"THE UNION—IT MUST BE PRESERVED."

NEW-ORLEANS: TUESDAY MORNING, JAN. 24, 1832.

FOR GOVERNOR:
E. DAWSON.

The mail via Mobile was received yesterday. It was made up in the usual time, but furnished no papers later than Natchez, Mississippi.

The Tennessee and *Lexington* had arrived at Memphis, the former loaded to the guards, and the other five feet by the stern. Another boat had passed up, name not mentioned. It is supposed that this port about the same time with the J. and L. with a load of six feet by the stern draught.

CITY COURCIL.

Monday, Wednesday Evening, January 23rd, 1832.

The Board met. Present, the Recorder, Capon, Labatut, Lea, Claiborne, Kendrick, Lapice, Culbertson, Bloss, and Lewis.

The mayor laid before the Board, dated the 23rd, requesting the members to proceed to appoint a notary for the corporation, and recommended Fitz De Armas, Esq.

On a motion of Mr. Canon the members proceeded to elect a notary by ballot, when Felix De Armas, Esq. was unanimously elected.

The mayor communicated the request of the city treasurer, that the proceeds from the farming out of the markets, public buildings, for the present year, be appropriated to defray the expenses of the city government. The mayor further stated that the subject proposed by the treasurer's letter, on the 16th inst., respecting the public promenades, where rents are collected, had been taken into consideration, but finds it impracticable to act upon it at present.

A petition was received from several members of the Roman Catholic Church, residing in Faubourg St. Marie, praying for the privilege to erect a temporary place of worship, of wood, on Camp street, until a building of brick is erected suitable for the purpose.

On motion of Mr. Baldwin; it was resolved, that $5000 or such amount as may be required, be appropriated from the treasury of the city treasurer, for defraying the expenses incurred by the Corporation, during the prevalence of the cholera in this city.

Mr. Canon moved that all public dinners for the mayor, and aldermen of the city of New Orleans, be paid for out of their own funds, and that such dinners take place on Saturday, &c.

On motion of Mr Lallande the resolution was laid on the table; and on motion the day for such dinners to take place was altered from Sunday, to Saturday.

On motion the council adjourned.

Appointments made by the Governor, with the advice and consent of the Senate:

Kirkland, justice of the peace for Livingston; M. Newsom, do, for St Helena; Charles May, Granger for the city of New Orleans.

Mississippi Legislature.—This body assembled at Jackson on the 9th inst. Both houses were organized. Judge Lynch was elected president of the senate, and David Pemble speaker of the house. Gov. Scott's message is a very good document, and treats mostly of home matters. Nothing is said of nullification, or the proceedings of South Carolina. He recommends the extension of the planters bank, and several alterations in its charter; among which is that of giving to the stockholders the majority of directors, and of depriving each stockholder of a vote for every share held by him, making a more judicious apportionment of the voting privilege.

He states that the balance in the treasury on the 1st of January was $14 850 47.

He recommends the sale of the lots in the town of Jackson, and the extension of the laws of the state over the Indian territory recently ceded, &c.

Among the accompanying documents was one from the Legislature of Louisiana, requesting of this state the extension of the time of redemption before sale to sell year, of reclamays from this state—another from Tennessee, respecting the settlement of the boundary question between the two states—and another from Louisiana, on the subject of establishing a rail road from Washington city to New Orleans.

They have not got fairly to business yet. In all probability this will be a long and, sickness session.

Right of Secession.—A writer in the Boston Commercial Gazette, in endeavouring to prove from a reference to the proceedings in Virginia, at the time of the adoption of the Federal Constitution by that state, it expressly reserved to itself the right to secede from the Union, whenever the general government should plainly and palpably violate the Constitution, and that all other means of redress failed; and that the resolutions adopted by the state in 1798, were founded upon this construction these made. It is to those resolutions that the Governor of South Carolina refers to justify the course which that state has pursued, and to sustain the right of any state to secede at pleasure. But if this statement of the Boston writer be correct, although it might justify Virginia in exercising that ground, it is not so clear that South Carolina has the same right, not having reserved it at the time of the adoption of the Constitution. But as the question of the right of a state to exercise the right of secession is not necessarily at present, connected with that of nullification, it is not now necessary, we think, to discuss the subject.—*Journal.*

Post Master General.—We observe several of the Pennsylvania papers are continues to intimate that in the case of the promotion of Mr. Barry, the appointment of Post Master General will be conferred on Gen. Simon Cameron, of that state. Not very likely. Though we should think gen. Simon Cameron might acquit himself of the duties of the office in a manner quite as satisfactory to the public, as the present incumbent.—*Baltimore Patriot.*

The Anthracite Oil.—An oil was discovered not long since near Burkesville, Kentucky, which is said to possess Medicinal Virtues. It was found by accident, two hundred feet below the surface of the earth, by some persons who were engaged in excavating through a solid rock. The success which has attended this oil, when used to effect the cure of certain diseases, is very great. It is reported to be a sure remedy for the following diseases:

Rheumatism, Colic, Burns, Scalds, Fresh Cuts, Ulcers, Pains, Bruises, Weak and Sore Eyes, Cancer, Consumption, Chilled Colic, Cough, Liver Complaint, Phthisic, Scald Head, Ringworm, out on the head, Tetter Worm, Dropsy, Barber's Cripples, Sore Achey-Deafness, Worms, Shingles, Sore Throat, &c.

Also for the cure of the following diseases in horses: Botts; Chronic Cough, Sore Back, Putrefying Sores, Weak Eyes, Fistula in Spine, Wounds, &c. &c.

Mob. Journal.

ST. LOUIS, Dec. 11.

The farmers in Illinois are adopting one of the surest means of enriching themselves by engaging very extensively in the cultivation of wheat. In the counties of Bonaparte and Morgan alone, we have been told that the produce of the next crop, should no blight fall upon it, will be nearly equal to forty millions of bushels. It is no uncommon thing, in that fertile and enterprising section of the state, to see fields of from three to six hundred acres, sown altogether with wheat. This increased production must conduce

LOUISIANA LEGISLATURE.
ELEVENTH LEGISLATURE—FIRST SESSION.

JOURNAL OF THE HOUSE OF REPRESENTATIVES.

FRIDAY, January 20, 1832.

The House met agreeably to journment.

Mr. Hoe, chairman of the committee of commerce and agriculture, to whom was referred the petition of the Flour Inspectors, begs leave to report, presenting the following bill "An act to amend the law relative to the inspection of flour in the state of Louisiana," which was read for the first time, and ordered for a second reading on to-morrow.

Mr. Robin, chairman of the committee on internal improvements, made the following report and resolutions:

The standing committee on Canal Improvements, appointed to take into consideration, several purposes in their attributions, respectfully

REPORT:

That they have, at first called their attention, on that part of the Governor's message relative to the new mode of improvements, which cannot be considered as a complete one, as long as we shall be deprived of the means of effecting works of general utility and as long as a prudent course shall not be adopted: convinced with these facts, your committee, after a serious deliberation, have not hesitated to concur in the opinion, that the plan recommended by the Governor, and followed successfully by several states of the Union, ought to be adopted, as offering the greatest advantages. This opinion has been that of the committee of internal improvements, appointed by the Senate, who have already submitted debate, a bill to authorise the forming of a committee, and the raising of a fund, for the internal improvements, and which, before long, your committee do hope, will be transmitted to your Honorable Assembly.

Since the opening of the accession, several resolutions have been introduced, requiring from your committee to take into consideration certain purposes of internal improvements, such as the opening the navigation of rivers and bayous, the surveys and openings of public roads in several parts of the state—many letters advising similar measures, have also been referred them: Your committee cannot entertain any doubt as to the necessity and general utility which should result, if the improvements could be completed; but deprived of necessary information, and being possessed only of uncertain data, they deem themselves bound to abstain from recommending any work or appropriation, especially when they consider that the state now has a Civil Engineer, from whom we have a right to expect detailed reports on all subjects of internal improvements. Under this consideration, your committee are of opinion that it would be expedient that the General Assembly should, at each session, specify the order in which the operations of the Engineer are to be executed what parts of the state are to be explored, and to what points he is to attend successively, in order that, at the following meeting, the General Assembly may be provided with full and entire reports, as to the details and information relative to the works to be executed to facilitate the communication by land and water, and by which, useful and judicious appropriations may be made.

According to the will manifested by the Legislature at the last session, the Civil Engineer was to explore, at first, the Atchafalaya and report on no means of opening that river. The elevation of the waters has prevented him from fulfilling the duty which was enforced upon him; and it is to be feared that he may not from the same cause give, before the fall of the waters, a statement of that river, as well as of the bayous and of other water courses, which are dependent of the Mississippi for their increase. Awaiting a period propitious to these operations, your committee are of opinion, that it would be proper that the works of the Engineer should be directed towards other parts of the state where similar obstacles do not exist.

Under these considerations, your committee recommend the annexed resolutions, respectfully submitted by

[Signed] A. ROBIN, President of the committee.

Received by the Senate and the House of Representatives &c. That it shall be the duty of the Civil Engineer:—

1st: To make the survey of a public road from the city of Baton Rouge, through the river Amite, to the point known under the name of Governor's bluff to the Bayou Hog on the Tickfaw, striking on the mail road from Mobile to Woodville.

2d: To examine the present situation of the river Tickfaw in the Parishes of St: Helena and Livingston, and to point out the surest means of rendering it navigable to the lake Maurepas.

3d: To explore the Bayou Bartholomew, in the parish of Washita, and to point out the means of rendering its navigation safe in going up to the residence of George Amborson.

4th: To reconnoitre the point of the Cut-off in the Parish of Pointe Coupee, and to ascertain whether it would be advantageous to cut said point, and what would be the probable result.

5th: To make a survey of the bayou Grosse Tête, in the Parish of Iberville, and to point out the means to secure the navigation thereof.

6th: To repair—to the opening of the bayou Vermillion in the Parish of [illegible]

And it shall be the duty of the said Engineer at the opening of the next session, to make to the Legislature, a full report, containing a description of the internal improvements which are pointed out to him in the present resolution, and an approximative statement of the expenses which can be occasioned by such improvements.

On motion, *Ordered*, That said report and resolutions accompanying the same be laid on the table, subject to the call of the house.

On motion: *Ordered*, That said report and resolutions be printed.

M. Voorhies, of Avoyelles, chairman of the joint committee appointed to examine into, and report on the State Treasurer's account, made the following report.

The joint committee appointed to examine the accounts and vouchers of the State Treasurer, beg leave to

REPORT:

That, in compliance with the resolution, they have examined with minuteness and attention all the vouchers in support of the accounts presented by that officer, and find them correct, and in conformity to law.

At the time the present Treasurer first came into office, there was due to the state, for arrearages of taxes, including the arrears due by the different Insurance Companies, the sum of $96,600 32, of which sum he has collected and placed in the Treasury $61,222 26, which shows his vigilance in the public service.

The duties of that officer have much increased within a few years, and it seems but an act of justice that some provision should be made to afford him the means of employing an additional clerk, and which is respectfully recommended.

Your committee deem it unnecessary to go into a detailed report of his accounts and vouchers, but refer to his report, and the documents accompanying it, as affording ample information upon the state of the finances: All which is respectfully submitted.

ROBERT C. NICHOLAS, } Reporters.
W. VOORHIES, }

On motion, *Ordered*, That said report be adopted.

A message from the senate by Mr. Davis their secretary; requesting the concurrence of the house in the bill entitled

An act to authorize the payment of a certain sum of money to a certain person; which was read for the first time, and ordered for a second reading on to-morrow.

By the same message from the senate, the house is informed, that the committee of enrollment of the senate, having reported as duly enrolled, the following bill and resolution; the president of the senate had signed the same, to wit:

An act relative to the Supreme Court.

The resolution relative to the relief of disbanded and unfit soldiers of the United States army.

Mr. Hoe, agreeable to previous notice introduced the bill entitled "An act to amend an act entitled An act to organize the City Court of New-Orleans, and for other purposes, approved February 19th, 1825," which was read for the first time, and ordered for a second reading on to-morrow.

Mr. Voorhies, of Avoyelles, moved that the house dispense with its rules, and leave be granted to him to introduce the following resolution:

Resolved, That both branches of the Legislature do meet in the hall of the house of representatives on Monday next, at 2 o'clock P. M. to elect a State Treasurer for the year 1833.

On motion of Mr. Duplessis, the house having dispensed with its rules, proceeded to the second reading:

On motion, *Ordered*, That said resolutions be adopted.

The clerk was directed to request the concurrence of the senate therein.

Mr. Duplessis gave notice that to-morrow or on a future day, he will introduce a bill entitled "An act relative to Jurors serving in the Criminal Court of the First District."

Mr. Bullard, chairman of the committee of propositions and grievances, to whom was referred the petition of Joshua McDaniel, begged leave to present the following bill entitled "An act to grant to Joshua McDaniel the exclusive privilege of keeping a ferry over the bayou Courtableau at the junction of the bayou Teauxdile and Beouf, in the Parish of St. Landry," which was read for the first time, and ordered for a second reading on to-morrow.

Mr. Garland gave notice that to-morrow, or some future day, he will introduce a bill entitled "An act to change the time of holding courts of the Court in the Fifth Judicial District."

ORDER OF THE DAY.

The bill entitled "An act to continue in force 'An act to incorporate the Lafourche Catholics of the Parish of Lafayette.'"

LOUISIANA LEGISLATURE.

JOURNAL OF THE HOUSE OF REPRESENTATIVES.

SATURDAY, January 21, 1832.

The House met agreeably to journment.

The house took up the bill entitled "An act to incorporate the New-Orleans and Carrollton Rail Road Company," which was under consideration when the house adjourned yesterday.

On the adoption of the amendment offered by Mr. Massey, which consists in striking out the following words "inclusive of the labor of loading and unloading the same on and off the wagons of said company." On the adoption of said amendment, Mr. Nicholls called for the yeas and nays, when it appeared that,

Messrs. Bienvenu, Canon, Charpentier, Chauvin, Guillot, Holstein, Legendre, Lecassier, Maddox, Marigny, Mathellen, Patten and Russell, had voted in the affirmative—13 yeas.

And that Messrs. Barrow, Bouligny, Brown, Ballard, Causeaux, Chinn, Dauney, Debuillon, Duplessis, Dupré, Edwards, Forstall, Garland, Grymes, Hoe, Horton, Johnson, Jones, Lagarde, Leonard, McRae, Nicholls, Thibodeaux, Vecrhies of Avoyelles, Walker and Watkins, had voted in the negative—26 nays.

Said amendment was consequently rejected.

During the discussion of said bill,

On motion, the house adjourned until Monday morning.

TO THE PUBLIC.—For 24 years past I have resided in this city and have always been known as a man of honor in my commercial transactions and private life. On Sunday last, about 3 o'clock in the afternoon, 3 men; of the city guard entered my house, visited my room, fastened my hands with ropes, saying I had concealed stolen goods; all my protestation of the contrary were laughed at,—you must go to jail, said they; we will hear nothing. In vain I beseeched them to untie me, saying, I would follow them to the guard house without resistance—my request was doggedly denied—arrived at the guard house, I was thrown in a dungeon where I was left all night until ten o'clock on monday morning, at that hour I was brought before *his honor the Mayor*, to whom I proved that those goods had been bought of Messrs. Wagner, merchants in this city, and at Mr J. Levy's auction sale

I have thought it my duty as a citizen, to signalize the cowardly and wanton conduct of those city guards, who without pity for my innocence, without respect for my age,
