J. R. PUTNAM, DENTIST,

RESPECTFULLY informs the public that he has removed to the house recently occupied by Dr. Ker, at the corner of Canal and Royal streets, over the Post Office, (entrance No. 6, Royal street,) where he may be found from 9 o'clock, A. M. until 5 P. M., ready to attend to the duties of his profession, and where he invites those who wish to employ or consult him to call, as it is impossible for him to leave his rooms during those hours, except in cases of indisposition. He has rooms for the accommodation of his visiters, separate and distinct from his family apartments, where they can be entirely private during the performance of an operation, or whilst waiting for his services; should he be at the time engaged. His charges will be such as are sanctioned by the usages of his profession and will not be deviated from except for persons of limited means, or where families are to be attended to, then a reasonable deduction will be made. As he has no assistant in his business; and as it is expected that he will be found always in his rooms, it must be obvious to all, that it is impossible for him to keep books and attend personally to the collection of his bills, he therefore respectfully solicits those who receive his services to make settlement at the time, or attend to it as soon as convenient to themselves, as he has given offense to some by presenting his accounts through another person employed for that purpose. It is expected that punctuality will be strictly observed where positive engagements are made, or an excuse furnished in time, as a neglect to do this may subject others who have made engagements to disappointment and him to loss and inconvenience. Those indebted for services rendered during the last season, will oblige him by calling and paying them.

TO THE PUBLIC.

THE Rocking and Ventilating Bedstead, or crib with a fan-tester.

The subscriber having obtained a patent for this beautiful and useful article of domestic comfort, takes leave to call the attention of the public to it, confident that it only remains to be seen to be patronized and generally used. It combines the unusual advantages of a common stationary or rocking bedstead or crib for children, and of ventilation by means of a fan-tester.

The advantages to be gained by efficacious ventilation, combined with the easy action of the recumbent, needs no comment. They have long been recommended by physicians of great eminence—and combine economy, elegance and comfort.
