

THE BEE.

PRINTED AND PUBLISHED BY JEROME BAYON, DELAUP & CO. NEW-ORLEANS, LA.

THURSDAY (MORNING), APRIL 7, 1831.

New York papers of the 23d ult. reached us by yesterday's mail, via Mobile; there had been no arrivals in this city, either from England or France, since our last dates.

The talk of the day is about carrying the war into Lithuania. The permanent diet has assumed the administration of the Kingdom.

The following Gentlemen are recommended as Directors to the canal bank, and will be supported by many stockholders.

- A. K. Taylor, James Foster, R. O. Pritchard, Wm. White, R. W. Zacharie, Harry Elkins, J. M. Kennedy, J. E. Whitall, J. M. Minturn, Wm. Tufts, S. Livermore, A. H. Wallace, James Puch.

Baltimore, March 24. A slip from the office of the Mercantile Advertiser says:—"The capital stock of the city bank is \$1,250,000. The loss of so large a sum as \$138,000 has created a panic among the stockholders."

Mexico, Feb. 19. The Supreme Government has received news from Mexico by express that the Commandant General of the insurgent Blas Estrella, has presented himself for pardon, with the party under his command.

Mexico, Feb. 21. The news received by every mail is very satisfactory. According to that received to day, tranquillity is restored on all sides; the unhappy persons who had been led astray, are presenting themselves to the authorities, and the tedious publications of those who desire to prolong the evils of the nation, exist only the indignation of all good citizens.

FROM AMSTERDAM.—By the arrival on Saturday last, of the ship Siennaadok, captain Rose, from Amsterdam, we have been favored with the following extract of a letter from that port, dated 8th Feb. which was directed to capt R. while in the canal, where he lay several days before he sailed. The S. left New Dieppe on the 12 ult.

Capt. Rose brings nothing later than what has already been received, with regard to the state of the different governments in Europe. He has, however, favored us with two addresses, which, we believe, have never before been published in this country.

We learn nothing particular with regard to the state of the market. From a conversation had with Capt R. we learn that it was the general impression among the people, that war was inevitable in almost any situation the government might take. The S. brought no late papers.

Lexington and Ohio Rail Road.—We are informed that the sum of \$106,100 (\$137,000 unconditionally, and 28,500 conditioned to be void if the road does not terminate within the city) has been subscribed by the citizens of this place to the stock of this company within a few days.

AMSTERDAM, Feb. 10. Cotton does not offer as yet any transactions worthy of particular notice. The article has been calm for awhile. The account of the crop in the United States being more extensive than it was represented at first, besides the political circumstances have discouraged speculators, but we are not without hope that immediate wants will create a more animated demand in the spring.

HAY.—250 bales in store for sale by Henry, for sale by J. W. ZACHARIE & CO.

in a few years the business transportation along its line. This will be effected in part by the increase of population consequent upon the stop it will put to emigration from this section of country, as well as the inducement it will create to invest capital abroad to locate themselves in this country.

FATAL EXPERIMENT.—A fer the invention of the diving-bell, and its success in subsequent processes, it was considered highly desirable to devise some means of remaining for any length of time under water, and rising at pleasure without assistance, so as either to examine at leisure the bottom, or perform at ease any work that might be required.

The following curious article appears in Le Voleur: "Europe contains about two hundred and fifteen millions of inhabitants, who are civilized, spread out among fifty-eight states, large and small. The revenues of these states, taken together, amount to nearly three thousand eight hundred millions of francs.
