SURGEON DENTIST, from New York.

RESPECTFULLY informs the Ladies and Gentlemen of New Orleans, and its vicinity, that he has taken rooms at Mrs Fox's, No. 147 Chartres street, where he performs any operation on the teeth and Gums in a style not surpassed.

NATURAL and ARTIFICIAL TEETH set in the best manner, and at the most reasonable charges. Also, PORCELAIN TEETH, from a single one to a whole set.

On the first appearance of Tartar or Scurvy, Teeth should always be cleansed, as the corrosion of the Tartar will in a short time reach the roots of the teeth, and they will eventually fall out; and by attending to them in season they may be restored, at a trifling expense, to their original beauty.

The operation of plugging and filing the Teeth when decayed; is so truly important that it is impossible to recommend it too eagerly to the attention of the public. Thousands of the most useful Teeth, which otherwise would, on account of their painfulness, be sacrificed by extraction, may thus be preserved for many years.

From a practice of Dental Surgery for more than twenty years, he hopes to merit a continuance of public patronage. The most difficult Teeth and Gums extracted.

The most celebrated Tooth Powder and Tooth brushes may be had.

N. B. He will attend at the dwelling of those Ladies and Gentlemen who request it.

THE subscriber being about to leave for France offers for sale the following properties, viz:

A PLANTATION consisting of 480 arpents, situated on the bog Falaya (which empties in the Tchefunte) at about 3 miles from Covington: there is good ground enough to raise all the provisions necessary for the living of the slaves and cattle of the plantation, such as rice, corn and hay, the remainder is of pine wood.

On this land is a fine water mill with two saws, built on the bog Falaya, which mill has just been put on a new system; the improvements are a vast and convenient dwelling house; one do. for the overseer; a store, stables, negro cabins; 2 carts; 10 yokes of oxen; carts, &c. &c.; in short the habitation is well provided and every thing in the best condition.

It is the most pleasant situation on the other side of the Lake; the river turns at 30 feet from the house and there is besides a source which furnishes continually a limpid and delicious water—game in plenty; the air is pure and salubrious; the cholera or yellow fever never visited this spot, which is really delicious in summer; so all those advantages are to be added those which may be derived from the revenue; the property if well conducted can with 10 or 12 negroes yield $10,000 a year; not only there are many pine trees on the ground belonging to it, but it is bounded by immense tracts of public land.

ANOTHER PLANTATION, situated about two miles higher, adjoining the same land and on one of the branches of the small bog Falaya, which empties in the above mentioned small bog
