MONDAY MORNING, MAY 2, 1836. FOR PRESIDENT M. VAN BUREN. POR VICE PRESIDENT RICHARD M. JOHNSON. The delegation from the parish of Orleans last yes-

row unregation from the parish of Orleans last yes-riday for Baton Rouge, to attend the state convention if the democratic party, to be held today, for the pur-sess of selecting electors of the president and vice-resident. The convention is likely to be numerously trended. Major-giveral Maccars left here on Saturday, on his ettern to Washington. He gained many friends here yethe suavity of his manners, and his dignified deportment. The theatres seem to be a favorite resort with him: for almost every evening of the seven that he sentinued here, he visited either the French, Caldenille or Beneally at heatre.

THE WATERWOODS. We congraturate our tellow ex-tinens that the water is now in all the pipes throughout the city; and that more pipes will shortly be laid. Two compartments of the reservoir have been filled to a depth of 7 feet—the engine having forced 3,800,800 gallons of water from the river into the reservoir in the gallons of water from the river into the receivedr in the first 24 hours; and 3,300,000 in the second day—more than can be done at the Fairmeunt waterworks in Philadelphia, despite the abundance of their engines and their extraordinary expenditures. The latter works cost about a million and a half of dollars, while the works in this city cost not half a million, yet are equally if not more effective.

By a cistern which the engineer has had constructed in one of the compartments of the reservoir, he has elevated the water about 10 feet above the walls—thus raining it nearly 30 feet above the level of any part of the city; so that the highest houses may have water in their third or fourth stories. All should now have hydrants constructed on their premises; and they can

M de Armas moved that the conneil proceed to appointing by ballot the perhanent committees. The general council will assemble on the 2nd of May, his council should be so organised as to fill his prop at at it too.

Mr Cason supported the motion, and propose d it at a committee of correspondence be added to the list of permanent committees. By the 20th section of the faw of division, the general council is to meet on the request of the Mayor or of two of the ceunoils. This provisions renders necessary the appointment of the mayor or of two of the ceunoils. The motion thus amended was adopted. The following communication was received f the list Municipality.

Genericans, Pichot, Processa, April 20th 1826.

To the President and Members of the Council of the list Municipality.

Genericans and Members of the Council of the list Municipality as were preparatory one, masmuch as it will be especially employed in verifying the qualifications as it will are especially employed in verifying the publications as it will be especially employed in verifying the publication of the especial employed in verifying the second of the list Municipality; the General Council is swing to meet agreeably to law, on Monday the 2nd of May next, I shall avail myself of that opportunity to sul tenit to their consideration a statement of the Real Essate of the delation of the several departments of the admit say I can obtain sufficient information to that effect from the their third or fourth stories. All should now have hydrants constructed on their premises; and they can have an abundant supply of good water at all seasons. The waterworks committee of the Commercial bank propose having tomorrow a celebration of the completion of their works, when a procession is expected of the different fire companies, to whom and others a collation will be given on the occasion. The procession will go as far as the cathedral square, to witness the opening and effects of the jet d'esse lately constructed there. The cast of the water by that will be upwards of 30 feet in height; and will present a truly beautiful anomance.

City Councils of New-Orleans FIRST MUNICIPALITY.

Sitting of April 30, 1836.

At 10 minutes past 5 p m, Mr P. Hertus, Recorder elect, took liss seat as president of the council. The members seasont were Measer Armas, Buisson, E. Bertus, Canon, Congret, Cruzat, Dapl ssis, Graitle, Lairrue, Laurent, Lessepa, Pedesclaux, Philips, Pichot, Pitot, Roseinss, Schmidt and Wilcox. Shortly after the other members arrived and the Council was complete.

chot, Pitot, Roselius, Schmidt and Wilcox. Shortly after the other members arrived and the Council was complete.

Mr Canon nevved that the former ragulations remain in force, till a committee of five members be appointed to draw new regulations.

Mr Philipe thought the Council should first preced to the verification of the elections; for if members not qualified for a seat in the Council should vote, the proceedings would not be legal.

Mr Buisson thought that a member is presumed to be qualified until the contrary is proved.

Mr Pichot agrees with Mr Buisson.

The motion of Mr Canon was adopted.

The Recorder appointed Mesers Canon, de Armas Pedseclaur, Pichot & Schmidt members of the committee to draw the new regulations of the Council.

Mr de Armas served that a committee of three members be appelated to verify the elections of Mayor, Recorder and Aldermen,

Mr Baisson moved for a recess of the minutes, to give time to the committee to report on that subject.

Mr Canon was opposed to that motion on account of the short time allowed to the committee. Every member ought to be provided with all his tides, and not with a single certificate from the city treasurer proving that be pays tax; they ought to prove that they possess all the qualifications necessary to be entil led to a seat in the Council. Mr Graithe observed that the General Council ha-wing to meet on Menday next, this verification should be made immediately; therefore he seconded the mo-tion of the member of the 5th district. Mr de Armas said that if it could be proved that it was absolutely pecasary to proceed immediately, he

the sach immediately; therefore he seconded the motion of the member of the 5th district.

Mr de Arman said that if it could be proved that it was absolutely necessary to proceed immediately, he would vote in favor of the motion, but as he was not convinced, he would vote in favor of the motion of the member of the thick that it. Let the Council look to the very regular manner of proceeding in all legislative bodies; the State legislative, the United States congress. A committee is appointed, who reports after investigating the queetion at full length. No matter what may be the delay, still these bodies dispose of very important essections. Influenced by these movives, he will vote for the motion of his colleague of the 4th ward.

Mr Geselius opposed this monion. What can be more important than to organize the Council. How is the Council to be organized, but to examine the legal quantifications of each member elected? Another coasideration should impress the necessity of this measure. According to the law for the division of the city, the general council assemble, if the election and derman is not legally confirmed? The member of the member of the surface of the process without the council matters not; the council must fulfil their mendate. The member supports the motion for the council matters not; the council must fulfil their mendate. The member supports the motion from that measure the proceeding of the council will be legal.

Mr Grailbe presented a resolution "that the council will proceed immediately to verify the last election of light has upon particular diseases." It will be proper to premiate the exclusion of the candidates elected."
