TO LET

FOR A SICKLY SEASON.

NEVER since 1820 has this city experienced so much sickness as at this time. Scarcely a family but some of the members are laid up with the fever.—There is no exception to this state of fever, but where the Sarsaparilla Pills and Syrup are used; they prevent sickness in a measure; they carry the blow; they prevent it from striking at the body and producing serious results; in fact the fever may be avoided by using a box of Sarsaparilla pills and a bottle of the COMPOUND SYRUP OF SARSAPARILLA.

Concentrated and prepared by steam.

The Sarsaparilla is a plant which grows in Peru, Portugal, Brazil, Mexico and Virginia. The Americans were the first who ascertained its peculiar qualities, and which is corroborated by the works of the most celebrated physicians, as well as by naturalists and travellers. The Spaniards first introduced its use into Europe.

The high and envied celebrity which this preeminent medicine has acquired for its invaluable efficacy in all diseases which it proposes to cure, has rendered the usual practice of puffing not only unnecessary but unworthy of them. They are known by their fruits—their good works testify for them—and they thrive not by the faith of the credulous.

The preparations, from the choicest HONDURAS SARSAPARILLA, is incomparably superior to every other purporting to be made from Sarsaparilla. It is manufactured by an improved chemical steam process, whereby the medical virtues only of the Sarsaparilla are extracted, and from which is made the pleasant *Syrup*, the strength of one dozen bottles prepared according to the formula prescribed by the London, Edinburgh, and United States Dispensatories. From the extraordinary virtues of this preparation, it has been introduced into all the principal hospitals throughout the United States and Europe, and is highly recommended by the physicians and surgeons of those institutions as possessing the entire virtue of the Sarsaparilla in a highly concentrated form. As a testimony of the high repute in which this preparation is held by the medical faculty in general, the following gentlemen, distinguished alike for their talent and high respectability, have voluntarily testified to its unrivalled merits and virtue in curing certain diseases hereafter enumerated.
