 1,165, and New York 111 bales; together, 23,049 bales, making a reduction in stock of 16,797 bales, and leaving on hand, &c., a stock of 59,798 bales.

The market opened on Saturday with a good demand, and 3500 bales were sold at full prices, and on Monday the sales amounted to 2500 bales, without any quotable change. On Tuesday, however, factors insisted upon extreme rates, and with a limited supply of desirable lots, the rates of that day and Wednesday together did not exceed 500 bales. Yesterday again fairly 500 bales were sold, and today only 300 changed hands, making a total for the week of 6,252 bales, the market closing on our quotations, which show an advance of ⅛c for Low Middling and Middling.
