Preservation of the Sight.

MR. C. DUHAMEL, optician, No. 46 Chartres street, begs leave to inform all those whose sight is defective that he has just received a fresh invoice of pebbles Opthalmic Glasses, approved by the most renowned oculists in Paris, and Dts. Beard, Percelous, Gamgeous, Nes and others in New Orleans. The oft in sight that these glasses can be used without the least danger to the weakest eyes.

The most skillful opticians are made a report declaring that the above articles are unquestionably the best for the preservation and improvement of the sight.

These superiority over all other consists in the former being equally divided over the whole surface, and the latter being in the center only, at the same with spectacle glasses equally. The interpolation of the two by Duhamel curves makes them both interchangeable, and, consequently, much clearer than to others.

Near-sighted persons will find great improvements in these glasses.

A pattern showing the advantages of these new spectacles will be exhibited and delivered, on application to Mr. Duhamel, to all those wishing to destroy of being further informed on the subject. febl7
