ny in ofeun Boat Ories , affiled lasting from Louisville, we have the following intelle gence: The Leg slature of Kentucky adjourned on the 15th inst., without having elected a Senator to Congress. 50,000 dollars were subscribed by the State in aid of the Maysville and Lexington Turopike Road Company, and the gress is not in a secon, to decide upon such meas sum of 15,000 dollars, towards the construction of the Shelbyville Turapike,

of the Executive-that in the absence of such authority, the national will is best ascertained by The bill introduced by Mr. McCaffee for the a reference to existing laws; one of which, viz. establishment of an agricultural Bank was orthat of 28th July, in the 14th year of Colombian dered to be printed, but was not further acted Independence; specifies the powers which the Executive may exercise in circumstances less urgent and difficult than the present-and lastly.

(FOR THE LEE.) PENMANSHIP.

Among the improvements in all that confuces to the convenience of life and the extension and perfection of art, which have destinguished the present age, we strongly recommend the new principle of movement adopted by .Mr. Tou scy in his system of writing, as being really useful and ingenious. He has the merit of inving supplied an interesting desideratum in the useful art of permianship and of having involted an admirable system by which not only excellence in writing may be acquired with ease. but a wretched hand be corrected, and bad habits be reformed by those who from long practice may be considered as incapable of deriving any

th from rules or improvement from examples. The actuating principles throughout, is se looping of letters and words together with combined movement of the arm; and those who have not seen his manner of instruction can form little idea tow its excellence is exemplified in tw nty lessons. The old associations between vacious contours of letters, and habitual movemeet of the fingers, will be much disturbed and broken by practicing on Mr. Tousey's elementary flourishes-so e specimins of which may be seen at the exchange, and his manner of executing them at his writing academy in Canal street .-- Upon the whole, we feel that in recommending this system we perform a duty to all clas-es-experiment is the test of utility and to this dr. T. tairly appears for the actision of an enlightened community for its fate. MANY PUPILS.
