L. MILLER'S HAIR INVIGORATOR,

AN EFFECTIVE, SAFE AND ECONOMICAL COMPOUND FOR RESTORING GRAY HAIR to its original color, without dyeing, and preventing the hair from falling out.

FOR PREVENTING BALDNESS, and promoting a healthy growth, where there is the least particle of vitality in the roots of the hair, this preparation is unequaled.

FOR REMOVING DEAFNESS AND DANDRUFF, and all cutaneous diseases of the scalp.

FOR BEAUTIFYING THE HAIR it is unequaled as an unguent, giving it a soft and silky lustre and curling it easily.

The demand for it is constantly and the increasing demand for it is the best proof of its efficacy. Its extensive sale is the best evidence of its superior qualities over any other preparation. It contains the head and hair, and prevents the profuse perspiration which causes the hair to come out prematurely, and gives it a rich, soft, glossy and silky appearance. It will give strength and vigor to the hair, and restore the growth in places where it has become bald, causing it to yield a fresh crop of hair.

It is now in hundreds of ladies and gentlemen in New York, who have had their hair restored by the use of this invaluable article, after all other preparations had failed. Its success is a public benefit, as it has given back to many persons the hair from premature baldness, from persons of the highest respectability, who have personally presented the hair from nursing, to prove the truth of what they say, and in cases where the hair has already changed its color, the use of the hair restorer will certainly restore it to its original hue, with a healthy and glossy appearance. As a perfume for the toilet, L. Miller's Hair Restorative is particularly recommended, having an agreeable fragrance, and the unanimous testimony of those who have used it, is that it affords a delightful dressing for the hair, and in connection with the Invigorator, can be dressed in any manner required, to preserve its place, whether in ladies or gentlemen, to the great demand for it by the ladies as a toilet article, and other which none ought to be without, a standard article which none ought to be without, as the price places it within the reach of all, viz.:

ONLY TWENTY-FIVE CENTS

per bottle, to be had of all respectable druggists and perfumers.

L. MILLER would call the attention of Parents and Guardians to the use of his Invigorator, as a dressing for the hair of children, a thing which has been wanted long and is now in great demand for it by the ladies as
