From his excellency Governor Resnan.

I have examined with attention the system of writing taught by Mr Dolbear, and it is with pleasure that I certify to its superiority over any other method with which I am acquainted. Mr Dolbear having given private lessons in my family, I consider it but justice to add shat I believe him as succh worthy of public patronage on account of the correctness and mildness of his character, as on account of the rapid improvement of those who received his lessons.

Rew Orleans, 18th May, 1832.

On the invitation of Mr. Dolbear, a stacker of Pagaranahip in our city, upon this Carstainian system; we have carefully examined specimens of the writings of his pupils, whose ages range from 8 to 50 years, written through an entire coarse of instruction; and after having done so, it is with the highest satisfaction that we can teatify to the rapid if not unparalleled progress which they have made.

From the specimens seen and the examination of the system made, we cannot withhold the expression of a current opinion that the system is greatly superior to any hitherto taught. If to write legibly, elegantly, rapidly, and in good taste, be an accomplishment, useful or desirable it is upon the principles of this system that it is to be acquired. We therefore anxiously solicit of the public a theral patronage in favor of an instructor whose qualifications are of the highest order, and whose labors promise to be se exceedingly useful to this and other communities.
