TO THE PUBLIC.
THE Rocking and Ventillating Bedstead, or crib with a fan-tester.
The subscriber having obtained a patent for the beautiful and useful article of domestic comfort, begs leave to call the attention of the public to it, confident that it only remains to be seen to be patronized and generally used. It combines the unequal advantages of a common stationary or rocking bedstead or crib for children, and of ventillation by means of a fan-tester.
The advantages to be gained by this precious ventilation, combined with a healthy action to the recumbent mind and body, are too obvious to require any further comment. They have long been recommended by physicians of great eminence—and combine economy, elegance and comfort. GIDEON VAUGHAN Jr.
The above named article is to be seen in the hall of the second story of the Exchange.

TO SUGAR PLANTERS.
THE subscriber offers for sale a great apparatus to bake sugar by steam; it can bake with the steam only from ten to twelve hogsheads of sugar in twenty four hours; it is constructed on a system that in France after twelve years expriments has been preferred. From the results obtained in Europe by the application of steam to the fabrication of sugar, could easily be derived the hope of great advantages likely to accrue from applying the same to the fabrication of the Louisiana sugar. In the last crop on one of Messrs Morgan's plantations, the sugar baked by the apparatus prepared to this effect, leaves no doubt on the subject. This apparatus constructed just complete the taking of molasses, to make cistern sugar has however so greatly improved the produce, that this sugar was sold 9 cents. The beauty of the sugar obtained from the apparatus in France, exactly of the same kind as this which is put up to sale, does not allow us to doubt, that the sugar baked by it, will be in the least inferior to that obtained by the same apparatus in the above mentioned plantation.
This apparatus will then augment the value of the crop from 75 to 100 per cent, as much from the increase of the crystallized produce, as from its beauty, it can be set up again without the least derangement on the former premises in the plantation, so that no delay be apprehended for the crop.
Terms of sale: Payable after the success of the apparatus in notes for the end of March 1834.
This apparatus would equally suit a sugar baker establishment, it is sufficient for the baking of more than 60 hogsheads in a day. N RILLIEUX.
No 72, Camp st opposite the Theatre.
There are also to be found with the same, coppers to complete the baking of the sugar by the steam, very superior in every respect to buscule coppers. may 27
