SUNDRIES.

THE CHEST. SIR ASTLEY COOPER, BART., M. D., THE EMINENT MEDICAL PRACTITIONER, HAS LEFT A VALUABLE LEGACY TO THE WORLD IN [illegible]

Great Preventative of Consumption, AND Unfailing Cure for Pulmonary Diseases, WITHOUT THE USE OF MEDICINES.

Sir A. C., Bart., invented and advised the use of the MEDICATED FUR CHEST PROTECTOR, to all persons of all ages and conditions, as a certain and a safe shield against those fearful diseases, Consumption, Bronchitis, Asthma, Coughs, Colds, and other afflictions of the Lungs, which arise from the exposed state of the chest, *according to fashion*, and the continual changes of our climate.

"The Protector" is simply a chemically prepared fur, lined with silk and padded, which, suspended from the neck, covers the chest, in so agreeable a manner that, once worn, it becomes a necessity and a *comfort*.

"The Protector," although but recently introduced into America, is making rapid progress through the United States, the Canadas, South America, and the West Indies. It has for a long time been a staple article in England and on the continent of Europe, while it has grown in many countries to the position of an article of dress.

To demonstrate these facts, enquire of any English resident in your vicinity of his knowledge of the beneficial effects of wearing the Protector, WHENEVER RECOURSE TO SOCHRANING OF ANY KIND. The cost of wearing these articles is a mere trifle, and one will last some years. No one who values the health of himself or his family will be without them. The Hospitals in this country are not alone recommending them, but rapidly introducing them. Harcourt, Bradley & Co., of London and Manchester, England, were originally entrusted with the manufacture of the Protectors, by the lamented Dr. Cooper, and continue to manufacture according to *his original instructions*, and therefore recommend those who would wear "The Protector" to see to their being genuine.

REMEMBER THIS IS A STAPLE ARTICLE, AND NO PATENT MEDICINE.

BY ROYAL LETTERS PATENT,
THE HYDROMAGEN, OR WATERPROOF, ANTI-CONSUMPTIVE CORK SOLES. MANUFACTURED BY HARCOURT, BRADLEY & CO., 44 MARKET ST., MANCHESTER.

Principal Warehouse, 103 Wood Street, Cheapside London, England. American Establishments, 3d Ann street, and 102 Nassau street, New York, U. S.

THE Hydromagen is a valuable discovery for protecting the feet from damp or cold, and therefore a preventative of many Lung diseases, *without any doctoring whatever*. The Hydromagen is in the form of a sole, and worn inside the boot or shoe. Its *medicated* character is a powerful antidote to disease.

For Gentlemen, it will be found agreeable, warm, and healthy, to wear in the coldest or rainiest weather, as the foot cannot become wet if the Hydromagen is inserted. Ladies may wear the lightest soled boots or shoes in the most inclement weather with impunity; while Consumption, so prevalent among the young of our country, may be thwarted by their general adoption. They entirely *supersede over-shoes*, as the latter cause the feet to perspire in a very unhealthy manner; and, besides, are not dangerous wear to pedestrians in icy weather, like india rubbers. While the latter cause the feet to appear extremely large, the Hydromagen, being a mere thin slice of cork prepared, peculiarly placed inside, does not increase the size of the boot, or cause the foot to appear untidy. To Children they are extremely valuable, as they may engage in exercise with comfort and healthy effects. Their expense is so slight as to scarce need mention; besides, those who patronize them will find their *yearly doctor's bills much diminished thereby*.

As the Hydromagen is becoming more known, its sale is increasing to an almost incredible extent.—Last year in London, Manchester, Birmingham, Liverpool, Glasgow, Leeds, Dublin, Paris, Antwerp, Hamburgh, and Berlin, our sales reached 1,732,450 pairs of Cork Soles. This year the number will far surpass that.

Ask the Faculty their opinion of their value as a preventative for COUGHS, COLDS, BRONCHITIS, ASTHMA, AND CONSUMPTION.

Men's Size, pr. pair, 35 Cents.
Ladies' do. 30 do.
Boys' & Misses' do. 25 do.

NOTICE.—From the retail Prices, we make a very oral allowance to Jobbers and Wholesalers, so at any storekeeper may make a fine profit on their sale, whilst they are an article that may be kept in any store, among any class of goods.

For terms, apply to HARCOURT, BRADLEY & CO., sep15 3m 3d Ann street, New York.

WINER'S CANADIAN VERMIFUGE
A CERTAIN REMEDY FOR WORMS.

IT IS A FACT, established beyond the shadow of doubt, by the experience and testimony of the most eminent physicians, more than three-fourths of the diseases with which children are afflicted are caused by Worms, and thousands of children die annually from those diseases, when the cause is either not known or attributed to something else. Vacuums are the preparations which have been recommended as remedies for Worms but experience has proved them all more or less ineffectual, and, however, has at last been attained, and a remedy found which has never failed to destroy Worms whenever they have existed. This assertion is supported by the testimony of the most eminent physicians and respectable individuals in the country. The remedy is

WINER'S CANADIAN VERMIFUGE, WARRANTED PURELY VEGETABLE.

It is safe in its operation, and more easily administered than any other. Some of the symptoms which indicate the existence of the Worms in the bowels are as follows: The countenance is pale, of a leaden color, and marked with occasional flushes; the eyes are heavy and dull, the breath fetid, the upper lips swollen, itching in the nostrils, which causes the patient to pick his nose; the sleep is disturbed, the patient often awakening in great fright, and is liable to starting and grinding his teeth; the appetite exceedingly irregular, being sometimes voracious, others feeble and in some instances it is perverted.

To the following certificates numerous might be added, but it is believed that these are sufficient to establish the fact that WINER'S CANADIAN VERMIFUGE IS A SUPERIOR REMEDY FOR WORMS.

Medical Evidence.

We, the undersigned, having frequently administered a medicine prepared by Mr. John Winer, of this town, designated "WINER'S CANADIAN VERMIFUGE," and being fully satisfied with its efficacy, confidently recommend it as a safe and efficient remedy for the expulsion of Worms from the intestinal canal.

G. O'REILLY, Lieutenant of the R. C. of Surgeons in Ireland, etc.
G. W. DICKINSON, Member of the R. C. of Surgeons, London, etc.

FROM THE REV. J. FLANAGAN OF BANBROCK, C. W.

J. Winer—Sir: I have made the trial of your Canadian Vermifuge and with the most happy results. In my own family, and in every case which has come to my knowledge, the expulsion of Worms has followed the administering of your Vermifuge, and every one here prefer it to any other, as its effects are certain, and children take it more readily, which is a great point gained in giving medicine to children.
July 16, 1845. JOHN FLANAGAN.

Physicians generally use WINER'S CANADIAN VERMIFUGE. This medicine is a simple vegetable preparation, and can always be administered with perfect safety and confidence as to the result, as it will always destroy Worms and restore the patient to health.

Over one thousand certificates have been sent to the Agents from planters, physicians, and merchants, bearing testimony to the efficacy of this infallible remedy.—Warranted in all cases.

Prepared only by JOHN WINER, Manufacturing Chemist and Wholesale Druggist, Hamilton, Canada West.

EDUCATION.

DAY AND BOARDING SCHOOL, UNDER THE DIRECTION OF MADAME PARENT, *Corner of Rampart and Du Maine streets.*

THIS Institution occupies one of the best locations in the city with respect to health and many other important advantages. The building is magnificent, the apartments are vast and well ventilated, and are particularly well adapted for classes.

There are four fine dormitories with dressing cabinets, also spacious galleries all through the house; a splendid terrace commanding a most beautiful view of the city, as far as the Lake.

The best advantages are offered to parents, as to the moral and intellectual cultivation of the minds of their daughters.

Madame Parent is always present with her pupils; she teaches during the hours of class, and superintends the different divisions. There is an ample number of the best professors employed, besides ladies residing in the institution.

Every branch of a solid and refined education is taught in both languages; all accomplishments, such as Drawing, Painting, Dancing and Embroidery, &c. The Musical department (including vocal and instrumental) is conducted by four of the most competent and acknowledged talents in the city.

It would be superfluous to add anything respecting the special attention that is paid to the English language—the best guarantee that Madame Parent can give the public, is, that the French young ladies who have been educated by her speak it the same as their mother tongue.

For terms, apply at the Institution, where prospectuses can be obtained.

ST. LOUIS INSTITUTE FOR YOUNG LADIES, Boarding and Day School, under the direction of Madam Deron, Dauphine street, No. 218, and Hospital street, No. 158.

THE Directress of this Establishment, being fully sensible of the importance of the English language, has introduced new modifications in the mode of teaching.

The number of English Professors has been increased. Besides two distinguished Professors who are charged with the instruction of the three higher classes, *for American ladies*, who attend to the elementary classes, and the general superintendence, speak English only. The *pupils are therefore compelled, in their general intercourse, to express themselves in English alone*. With a view to this result, Madam Deron has established strict regulations which she will personally see enforced, for she wishes families to be convinced of the fact that an easy and constant practice of the principal language of the country, is required at the Institute.

Moral and religious education and good manners, which can be acquired only by example, are looked upon as highly important by Madam Deron, and she will use her best exertions to create patience and mild discipline on the one side, and patience and affection on the other, among the pupils and the teachers.

The musical classes, still under the management of Mrs. Lavilleboeuvre, are constantly and carefully attended to.

The annual examination begins in October.

Summer Residence.

From the month of June, a branch of the St. Louis Institute is opened at Mandeville, a delightful village free from epidemic diseases. Madam Deron's object in opening it, is to afford to unacclimated young ladies or those wishing to spend a few months in the country, the facility of continuing the same studies as in the city. Both Establishments are opened during the entire summer.

A carriage is attached to the establishment, which conveys young ladies residing above Canal street, to and from the Institute. sep4

DAY AND BOARDING SCHOOL FOR YOUNG LADIES, Under the Direction of MADAM CHARPAUX, *At the corner of Bayou and Claiborne streets*

THIS SEMINARY, whose existence dates some six years back, has met with a success that proves beyond all cavil, the capacity of those who have charge of it.

Determined to merit the confidence of parents, Madam Charpaux will spare no pains to make her Seminary equal to the best institutions of the kind in New Orleans, and in order to do this, she has employed the ablest teachers.

Madam Charpaux has purchased a large and airy edifice on one of the highest pieces of ground in the city, and the better to consult the health of her pupils, she has had spacious and elevated apartments built on purpose for school and sleeping rooms, through which there will be a constant circulation of air from many windows.

Great attention will be paid to the improvement of Scholars in the English language. For this purpose, American ladies of acknowledged capacity, as teachers, will constantly reside in the Seminary.

The English, French and Spanish languages, geography, arithmetic, and in short, all the branches of a polite education, will be taught in this Seminary.

As religion should be the foundation of all sound education, it will be carefully attended to by Madam Charpaux, who will conduct to church and preliminary catechisms, all her young ladies who may have their first communion to make.

Music having become a most desirable branch of the education of young ladies, Mr. Charpaux, from the best musical school in Paris, and ex-artist of the Orleans Theatre, will devote all his time to teaching music. All the Scholars, besides their regular lessons, will practice daily under the eyes of the Professor. The study of the notes will precede the performances, when Mr. Charpaux will put the pupils through the execution of the regular keys and notes, and this will be attended with no extra charge.

In order to kindle emulation among the Pupils, and improve their singing, on the morning of the last Saturday of every month, there will be a musical examination and a distribution of rewards.

Madam Charpaux, in order to complete the education of her Scholars, has opened a class where will be taught all the useful and ornamental branches of needle-work.

During the summer, the classes will open at 8 o'clock, and close at 3. Re-open at 4 and close at 6 o'clock, P. M. In winter, they will open at 8½, and close at 3. Re-open at 4, and close at 5½ o'clock, P. M.

MR. EVERETT would respectfully inform parents and guardians of youth, that the organization of the classes in the college of New Orleans is now complete, and such as to leave nothing to desire. He is able to congratulate the patrons of this Institution on the recent accession to the faculty of an American gentleman of established reputation, who will aid him in the mathematical department and the English, so that the English language may receive that preponderance which its importance deserves.

The Latin and Greek classes have been confided to a gentleman who has proved himself a thorough scholar and a skillful teacher.

Students are admitted at all stages of advancement, and at the end of the academic year, degrees are conferred upon such as have completed the course of study adopted by the President and Board of Visitors.

For further particulars parents are invited to call at the College, where the President will take pleasure in giving them all desirable information.

POYDRAS COLLEGE, FALSE RIVER, POINTE COUPEE, LA.

THIS establishment is situated on False River, six miles from the Mississippi, but is easily accessible to scholars from all parts, who may be landed at the Church of Pointe Coupee, from whence they will be conducted to the College, at the expense of the undersigned directors.

The building is surrounded by extensive play grounds, lined by a splendid lawn shaded with noble oak and lilac trees. At the end of the lawn and immediately before the gate, spread out the clear lakelike waters of False River, in which the pupils can securely bathe during the oppressive heats of summer. There is also attached to the building a gymnasium, and all kinds of games are being constructed.

It is now seven months since the institution has been opened, and we take to ourselves great merit for the manner in which it has progressed during that short space of time; we have some fifty odd boys, and with the exception of one or two, we have not had one single case of sickness. We can offer to the public advantages, which no other institution can, for the studies being conducted after the principle of French Universities,—devoting half the time to French and the other half to English, scholars will acquire those two languages perfectly, pursuing at the same time their studies, as for as Philosophy included.

JACKSON INSTITUTE, FOR BOTH SEXES,
UNDER THE MANAGEMENT OF MESSRS. ED. JEGOU AND A. LAVOGNE
St. Louis street, No. 179, between Burgundy and Rampart streets.

AN Establishment with as complete a plan of studies as that of the Jackson Institute, was wanting in New Orleans. Our experience in teaching offering, as we think, to parents a sure guarantee for the future, we have confidently undertaken a task which, as its indispensable, should secure to a competent and persevering professor their kind patronage and sympathies. We are conscious of the numerous duties that devolve upon us and the various obstacles we will have to overcome, but should a blind and unjust enmity momentarily jeopardise the success of our praiseworthy efforts, we will submit our claims (which we know will be recognized,) to the enlightened class of the population; their opinion and support cannot fail to insure the stability of our establishment. It numbers already many pupils and from its opening, was placed on the same footing with the best institutions in this city. We have spared no sacrifices and will always make it a duty to avail ourselves of every opportunity of improving it. Our Professors will be selected from among the most advantageously known ladies and gentlemen.

The premises are all that could be desired and are situated in the healthiest part of New Orleans.

The class rooms and dormitories are extensive and perfectly ventilated; a gymnasium and large shed have been constructed in the yard, the largest in the city.

A sewing class is attached to the Girls' schools, wherein every kind of needle work, including embroidery is taught. The course is obligatory.

N. B.—Corporal punishments are expressly forbidden.

BRANCHES OF INSTRUCTION.
Reading, Writing, Arithmetic, Grammar, Geography, History, Book-keeping, French, English, Spanish, Latin, Greek, Mathematics, Rhetoric, Philosophy, Natural History, &c.

The terms are agreed upon with parents. A month begun must be paid in full. Parents are respectfully invited to visit our Establishment.

NIGHT CLASS.
English, French, Book-keeping, $4 a month.
For Prospectus, apply to the Principal Booksellers and at the Establishment.

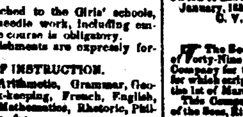
B. ANTOGNINI, Manufacturer of Billiard Tables, &c.,



No. 12 and 14 Conti Street, Between Chartres and Levee Streets,

BEGS leave to inform amateurs and proprietors of Billiards, that he is now ready to furnish them with Billiard Tables of a new kind, and superior to all those which have heretofore been in use, whether manufactured in France or the North or West of the United States.

The repairs which he is every day called upon to make to Billiard Tables coming from those countries have enabled him to ascertain the kind of construction which is best suited to resist the temperature of damp climates.

The table and bands of a Billiard being generally the parts which are most liable to deterioration, particular attention has been paid to the construction of these parts.

Every Billiard built by him has a Mahogany table, and is sustained with Oak, Cherry and Hickory, thus warranting them from warping in any direction.

The bands are made of Patent India Rubber, invented by him, and far superior to the French caoutchouc bands used in different manufactories: these India Rubber sides have been used by him since 1847, and have always given great satisfaction.

Gentlemen may satisfy themselves [illegible] by visiting his establishment, where they will always find mounted Billiard Tables, ready for playing and they will be convinced that the balls do not jump.

EVERY BILLIARD TABLE BOUGHT FROM HIM IS WARRANTED FOR A NUMBER OF YEARS LIMITED BY THE PURCHASER.

He has constantly on hand a great variety of New and Second-Hand Billiard Tables. Also—BALLS and PINS, for Ten-pin Alleys, complete Loto Sets, &c., &c. Also—EIGHT LEG BILLIARDS

Persons unable to come to New Orleans and who may desire to procure any of the above named articles, have only to communicate their orders to B. ANTOGNINI, who will execute them satisfactorily.

B. Antognini has also the honor to inform his friends and the public in general, that in consequence of an arrangement, with one of the largest manufacturers of Billiard Cloth, he can hand a large quantity of that cloth for Billiard Tables, which he is prepared to sell on an exceedingly low price.

The reputation of his house, and the relations which he has established, and continues to establish, with the best manufacturies of France and the U. States, enable him to sell all articles in his line at prices below the current rates. my18 [illegible]

BLADON SPRINGS, ALABAMA.

THE Proprietors of these delightful Mineral Springs, situated in a healthy region of Pinewoods, four miles west of the Tombigby river, and sixty miles north of Mobile, now beg to call the attention of those leaving this city for health or pleasure during the warm season, and to state that they have completed the additional improvements and accommodations contemplated, and are now prepared to receive visitors in a style of superior comfort. They pledge themselves that nothing shall be wanting on their part to make a summer residence at these Springs the most agreeable.

They beg to note the test of these waters duly analyzed by Professor Brumby, of the Alabama University, and found to contain—

—IN A WINE PINT—

Carbonic Acid Gas..............	4.075 cubic in
Sulphuretted Hydrogen (trace)......	
Chloride of Sodium..............	0.9665 "

"Hence, says Professor Brumby, this mineral water is very similar in composition to some of the best Springs of Europe, such as "Seltzer," "Spa," "Pougues" and "Aix-La-Chapelle;" it must therefore in many diseases have decidedly beneficial effects." This opinion is confirmed by the extraordinary cures effected during the last season, by the use of these valuable waters.

Carriages and horses are in attendance at all times to convey passengers to and from the river, and to the springs during their stay.

CONNOR & WOOTEN, Proprietors.

N. B. The Proprietors beg to append the following recommendations of these waters that the public may judge for themselves of their value.

"We, the undersigned, from personal experience with the qualities of the waters known as the "Bladon Springs," Alabama, cheerfully unite in giving our opinion in favor of the valuable mineral properties, and highly recommend, in cases of disease resulting from the use of them, especially in Chronic [illegible] and diseases; in cases of [illegible] chronic rheumatism; in cases of irritable [illegible] chronic inflammations of the kidneys or bladder; in certain forms of disease of the urinary organs; and in neuralgia depending on rheumatic diathesis."
