CHARTROULE'S IODURATED CIGARETTES.

DIRECT INTRODUCTION OF IODINE INTO THE LUNGS BY THE

CHARTROULE IODOMETER,

PATENTED APPARATUS.

FOR THE INHALATION OF THE VAPOR OF IODINE IN THE TREATMENT OF DISEASES OF THE LUNGS.

General Depot at Paris, BOULEVARD DE STRASBOURG, No. 64, opposite the CHURCH OF ST. LEU.

DISEASES OF THE LUNGS which have resisted every remedy have been successfully combated by CHARTROULE'S CIGARETTES AND IODOMETER. The marvellous results obtained from the medicinal combination of Paris and Brussels, based upon the results obtained in hospitals, are the best evidence of their efficacy. Consequently they are universally employed, prescribed and administered by the most competent persons in the safest and most rational of remedies. These Specific agents are not quackery, but are prepared according to the formulæ of the Academy of Medicine. With respect to the vapor of iodine, it is disengaged in embryo by the action of the air, and is thus demonstrated on an extensive scale in the practice of our leading physicians, and in the hospitals of Paris and Brussels. Depot at New Orleans, at Masson, 24, Gueldre, drugist, Louis Chatel and Detoche, apothecaries. At New York, at Hamble, John Philips & Co., apothecaries, Vienna, Republic Court, and Long, druggist, 800 Broadway.

AT PARIS, BOULEVARD DE STRASBOURG, No. 64, AND No. 231 RUE DU TEMPLE.

DENTIFRICE WATER OF DOCTOR HENOQUE

PHYSICIAN OF THE FACULTY OF PARIS, SURGEON DENTIST, CHEVALIER OF THE LEGION OF HONOR.

Author of several Treatises of Dental Medicine, (Gold Medal awarded by Government.)

DR. HENOQUE has proved by a long practice that the loss of teeth and diseases of the gums are often the result of Dentifrices containing *noxious principles.* These dangerous mixtures, offered by ignorant men who have neither studied nor practised dental medicine, are but too often accepted by the public. Dr. Henoque, after a very profound study of the hygiene of the human mouth, and with the help of sound chemical analyses, has composed a DENTIFRICE WATER, mostly recommended, for the care and preservation of teeth, the virtues of which have been demonstrated by experience and the approbation of several celebrated bodies.

NOTICE—Dr. HENOQUE'S POMMADE and WATER are quite disinterested.

PARIS, at Dr. HENOQUE'S, Surgeon Dentist, No. 243 St. Honoré street. SPECIAL ROOM, No. 41 Vivienne street.

N. B. Every flask has a label bearing Dr. HENOQUE'S signature, and must also bear his seal. The words "Eau de Dr. Henoque" and a crown are moulded in the glass. Price, 1 and 2 francs. In New Orleans, New York, by Dr. GUSTAVE GOUIN, druggist; FOURNIER BROTHERS and LEROY, pharmacists. Mexico, by E. MARLIANE BERTRAND, druggist, and by the principal perfumers and hair-dressers abroad.

PILULES DEHAUT

THE VEGETABLE SUBSTANCES contained in this Purgative have been selected and combined according to the new method of M. DEHAUT, in order to be taken and Digested at the same time as the best food and the most fortifying liquids. The pills are evidently silvered, purposely to achieve, to take Purgative the most convenient hour and medicine so not to leave of taste and avoid the nauseating disgust of all other purgatives. These advantages, which 35 years practice have proved, have rendered DEHAUT'S PILLS very popular in France. They are invaluable against Constipation and its concomitants. As a mere Purgative, they are superior to all others, inasmuch as they are to be taken for several days without the disgust attendant on purgative drinks and diet. But the greatest benefits felt in the cure of a great many Chronic Diseases, such as Asthma, Catarrh, Ring-worm, Sick Headache, Scrofulous Humors, Gnattritis, &c. &c. because the Molasses-food which the sick must take at the same time as DEHAUT'S PILLS, is necessary to Molasses-food which the sick must take at the same time as DEHAUT'S PILLS, is necessary to nourish the sick and to restore the organs to their healthy state of vigorous action, and to Nourish and Invigorate the sick and to restore the organs to their healthy state of vigorous action, and to Nourish and Invigorate the sick. A few hours upon this point will decide more powerfully than volumes of have opportunity of obtaining the genuine article, the genuine signature of Hostetter's Stomach Bitters for the last year amounted to over a half million bottles, and from its unrivalled steady increase for many years, it is evident that during the coming year the consumption will reach nearly one million bottles. This immense amount could never have been sold but for the rare medical properties contained in the preparation, and the sanction of the most prominent physicians in some portion of the country where the article is best known, who not only recommend the Bitters to their patients, but are ready at all times to give testimonials of the efficacy of the Bitters in all cases of stomach derangements and the diseases resulting therefrom.

This is not a temporary popularity, obtained by extraordinary efforts in the way of trumpeting the qualities of the Bitters, but a steady advancement of a valuable medicine, which is continued to be as celebrating as time goes.

During the summer and fall the vicinity of most of our American streams is rendered extremely unhealthy by the deadly miasma. In the south and West this is especially the case, to the very heart of the densely populated and fifty cities, where immediately the cholera usually prevailed. Hostetter's Stomach Bitters have proved a great blessing in regions where fever and ague and various other fevers have prevailed, and their volume by a adverse. Testimonials innumerable of the consumer, attest the fact that the magical powers of the bitters have saved the means less fatal, by strengthening the digestive organs, and strengthening the whole system and then arming the body against the fever and ague. The summer in all parts of the Union brings with it certain derangement of the stomach and bowels which greatly increase the mortality. Not only will persons who are apparently flushed with health and vigor be seized and carried in from of various kinds, and thus reports from cholera and dysentery; but the best of health will generally upon their system, and make such a run upon a fever to follow. The Bitters have been found a speedy and certain remedy for all forms of dyspepsia, and when used regularly during every weather a positive preventative against sickness. Hostetter's Stomach Bitters is a mild but thorough purgative, and is recommended by all physicians of the land as the best family medicine. Also, for sale by all druggists and dealers generally.

DISTINGUISHED!

IN THESE DAYS OF PATENT QUACKERY, WHEN almost every bottle brings forth some swindling preparation, it is a pleasant thing to be able to say "that the life that fresh in hope is." It is a pleasant fact of congratulation that a medicine possessing real merits has been able to make its way into popular favor, and that the above well known and long established preparation have stamped it with their cordial approval. The proprietors and manufacturers of HOSTETTER'S CELEBRATED STOMACH BITTERS can say proud with perfect confidence to physicians and consumers generally of the commercial metropolis of the South, Southwest and West, that the sale of this invaluable medicine, which, being the 7 years succeeding to low, do for 7 years succeeding to low, do for 7 years succeeding to low, do for
