By the latest news from Connecticut the majority against is is ascertained to be 187! In 1834 we were defeated by 6,500. So that in two years we have gained more than eix sousand roles to the demogratic souse. The opposition pretend to account for the change by saying that they were caught napping. This is not time. They used tremendous exercions, and one thousand more rotes were polled than in 1832. The truth in that Connecticat is completely revolution nined, and is at this moment thoroughly de had, and in at this moment increasing established the
