ANTI-GOUTY ELIXIR

OF

HIPPOLYTE BRIEUGNE,

INVENTOR OF THE ANTI-RHEUMATISM

Tropical Balm.

TILL NOW all medical science has had no power over the gouty, this terrible disease which has ever made so many victims all over the earth, and still nearly daily so many thousands from their ocean palaces to give them up to the most painful sufferings. It is unless to recall to our minds the symptoms of this disease too well known to its numerous sufferers. It suffices to name them to appreciate the value of such a remedy against their return. Such is the effect of the ANTI-GOUTY ELIXIR, which is the result of the laborious searches of M. HIPPOLYTE BRIEUGNE, already known by the discovery of the anti-rheumatical TROPICAL BALM, that has had due to its day the great success. The ANTI-GOUTY ELIXIR, particularly designed for curing the gouty, possesses a power no less great, warranted by a long and personal experience of the inventor, and by repeated essays upon the numerous victims.

The ANTI-GOUTY ELIXIR is easy to take, and its taste is in no way disagreeable. It can be taken pure or mixed with water or wine. The profusion of tea or coffee its effects are felt after a few hours, whatever may be the idiosyncrasies of the fit. In twelve hours at most the sufferings disappear and all its symptoms vanish away.
