NITROUS OXIDE GAS.—DR. B. COULT, respectfully inform the ladies and gentlemen of New Orleans, that he will administer the Nitrous Oxide or Spontaneous Gas, every evening, commencing on Sunday evening next, 20th instant, at the ball room corner of Orleans and Bourbon streets. Open every evening at 7 o'clock, precisely, to commence at half past 7 o'clock, precisely.

The principal effects of this singular compound upon the animal system was first noticed by the celebrated English chemist, Sir Humphry Davy. He observed that when inhaled into the lungs, it produces the most astonishing effects upon the nervous system; that some individuals were disposed to laugh, sing and dance, others contumacious and declamatory; and that others again either had an irresistible propensity to such exercises, such as wrestling, boxing, etc., with unnumbered fantastic feats. In short, the effects produced by it are highly pleasurable, and are not followed by debility.

Dr. C. being a practical chemist, no fears need be entertained of introducing an Impure Gas; as he is willing to submit his preparation to the inspection of any scientific gentleman.

Dr. C. has exhibited the extraordinary powers of the Gas in the cities of the United States, to audience composed of ladies and gentlemen, of the first responsibility—and many ladies have dedicated the Gas at select exhibitions. These noble ladies—many instances of wisdom and instruction in this place, may be assured that in shadow of instruction the exhibition will be the most modest.

Tickets 50 cents children 25, to be had at Bishop's, in

at, and at the door, on the evenings of exhibition, as \$3.

Other street. Mr. Fins, respectfully informs

the public, that he will exhibit for a short time, his curious and interesting ART; and can assure those who are disposed to encourage the fine art, that the exhibition will be found worthy of their attention. The process of spinning, is so wondrously curious, as to fill the beholder with astonishment, and must be witnessed, in order to decide on its merits, as we can describe, can afford an adequate idea of the artist.

The various productions of the artist, which are rare and exquisite in their construction, are for sale, and well adapted as presents for a fair hand. Admission 50 cents—children half price. Seats 5 tickets, (not transferable) \$1. Open from 10 A.M. till 5 P.M. and from 3 to 11 at night.
