

To our countrymen... We have been requested to state by Mr. T. K. Pearce, U. S. Navy...

The longlines have returned from the survey of a route for the railroad from Nashville. The cost of the survey is \$20,000.

We have been requested to state by Mr. T. K. Pearce, U. S. Navy, that his father Dr. Pearce is not, and has not been, connected with the American Association in this city.

Courtesy of the present year has been brought to the market from the neighborhood of Baton Rouge.

B. O. TENNEY, Esq.

We hear that the state of Louisiana will lose the electoral services of Mr. Tarran, the member from Concordia...

This is an unusually sad and deeply to be regretted by all intimates of the gentleman, and acquainted with his extensive knowledge of all topics necessary to qualify a statesman or legislator...

Mr. Tenney is a native of Palm Springs, N. H., where he was born in 1796. Having graduated at Dartmouth college in 1819, he commenced his profession as an attorney under the late Mr. Witt in 1822...

We have very little retrospective knowledge of his early career in the senate; but we have heard that he was one of the most determined opponents of the public interest, abstracted as far as possible from those of private life.

The charter of the bank to construct waterworks for New Orleans was on the tapis. Mr. Tenney had early displayed opposition to the provisions of the charter...

But our personal knowledge of his conduct and capabilities as a legislator is confined to his conduct during the last legislature; when he evinced talents of the highest order and unimpeachable rectitude and firmness of opinion.

When discussing the charter of the Orleans Draining Company, he developed his opinion concerning the connection of the state with projects of internal improvement.

There were several bills introduced to effect a change in several articles of the civil code and code of practice. Albeit not partial to innovations—except when they were necessary or reforms—in those cases, he advocated many of the alterations proposed...

Having read in the proceedings of the city council of Friday the 13th inst., a statement made by Mr. G. M. Gaudin, president of the Board of Health, relative to the cholera epidemic...

deem it my duty to lay the petition, which I presented to the council, and to which Mr. L. U. Gaudin's name is attached, in this public forum.

To the honorable the mayor and members of the city council of New Orleans: I have the honor to acknowledge the receipt of your petition...

With his contemplated system of schools we are not intimately acquainted. But we believe he will propose primary schools in the different parishes; academies in the several judicial districts; and universities in the congressional districts...

In some sketches given formerly by other members of the senate, we made some remarks on their delivery. Aware as we are that diffidence of abilities is a mark of wisdom, we think that a legislator should in his enunciation display confidence in the accuracy of his principles and opinions...

We would sincerely regret his loss to the legislature of the state; and trust that his resignation may be avoided.

CITY COUNCIL—Friday, August 21st.

All members present, except Mr. Schmidt. The following report was received from the mayor: Mayor's Report, Monday August 21, 1890.

To the President of the City Council: I have the honor to transmit to you a letter from Mr. Joseph P. Hill, city surveyor.

The letter of the surveyor was read and referred. The letter of the de la Rosa being read, Mr. Gaudin moved to refer it to a special committee on the subject of the sale of water.

On motion of Mr. Gaudin the council resumed the discussion of the mayor's veto on the levee ordinance and the decision of the court in the case of the heirs of the late Deslandes.

The petition of fire company No. 1 was considered by the committee on the subject.

A resolution reported by the committee on finance on the subject of the loan to be obtained from the Commercial Bank, was passed—so that the mayor shall be authorized to send every Sunday three members of the city guard...

Mr. Leblanc presented a resolution to grant great gratuity to the widow of Mr. Joseph Dupont...
