PILULES DEHAUT

The VEGETABLE SUBSTANCES contained in these Pilules have been selected and combined according to the new method of DEHAUT, in order to be Taken and Digested at the same time as other food, and thus operate fortifying, in a more quiet manner, the vital energy, so strong, that the Purgative effect of the most convenient purgatives and most active laxatives, of which the nauseating disgust of all other purgatives, which 30 years of trial have proved, have rendered DEHAUT'S PILLES very popular in France. They are invaluable against Costiveness and its concomitants. As a mild Purgative, they are superior to all others, inasmuch as they can be taken for several days without the disagreeable effects of other drastic and Hot. But the greatest benefit is felt in the cure of a great many Diseases, such as Asthma, Catarrh, Bilious Colic, Sick Headache, Inactive Liver, Humors, Gastritis, &c. &c., because the whole system feels the same time will establish organs to bear his source of treatment to their fullest. N. B.—CONSULTING PHYSICIAN GRATIS. Boxes of 24, francs and 5 francs, of M. Dehaut, Druggist and Physician, No. 148 Faubourg St. Denis at Depots in New York, at MM. FOUGERA, Brothers, Apothecaries, No. 30 North William street, and at M. LEROY, Apothecary, No. 771 Broadway, corner of Bleeker street.

HUILE DE FOIE DE MORUE DE HOGG

DRUGGIST, No. 8 CHAPELLIER STREET, PARIS.

The *only oil*, of a straw color, which has obtained an *honorable mention* at the Universal Fair of Paris—against *discovers of the chest, Arthrite, glandular tumors, rheumatisms, scrofulous affections, lymphatic affections, consumption* of Children, *arthritis*, and *general debility* of the *organs* in either sex. It is also recommended to *females in pregnancy* and to *nurses*.

Important Observations!

1st. The oil of cod liver, when *colored*, is almost *colorless*.
2d. It does quite sweet and without *acridity*.
3d. Its *smell* is that of *fresh fish*.
4th. The smell and the color, of which is *Brownish*, the smell obnoxious and the taste acrid and bitterish, are so only because they have been badly prepared, from old and corrupted livers. This is the conclusion of a report to the Imperial Academy of Medicine of Paris, read on the 28th December by Mr. Deschamps, of Avalion. According to Mr. Soubeiran, Professor of the School of Pharmacy of Paris, "*this oil is richer in medical properties than the colored oils*" Treatise of Pharmacy, page 806.

Mr. Lamers, Chief of the Chemical Department to the Faculty of Medicine of Paris, has demonstrated by differential analysis, on the 1st June, 1861, that the *straw-colored oil* of *Mr. HOGG* contains almost *fifty times* as much of *active properties* as the *dark-colored*, that Hostetter's.

NOTICE.—To avoid all counterfeits, this oil is only sold in triangular bottles, as here illustrated, and never or to any person, in barrels, by the quart or at retail. To apothecaries taking 25 half bottles, a discount of 25 per cent. is made on net price. Same conditions to druggists. Depots in *New Orleans* at Ed. Guillot's, 148 Royal street, and L. Castel's, druggist, corner of St. Ann and Royal streets.

CHOCOLATES

No. 30 Saints-Pères Street, Paris.

The exquisite flavor and wholesome effects of the usual hygienic chocolates, vanilla scented, prepared by these celebrated houses, are well known, as well as the other articles of their trade, namely, *medicinal chocolate, Persian salep chocolate*, and of the *opaline almond chocolate*. The almond chocolate is better suited to people who are threatened with consumption or convalescent from an attack of pectoral; it nourishes every thing which is restorative in the cocoa, but nothing stimulating. MISCELLANEOUS

[CONTINUATION.]

THE DAYS OF PATENT QUACKERY, WHEN every hour swings forth some new pretender, with the idea that fresh is best, is fast passing away. It has been the fate of many a medicine, which has been thus ushered into the world, to sink into oblivion, and that the school would seem to be the only one which could stand the test of time. But, it is not so; there is one medicine, which has stood the test of time, and which, instead of sinking into oblivion, has been for years increasingly in vogue, and which, instead of being forgotten, is more and more in demand. HOSTETTER'S CELEBRATED STOMACH BITTERS can boast generously of the success which it has achieved, because its merits have established a reputation, which no other medicine can claim. *Before* from their table spoon, will speak more powerfully than volumes of Hostetter's testimonials, or blustering puffery.
