No advertisement from the country will be received unless it can be in this city be designated, to whom application can be regularly made for payment.

Letters sent in all cases be post paid.

## Announcements:

**NUITROUS OXIDE GAS.** DIL. S. COULT.

N is respectfully informs the ladies and gentlemen of New Orleans; that he will administer the Nitroous Oxide or笑气 at every evening, commencing on Saturday evening next, 18th instant, at the ball room, corner of Orleans and Bourbon streets, Doors open at 8 o'clock, and the exhibition to commence at half past 7 o'clock precisely.

The first part of the apparatus was first noticed by the celebrated English chemist, Sir Humphry Davy. He observed that when introduced into the lungs, it produces the most astonishing effects; it relaxes the nerves, so that some individuals were disposed to laugh, sing and dance; others to recitation and declamation; and that the greatest number, were disposed to talk, and sing songs, and that it was a delightful exercise, with infinite pleasure, such as is not equalled by debility.

Dr. C. being a practical chemist, no fears need be entertained of introducing an impure Gas; as he is willing to submit his preparations to the inspection of any sensible gentleman.

Dr. C. has exhibited the extraordinary powers of the Gas in many of the cities of the United States, to audiences some

of the most distinguished and gentlemen of the first respectability— and it is now intended to introduce the Gas at select exhibitions.

Those ladies who may be anxious of witnessing the exhibition in this place, may be assured that not a shadow of impropriety attends the exhibition to shock the modesty of our

ladies, or to offend children, so as to have a child's

hand, &c. at the door, on the eveing of exhibition.

**EXHIBITION OF FINE ART.**

**ART OF FANCY BLOOMING & SPINNING.**

**EXHIBITION** room, corner of Canal street, Entrance

Exhibit. Dr. C. has respectfully informed the public, that he will exhibit for a short time, his curious and interesting A.R.T.; and can assure those who are desirous to encourage the fine arts, that the exhibition will be found worthy of their attention. The process of modelling figures of animals, &c., from glass, in a state of fusion, is so wonderfully curious, as to fill the minds of even the most ignorant; others, to amaze, and delight; and children, to admiration; and must be witnessed, in order to do justice to its merits, as no description can afford an adequate idea of the pleasure it gives. The works of the artist, are of various sizes, and well adapted, for presents or a fair hand. Admission 50 cents—children half price. Session ticket, [not transferable] \$1. Open from 10 A.M. till 5 P.M. and from 3 to 9 at night.
