"THE UNION must be preserved," WEDVESDAY MORNING, JULY 8, 1886. orn mail of yesterday brought journals from New

York of the 234 ults and from Charleston of the 29th-with porresponding dates from other places.
The U. S. frigate Constitution had arrived in New York ing dates from other places. the 22d from My mouth (Eng.) whence she left, May 16th, having on board the Hon. Edward Livingston and family

An express was immediately sent to Warhington. The Yande is has gone to the bay of Campeachy, where or merch ma will welcome her. The St Louis and Palmouth had arrived at Pensaccia after cruixing in the West

Indian eces. A general navel court martial is in session at Baltim praposed of Commodores Warrington, Biddle, Ridgely owns, Cassin, Dallas, and Captains Jones and Morgan.he trial of Captain Read will diortly occur.

Judge Marshall is in Philadelphia, so much indispose at it is frared he cannot resume his judicial functions. Col. Buller, charge d'affaires of the U. States to Mexico as esturned to this country on leave of absence: and report flavorably of the amicalde relations between the Mexican and

Benjamin F. Butler, U. S. attorney general, has no se principal professorship of law in the university of New ork-his duties to commence, March 1837.

Sever: I fires had occurred in New York and Phil idelphia at an extensive one happened in Richmond, Va, which estroyed Trinity Church, belonging to the Methodist episopstans, and coveral adjoining buildings. The edifice cost pects was about \$50,000.

The North Carolina convention has decided on having 50 rescherate the senate of that state: and 120 in the house of on mont. North Carolina is the oily state retaining this enmusis and that the state governor will be elected by the enple, not the legislature. The New York Journal of Commerce asserts that slave

hims are fitted out in that city. Patent rice mills are built, and in successful operation is Charleston, S. C.

Washington Irving receives from his publisher in Regland 689 pounds sterling (\$2664-64) for each volume or number of his Crayon Miscellanies; and permission to publish it imultaneously in this country.

The steamhoat George Collier intended to ply between S Locis and this city is 185 feet by 52; and can accommedate fully, your friend and fellow-citizen. 150 cabin passengers. Her engine is 250 horse powers and her cost about \$35,000-

The cholera exists in various parts of the Ohio Indiana, Ilknois and Missouri. There were no further arrivals from Europe on the 23d or June in New York: 100 shares of our City Bank were sold at

110 1 2; and 200 of the Commercial at 108 1.2. We publish today from the Richmond Baquirer, the an swer of Coloxel Johnson to the committee of the Baltim con vention.

COL JOHNSON'S LETTER,

May 23, 1835.

Sir—A Convention of Republican delegates from various parts of the Union, for the purpose of selecting suitable one diddress for the offices of president and vicetreesdent, assembled at Baltimore on the 20th instant, and agreed to present to their demarty, your name for that of vicepresident of the United States. We have been requested to communicate to you this necessaries, and set your acceptance of the same. We take pleasure in performing this duty, and respectfully solicit at answer at such time as may suit your convenience to a vicepine. to give one. 4
With dentiments of high estoem and respect we have the

lents of the National Convention. To Richard M Johnson Erq. of Kentucky. Greet Crossings, 9th June 1835.

ionflores.—I have had the bonor to receive your letter friming me that I have been nominated by the recent subligin Convention at Baltimore, as a-candidate for the e expression of confidence from the Republican par-

For tase experience, or confidence from the Kepublican par-ty of the Union, I have not tanguage to express my grati-tude. For the explicit intents, pure character and sound principles of the goutleman, who-e name was brought in competition with mins, no man ean have a higher respect then myself; and had be been preferred by the convention, it whald afforded me the highest pleasure to give him my confidences. then myself; and had be been preserved by the many it whild afforded me the highest pleasure to give him my cordial support. To my great age and longer public services and nest the superior qualifications, can I attribute the preference of the convention; and if any injury should accrue to the region assess from that preference, no man will deplete at shore than myself. As however the conventions were undoubtedly better qualified to judge on that point than one or a few individuals possibly can be. I have but to accept the of iron instead of Cunid's trumphal or a few individuals possibly can be. I have but to accept the officer, and their hands revealed with boile of iron instead of Cunid's trumphal to the property.

The statificaplere it more than myself. As however the convention were undoubtedly better qualified to judge on that point than one or a few individuals possibly on be. I have but to accept the professed nomination, and reign myself to the will of the people, so it may be expressed at the polls. The gratification I feel at the honor done me is not unmingled with regret—regret, prising not from the preference of another by a person of the dwavention, but from the error under which they appear to have labored in relation to my political principles. I do not know myself, if my principles do not accept with ghose of Thomas Jedorson the partiarch of republicanism and his disciples who constituted the late convention. During almost the whole period comprised in the administrations of Jederson, Madison and Monroe, I was a member of Congress and gree them my cordial support.—
From the extriest moment, I uniformly acted with the republican party founded on the principles asserted by Virginia in 1796, and never withheld my support on any occasion, from either of the distinguished men, who in succession became the representatives of these principles at the head of

summer of Cogness and green them my cordal reproducts proposed and while on such that one sight in 1788, and reverse them my cordal reproducts and while on such that one sight in 1788, and reverse whiled summer asserted by driving and state of the second of the second

cerely been done through the state banks, nave in my opinion, proved that a melional institution is as unnecessary as it is unasfe and uncenstitutional.

In relation to the terrifi, my view appear also not to learn the condition to the terrifi, my view appear also and instance and the provided and the provided

as acceptly has, a trust, sees samicipat to enter my occurring mes to understand my principles and my motives of action.—
I believe no man will charge me with dereliction of duty to, wards my counity or my counitymen. Is devotion to my counity, on one will say that I have been wanting; an I I rust that mine has not been "a faith without works." My consti tuents have never charged me with neglect of their interests, collectively or individually; and, so an American cittaen, complaining of wrong, and asking the aid of a friend, wherever complaining of wrong, and asking the aid of a friend, wherever residing, or however peor, unknows and humble, it have no ver turned a deaf car, or refused in labour for him, as for a brother. To the feithfulness, and these exertions to be seefall, more than to any extraordinary qualifications in my, do I attribute the henor which the convocution have done one; and should the people respond favorably to the recommendation of that body, my highest political ambrison will be more than satusfied. I will be a confirmation, by the voice of my whole country, of the repeated proofs of approbation, given by the people of my own state, its the will-meant labors of a hife derivated to the service of the minum.

people of my awa state, to the well-meant labors of a life de-voted to the service of the parion.

But, whatever may be the fate of the recommendation which I have received from the Eind partiality of the members of the convention, coming from almost every state of the union, as the representatives of the democratic party, with which it has been my pride to act, throughout my public carrer, I shall have their haid to be more described to recombe tunner a described. ever cherish with the most affectionate recul some of the obligation they have conferred.
You will please, gratiemen, to accept the

You will please, gentlemen, to accept the assurance of my high respect and consideration, while I remain most respect-R M JOHNSON.

A celebrated anangeuse at Paris, who was of a faux pas on the stage, has committed one off,—which has given rice to a duel, in which the suspected paramour, Mone, de Mars (an excellent name) an editor inflicted a sabre whund on the Count d'Osmonde, friend of the injured gen-

The guillotine has been introduced among modern improvements, by the French into Algiers. Two mulciactors, native Arabs Ben Monkter and Gilel, went through the operation with a sang froid not unworthy of a disciple of Murat Mouktar's last words with true Turkish devotion were as follows—! There is no God but God, and Mahomet is his rescaled:

The London Times of May 12th says:

A great number of letters arrived yesterday morning at the general postoffice than perhaps ever was known. Hesides the ordinary foreign mails, others were received from the Brazile and Mexico, also from Jamaica, the Leeward Islands and America, and an immonee number of ships letters from all parts of the world. The delivery of the letters was conequently unavoidably later than usual.

The eccentric half crazy genius Haydon the painter, ad-dustees a note to east of the London editors, to know why dasses a mote to east of the London editors, to know why Bir Martin Shee siways paints his figures on tiptoe. Shee nust be food of dancing.

A lady of Bordeaux after finding all other remedies has been cured of gastrodynia, by taking consocutively ful-minating capsules. The Tribune at Paris has been seized for the 112th time, and

finally given up the ghost. The last sergure was owing to a libel on the Duka Decazis. Since 1831 in fines have amounted to 192,493 france, and the sonteness of imprisonment against its editors 49 years! A newspaper, advocating the same principles, is to be established, to be called the Refor-

Palmer a policeman recently acquitted of a charge of in-cendiarism, being reinstated and while on watch one night, suddenly heard the cry of fire, when he ran several miles without stopping, and when overtaken was found in a state of derangement from fright.

the querion. No prudent and patiotic man will, I am provided and patients of the control of the property of the control of the control of the property of the control of the control of the property of the control of the nemed to hid collected a great variety of notes and sum oranda relative to his darling science, which he hastened to verify and illustrate. All his servants were dooker-tootmen, doschman, grooms—a knowledge of scookery. Orleans, who have made purchases at satisfees able qualification for each. He had busides, and establishment of one German, three Italian, and of lating in the property will publish the followed three French cooks. One of these was retained for the sole purservation of a favorite Florentine dish called the patent of land contribing the efforcementational lots. dolve piccasta. A courier was constantly on the road best ween the coast of Britagne and London for the purpose of bringing him partridge's eggs from \$t. Malo—and frequently the cost of two diebes alone amounted to fifty 640 scree, and less consequently Mr Livingston could guinous. His only occupation, in the intervals of sating, obtain no citle to he patent from them, although considerations. guinons. His only occapation, in the intervals of eating, was to count the minutes as they elapsed between his respective meals. His only escollection was his last dig-respective meals. His only escollection was his last dig-respective meals. His only becollection was his last dig-respective meals. In conformity the their would meal, the commissioners proceeded and sord excitons of the patent, as unclaimed land, entil stipped by orders from the General Covereins and twenty thousand pounds sterling! He then became and twenty thousand pounds sterling in the service of the back sterling in the person of the sterling of the sterling sterling. He then became and twenty the sterling sterling in the person of the sterling sterling in the person of the sterling sterling in the ser

desperate chances of the lottery possessed such an ex-citement over him that he sacrificed therein a firtune of upwards of a million. He lived towards the end of the last contury. When he had been lucky, he was in the habit of giving splendid entertainm ents in his gard ne a Islington, and his invitation cards were this inscribed:

To commemorate the smile s of Fortune. This blind worshipper of hexard, to which he had sac rificed his enormous revenues, and by which he was reduced to his last farthing, borrowed two pounds from a friend, bought a share of lottery ticket of course, and was fortunate enough to gain 20,000 storling.

Mr By and by is a still more interesting study. Hope and the future were mania, the hobby of John Robinson of Kendall. To day was never ecusideed by him, leading the staight of it; all his plans and views were fer the morrow By and by was always in his mouth. It was his inten-tion to ride out, to hunt, to look over his accounts, to and his library were for the service of the morrow. He died at Kerdall at the age of 80, and never ceased to look upon himself as a future hunter; a member of par-liament, scholar and magistrate—but he had always put off till to morrow the task of putting his shooting tackle in order, canvas-ing the electors, getting on horseback

A goldenith named Smith, after acquiring a fortune more than half a million, took such a fancy for the pro-fession of begging, that when he retired from business he spent 12 frame in travelling over the kingdom as a men to the ope dicant. He was known in the neigh borhood of London as the man with the dog, as he was a lways accompanied by one of these animals. Having once offended a personal in the state of the peace had him public the state of the peace had him public the state of the peace had him public the state of the peace the state of the state of the peace the state of the state of the peace the state of the on at Mitcham, the justice of the pouce and man publicly whipped as a vagrant—but he never forgave the village of Mitcham this entrage, and when he died he bequeathed a legacy to every other place in the county of Surrey, with the depecial exception of the town where he had been disgracefully flogged.

The commercial papers of the large cities are unusually rich, in these prosperous times, in accounts of auction sales of lands; but a correspondent of the Boston Commercial Gazette, writing from Bangor, Maine describes a sale which best any thing that we have seen or heard of a mie of timber istade in that state belonging to the states of Maine and Massachusetts. It was nitrated by three thousand parents from the different New Yorks. three thousand persons from the different New England states, the auctioner standing at a wind tw of the second story of the Bengor court house. The bidding was very spirited and pices high, some lots selling for nearly 29 dollars per acre.

Modical application of Mineral Magnetism — A new beam oded agent to the form of Mineral Magnetism, is now acciting a great degree of attention amongs; the medical profession, the mode of administration consisting merely in the passing a proverful magnet over the affected parm, in those local or constructional diseases in which it is effications.

From the session of its respectful applications, which have been mad: Income through the medium of "The Lancet," it must unquestionably attain a high rash amongst medical augiliaries. It has been very sucreasfully and automively applied larges. struction is the Beigran forces, and who also copys considerable reputation as an emissor and eclestific practitioner and the results of whose practice are sufficient to establish its officery as a powerful and specific agent in all disease. A Mr Hancock, carriage builder to the Lord Mayor, was by direction of his will, followed to the grave by all his connected with the serveue system. In a recent number of connected with the results of workmen, 40 in number, in black silk gloves and hat bands — after which they returned to the factory, and were regaled upon a sumptuous repast of roast beef, plum pudding, pipes, middle fargiers of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand, in which the whole phalmas of the left hand. medical remedica, morphine, strychaine, pressic soid, the lebelia inflate, and carbonate of troe, to the amount of einter ounces a day, had been employed, but without the slighter influence is diminishing the latence caffering of the patient who, with the expectation of ratiof, had three times applied

entirely free from constitutional objections, and the republican approbation of the administration and the republican approbation of the administration and the republican approbation of the administration and the republican party.

The recent developements of the power of deing mischelf possessed by a national bank, and the uncontrollable tendency to use this power to direct the politics of the country, have satisfied me that no such institution had be telegrated, ender any circumstances. The family permensate in the Regent's perk on Sundays, is not logical promesade in the Regent's perk on Sundays, is not to be equalled in any country in the world. The weather has ceility and success with which the public business has receilly been done through the state banks, have in my opinion, proved that a national institution is as unnecessary as it is unsafe and unconstitutional.

The display in Hyde park. Kansington gardens and the Zootlogical promesade in the Regent's perk on Sundays, is not to be equalled in any country in the world. The weather has set in delightful and the country roung the interpolite perk on Sundays, is not weighted in the Regent's perk on Sundays, is not to be equalled in any country in the world. The weather has set in delightful and the country roung the interpolite perk on Sundays, is not weighted in any country in the world. The weather has set in delightful and the country roung the interpolite perk on Sundays, is not weighted in the Regent's perk on Sundays, is not weighted as a sunday without the beautiful of the beautiful of the beautiful of the beautiful of the sunday of the beautiful of the sunday of the beautiful of the beautiful of the sunday of the beautiful of the beautiful of the beautiful of the sunday of the sunday of the beautiful of
