The latest intelligence from Liverpool is to the 8th lt; from London and Havre to the 7th, and from Paris to the 8th. The president's message gives t nuch satisfaction in France, that it was anticipated e first instalment would be paid without waiting the result of the mediation by England. So we spined and

hoped long since.

But this real or apparent satisfaction may have been But this real or apparent satisfaction may have been stimulated by the concerted efforts likely to be made between France and England, to prevent the aggres sions of Russia both on Turkey and Poland—which would render it impolitie to have any disturbance with would render it impolite to have any distinguished with the United States. Besides there are various rumors current in Europe, of this country becoming an ally of the Germanic Commercial league, which being chiefly under the patronage of Russia, might not have a salutary effect on the commerce of England or

mands in the Texton army. Dangers will want on such dissensions; and it is much preferable that our citizens should be just towards alexico while being generous towards Texas, rather than really or ostensibly violate the national faith, and endanger the commerce of New Orleans.

We are however pleased to learn that it will be resuscitated; as a subscription of \$7000 has been re-commended and undertaken. There is room enough jection to a competent colabor r.

We had the pleasure of witnessing on Thursday part of the rehearsal of the Italian company, at Mr Caldwell's theatre; and can promise our fellow citizens a rich treat in the performances of this troupewhich will be on every Sunday, commencing on the 6th of March We have head that Mr Caldwell has engaged the members of the Italian company at an expense of \$20,000 for the season. This sum is immense; but it is ardently anticipated that the support

The whole city poured into the galleries of the sen-ate today, not under the expectation of being regaled or electrified by bursts of eloquence; but to hear the face of their metropolis. It 'would appear that the three corporations of this district had made application to congress to be relieved from their present pecuniary emburrassments, arising from a much larger subscription than their means would justify, to the state of the Chesapeake and Ohio canal company A bill for their relief had been reported by the district committee some days ago, which provides for the assumption of the debt of these corporations, occusioned by these imprudent subscriptions, and its consideration was expected today!

The corporation of Washington had entered largely into this canal project, by subscribing a million of dollars, which by expenses and taking the principal to pay the interest, and then paying interest upon that-now amounts to about \$,1400,000—the interest on

We are not surprised that the US district attorney has been ordered to incit use a criminal prosecution against Mr William Chairty, as having been engaged in transporting volunteers to Texas—considering the extensive publicity given to the letters written by some of the Tampico victums. Nor indeed are we displeased: for we are assured that the more minute the investigation, the less reason will there be to suspect him of any unworthy park; and the more will his hourable conduct be properly appreciated by his fellow citizens. It can be demonstrated—nny it has been—that he had no connection whatever with the expedition under General Mehis to Tampico.

But it is hoped that this suspicion and unfounded accusation will teach a lesson of policy and forbetry ance to him and all other generous and spirited citizens was regards the present struggle of the Texins. These are new so divided among themselves, that the provisional government has displaced General Samuel Houston and Colonel James Bowie from their commands in the Texina army. LETTER XXIX.

Washing on, Feb 11.

The whole city poured into the galleries of the senate today, not under the expectation of being regaled or electrified by bursts of eloquence; but to hear the content of the public and the public and the public and the public generally, and that the Sia e had lent its aid to objects of much interior interior, to a large amount, Mr Moore denounced the demand. We have incorporated several companies, under the pretence of internal improvements; in directly they ask amendments of their charters, so as to obtain relief from the State. If the road is likely to be of 50 much interior interns, in directly they ask amendments of their charters, so as to obtain relief from the State. If the road is likely to be of 50 much interior interns, in directly they ask amendments of their charters, so as to obtain relief from the State. Mr Labauve moved to reject the section; on which

and why should we lend our assistance to incre speculators?

Mr Labauve moved to reject the section; on which, being seconded and put, the vote stood, Messra Brownson, Dupre, Johnson, Libauve, Lewis, Landry, Moore, Morancy, Reid and Tete-3; and Messra Citory, Hes., Labranche and Lacosie, in the negative—4.

The 1st section being lost, the second, third and fourth shared its tate.

The next section repealed the clause forfeiting the charter of the company, if the Legislature of Missississispip did not ratify it in one year. Adopted.

The second now in order was to authorize the payment of instalments on the shares subscribed, althout the legislature of Mississippi may not have sanctioned the charter,—and to permit the company to retain all the privileges of their charter.

Mr Mowre moved to reject this section. The road was to have been made only when the joint consent of the States of Mississippi and Tennessee should have been granted. Now the company wish that we should earction their making the road only in Louisiana, knowing that they will not get the consent of Mississippi to the route they wish. He carnestly calls on the Legislature to prevent this purpose. The company have the exclusive privilege of 15 miles on each side of their route; and will by this means be enabled to impede the obstruction of the rail roads—of which there re now three projected in Florida, and thus control all internal improvements in his district, by having the preference and extensive route.

Mr Hoa showed that the company want to construct the road in this State first, but not alone here; for when the consent of the Mississippi legislature shall have been granted for the route designated by the company through that State, it will be there continued and completed. This consent is confidently anticipated. That there is opposition to the route, is known; but that it will be continued after the interested excitement shall have given place to reason, and conviction of the many benefits certain to arise from this road to Mississippi as

the greater the competition, the greater the advantages resulting.
Yet why should the New O leans and Nashville rail road be displaced for the Livingsion or Springfield? Are these of equal magnitude and importance as that to the State generally? Were not they incorporated after it? Why therefore should it be rendered subordinate to them? Is this the species of justice and patriotism which we are to expect from the members of the legislature? Shall they disregard the general welfare of the State, in order to protect, the petty interests of their own district? He earneally hoped that the sec ion would pass.

Mr Johnson invoked to postpone it, in order to see whether it would conflict with the routes of the rail roads alluded to by the Senator from St Helena Adopted.

ALEXANDERIA, Feb. 17.

The most recent news from this country places affairs in stater an unfavourable light. There seems to be a great want of manimity, without which the Texia is can nev r succeed in the cause for which they have sometime being struggling. The inhabitants of Tollado have reduced from independence whilst those of the castern division of Texas are firm in their support of the constitution of 1826. Genera Houston and Colonel James Bowie, have been distinished from their services in the army, by the Councillation of Bowie, as well as most of Houston and Colonel James Bowie, have been dis-missed from their services in the army, by the Counci-of Texas—Houston and Bowie, as well as most o-the volunteers, have joined the independent party, and are n. wo on their murch into the interior. This new-comes in a shape that seems to warrant us in s-y-ing that at may be considered authentic.—Intelligen cer.

The President's message had reached Paris, and was ree ived with general satisfaction. Captain lances informs us that it was suppored the Indemnity Money would be paid, on the strength of the Message, without waiting for the result of the meliation. This opinion is rather countenanced than otherwise, by the clause in the Address of the Chamber of Peers, adopted by a vote of 95 to 8, which speaks of the Message as giving ground to hope for a speedy adjustment of the dispute. A paragraph which we have translated from the Monieur in Commerce, Intimates that this question formed one cause of the Unity in reporting the Address of the Chamber of Depairs, which was still in the hards of the Committee. This, however, is probably little more than conjecture; and besid a, it is state in the same paper that the chief causes of the delay were questions relating to Spain and Poland.

England seems to forget its own affairs, in order to take up thosa of Eussia. The journals of every colour are full of attacks and menancys against the Autocrat. The Morning Iterald, an advocate of Tory Principles, brings to mind, that if Persia has escaped the fate of Turkey, such a result is due to the active influence of England. The journal regrets that the same principles have not been acted upon with regard to Turkey. This in fact is one of the most serious charges of the opposition against the whigs, and which reserved to the Torics in 1824, the force which they had last. The arm ments continue with a living in the military ports of Great Brian. At Portsmouth the manufactories are open night and day and no doubt can exist that the naxy will be put upon a formidable footing. The medication proferred by England in the quarrel between France and the United States was at one time considered to be the cause of that activity, but that supposition must now appear groundless, in as much as the message contains elements of reconciliation and of concord.

Farix, Jin. 7.—The Committee appointed to prepare the Address of the Chamber of D puties, are not yet ready to make their report.
