Having constantly on hand a large assortment of Walnut, Mahogany, &c., he will sell to those in need of the same the qualities suitable to the works ordered.

A new patent French regulator is attached, by means of which any one can see at once the quantity of water in the boiler; and should he forget to look, a whistle connected with the machine warns him that water is wanting in the boiler.

The above addition having been made to his establishment for the purpose of facilitating the manufacture of Billiard Tables, the undersigned reminds his customers that he keeps, as heretofore, new and second-hand Billiard Tables, and every article in his line. Young ladies thus received by Mrs. Assex will enjoy the privilege of following the lectures they choose and the right to send, for lessons, for the professors they prefer, even when those professors are not connected with the Institute.

They would not therefore be considered as mere boarders, but as members of the family, and would enjoy all the liberty and comforts they would partake of at home.
