THE BEE

NO. 458. STATE PAPER. THURSDAY MORNING, JUNE 5, 1834. VOL. VI.

OFFICE OF THE LEHIGH COAL AND NAVIGATION COMPANY,
Philadelphia, January 15, 1834.

I AM directed by the Managers of this Company to communicate to their friends and customers abroad, the terms and conditions upon which they propose, during the shipping season of the present year, to deliver their coal by the cargo, on board of vessels, at the Company's wharves on the Delaware, either in Philadelphia or at Bristol above the city, as may be most convenient for the Company when vessels shall apply for loading.

Price for any quantity not less than 50 tons and 1,000 tons, $5.00 for hard coal, and $4.50 for soft coal, per ton of 2,240 lbs; 1000 tons and upwards, $4.75 for hard, and $4.25 for soft.

At the above named prices the coal will be carefully raked before shipment, but if taken unraked from the boat, as it comes from the mines, the price will be 25 cts. per ton less.

For any quantity not exceeding 100 tons, payment to be made on the 1st November, 1834; above that quantity, one half on the first November, 1834; the other half on the 1st January, 1835.

The character of the Lehigh coal is so well known, that it is not deemed necessary to subjoin any recommendation of its quality. It is sufficient to state, that for parlor grates, stoves and culinary uses, no coal is more generally approved in this place; while as fuel for steam engines, for malting, heating brewers' and dyers' coppers, nail-works, foundries and rolling and slitting mill, it has decidedly the preference on account of its greater durability and cleanliness, to the extent of more than two thirds of the aggregate consumption of anthracite coal for those purposes in Philadelphia and its vicinity.

The Lehigh soft coal ignites more easily and burns more freely than the hard—and on that account is preferred by many consumers.

In case vessels are to take in at Bristol, they will be towed up there in from two to three hours, by the Company's steamboats, without expense to the Captains or owners, and when loaded will be towed down the same way, also free of charge.

Every exertion will be made to give vessels the utmost possible despatch.

It is to be understood that they must take their regular turn to load—and no claim for demurrage should they wait for their turn, or claim for any other cause beyond the Company's control can be allowed. The Managers, however, believe that the facilities possessed by the Company this year, will enable them to conduct their business with increased regularity and despatch.

No advantage of credit being gained by delay, it is respectfully suggested that orders should be sent early in the season, when freights and insurances are generally obtained on the best terms.

With every disposition to accommodate their correspondents, the Managers will use their best endeavors, as heretofore, to procure vessels, when so requested, on the lowest terms, but they would recommend that their customers should engage vessels for themselves whenever practicable.

The Managers have further directed me to say that, should they make any reduction this year from the prices for the export trade, named in this circular, persons giving previous orders shall receive the benefit of such reduction; at the same time, the Managers do not preclude themselves from advancing the price with the advance of the season, should they deem it expedient; but orders accepted will not be subject to any advance.

Yours, with respect,
OTIS ALLMIDOR, Treasurer.

J. R. PUTNAM, DENTIST,

RESPECTFULLY informs the public that he has removed to the house recently occupied by Dr. Ker, at the corner of Canal and Royal streets, over the Post Office, (entrance No 6, Royal street,) where he may be found from 9 o'clock, A. M. until 5 P. M., ready to attend to the duties of his profession, and where he invites those who wish to employ or consult him to call, as it is impossible for him to leave his rooms during those hours, except in cases of indisposition. He has rooms for the accommodation of his visiters, separate and distinct from his family apartments, where they can be entirely private during the performance of an operation, or whilst waiting for his services, should he be at the time engaged. His charges will be such as are sanctioned by the usages of his profession and will not be deviated from except for persons of limited means, or where families are to be attended to, then a reasonable deduction will be made. As he has no assistant in his business, and as it is expected that he will be found always in his rooms, it must be obvious to all, that it is impossible for him to keep books and attend personally to the collection of his bills; he therefore respectfully solicits those who receive his services to make settlement at the time, or attend to it as soon as convenient to themselves, as he has given offence to some by presenting his accounts through another person employed for that purpose. It is expected that punctuality will be strictly observed where positive engagements are made, or an excuse furnished in time, as a neglect to do this may subject others who have made engagements to disappointment and him to loss and inconvenience. Those indebted for services rendered during the last season, will oblige him by calling and paying their bills.

TO SUGAR PLANTERS.

THE subscriber offers for sale a great apparatus to bake sugar by steam; it can bake with the steam only from ten to twelve hogsheads of sugar in a twenty four hours; it is constructed on a system, that in France after twelve years expriments has been preferred. From the results obtained in Europe by the application of steam to the fabrication of sugar, could easily be derived the hope of great advantages likely to accrue from applying the same to the fabrication of the Louisiana sugar. In the last crop on one of Messrs Morgan's plantations, the sugar baked by the apparatus prepared to this effect, leaves no doubt on the subject. This apparatus constructed just complete the baking of molasses, to make cistern sugar has however so greatly improved the produce, that this sugar was sold 9 cents. The beauty of the sugar obtained from the apparatus in France, exactly of the same kind as this which is put up to sale, does not allow us to doubt, that the sugar baked by it, will be in the least inferior to that obtained by the same apparatus in the above mentioned plantations.

This apparatus will then augment the value of the crop from 75 to 100 per cent, as much from the increase of the crystallized produce, as from its beauty, it can be set up again without the least derangement on the former premises in the plantation, so that no delay be apprehended for the crop.

Terms of sale: Payable after the success of the apparatus in notes for the end of March 1834,

This apparatus would equally suit a sugar baker establishment; it is sufficient for the baking of more than 60 hogsheads in a day.

N RILLIEUX,
No 72, Camp st opposite the Theatre.

There are also to be found with the same, coppers to complete the baking of the sugar by the steam, very superior in every respect to buscale coppers. may 27

PASS CHRISTIAN HOTEL.

THE Subscriber begs leave to inform his friends and the public, that his establishment is rapidly progressing, and will be ready for the reception the visitors on the 1st of June next, at which period he will be enabled to accommodate from 30 to 40 boarders—and towards the 1st of July next, when his main building will be completed—from one hundred to two hundred.

To those who are acquainted with the beautiful location of this establishment, it would be superfluous to say any thing in its favor; but for the information of the public in general, the subscriber conceives it necessary to make known its manifold advantages.

Pass Christian is situated about 50 miles from New Orleans, on Lake Bourgne, nearly opposite the Bay of St. Louis, immediately on the sea shore—the land is 12 to 15 feet above the level of high water mark, which, added to the pure atmosphere, renders it one of the most healthy places in the world; and in fact, from its peculiar situation, it is impossible that an epidemic disease should ever exist there.

The fish is abundant, and of every description—game plentiful—and within a quarter of a mile from the house is an extensive oyster bank, of which it is the subscriber's intention, at all times, to have an unlimited supply. The very best provisions, wines and liquors, will be amply provided, and the subscriber will neglect nothing which may add to the comfort and recreation of those who may favor him with their patronage.

To further these views, bath houses have been erected, and sail boats, perogues, horses, a seine, cast nets, &c. have been provided. A piano forte will also be provided for the use of ladies.

Families can have commodious apartments in separate buildings.

Terms will be moderate.

The mail boats on their way to and from Mobile stop daily at the pass to wood; besides which, there are three other boats which will run all the summer, so that there will be a daily and never-failing communication with the city. The time of crossing does not exceed six or seven hours.

The Mail boats leave the rail road every day at 2 o'clock and will land passengers on the spot where an extensive wharf is now building. m 23 GEORGE LEVY.
