## THE ELECTIONS.

Two apparently two elections have taken place, and were caused by the death of two representatives in the same state. In Jefferson county, a river country, where slaves are strongest, and from which the deceased was removed before the removal of the deceased, a democrat has been elected. Great excitement and a very popular candidate was run up to the last.

In Cahaba, a zealous friend of the

Democrats, who has been chosen.

Now the contest has been principally between old and new. The opposition has that the latter is a majority using two hundred and fifty votes, while they have secured a large majority of the members.

We feel no surprise at this result. While

we are at present we have no hopes from the ex-

ists.

The other seems the work goes bravely on; the elec-

tions will be set up to the 15th of this month.

Returning from five counties electing fifteen members, fourteen were sent for the administration, and one against it.

A warm friend to the good cause has been

re-elected in congress in the place of a political opponent. Our

friends sanguine as to the result of the election and

the hope of the return of Brown to the senate and

of M'Gowen.

Now in Indiana we have only returns from the river coun-

ties, where the strength of the bank lies. The opposi-

tion has set up the shout of victory, but we guess they

and their calculations a little too premature. Let

us remember the New-York municipal election and

its lesson.

The King will have it that Tennessee has proved re-

ady to her immortal soul. Has he read the letter from

the author of the convention of that state now sitting at

Nashville, to the general, welcoming him home?

An independent signed "many citizens," (says the

New-York Patriot) calls on the Legislature to impose a

tax on shipping on vessels arriving from New-York and

New-Orleans. He will perceive that no such tax can be

given by the Port Physician, that vessel's coming

from the former port will be subjected to quarantine.

With the Asiatic cholera exists in New Orleans to such

an extent as would justify the imposition of quarantine it is

left to proper authorities to decide."

We can see the propriety of such a measure in con-

sideration of the. There is not a solitary case of cholera or

any other epidemic existing among us, nor less here than

for the last four months.—Ed. Bee.

ROGER B. TANNEY.

We understand that this distinguished gentleman is the

Herman Catholic who was ever nominated to a seat in

the Senate—and the first and only cabinet officer who has

been rejected by the Senate.

Admiral Corwin has recently at least one hundred pounds

stamped per annum to the already liberal endowment of

schools established by him at Nantucket—to be distributed

each year to the ten best and most deserving pupils of each

such school and the females, in equal share.

MAINE ELECTION.

It is well known to many of our citizens that the bank par-

ty have raised a large sum of money in the city,

their partisans to which had been contributed,

and operate upon the same, to make the farmers and

merchants, by all sorts of means, misrepresentations,

and representations, to put in the bank yoke.

Thirteen thousand dollars raised among our distressed citizens,

and employed as a subject of interest and to our mis-

eries of business.

It is a fact proved by hundreds of instances,

that all new beginners in our country, and so

far, purchase their yoke in this market, and so

on, and when they can command five thousand

and seven, when they can command twenty thousand

and seven, and when they can command five thousand
